PO Box 748
Hillsboro, OR 97124

REFERENCE: File G-12190

We received your application on July 26, 1990, describing the proposed use of 1.0 cubic foot per second of water from one well within Baldock Slough Basin for irrigation of 16.0 acres and supplemental irrigation of 24.0 acres. Supporting data and fees in the amount of \$360 were also received. Our Receipt 65504 is enclosed. The application has been assigned file number G-12190 and will be reviewed in detail as time allows.

Applications which are received in proper form with required maps, supporting data and fees can be considered for approval by issuance of permits following a mandatory 30-day waiting period and after public interest matters are resolved.

Applications which require additional information will be returned for correction and/or completion. In those cases, the process will, of course, be further delayed. If you feel that a delay in the processing of your application will cause a hardship, please advise.

If the application is approved, the permit authorizing the described project will be subject to the Water Resources Commission's Basin Program statements, prior rights, and would require that the well be constructed and maintained in accordance with the General Standards for the Construction of Water Wells in Oregon. If you have any questions regarding these provisions or the Well Standards, please contact this office.

If you have any questions, please contact the Water Rights Section at the above telephone number.
