Re: Ownership Updates

To Whom It May Concern:

We discovered recently that our name is still appearing as a partial owner of certificated water rights for one of our customers. After speaking with Jeff from your office, he advised me to complete the Ownership Update forms for each Certificate. I am enclosing them to release our interest in the following Certificates of Water Rights: 86590, 86593 and 86591 (copies also enclosed). If you have any questions or need additional information, please do not hesitate to contact me at (541) 504-3500. Thank you for your assistance!

Sincerely,

# Certificate of Water Right Ownership Update

## NOTICE TO SELLERS & BUYERS:

By law, all water belongs to the public (ORS 537.110). In almost every instance, a permit or water right certificate from the Water Resources Department is needed before using, diverting or storing water (ORS 537.130). However, most domestic wells do not require water rights. A certificate of water right stays with the land. In order to keep track of water right ownership, the Department requests that this form be submitted to the Department. *If for multiple rights, a separate form for each right will be required.*

Water that has been used for a long time in one place or that involves a water structure (like a dam) that already exists is no guarantee that there is a water right which would allow the water use to continue.

If you have any questions about this form or water right requirements, please contact your local watermaster or call the Water Resources Department at 503-986-0900.

*Note: Please type or print legibly when filling in the following information. Use additional paper if necessary.*
