## **AUTHORITY**

**Generally, see ORS 537.230 and OAR Chapter 690 Division 315.**

**ORS 537.230(3)** provides in pertinent part that the Oregon Water Resources Department (Department) may, for good cause shown, order an extension of time within which irrigation or other works shall be completed or the right perfected. In determining the extension, the Department shall give due weight to the considerations described under ORS 539.010(5) and to whether other governmental requirements relating to the project have significantly delayed completion of construction or perfection of the right.

**ORS 539.010(5)** provides in pertinent part that the Water Resources Director, for good cause shown, may extend the time within which the full amount of the water appropriated shall be applied to a beneficial use. This statute instructs the Director to consider: the cost of the appropriation and application of the water to a beneficial purpose; the good faith of the appropriator; the market for water or power to be supplied; the present demands therefore; and the income or use that may be required to provide fair and reasonable returns upon the investment.

**OAR 690-315-0040** provides in pertinent part that the Water Resources Department shall make findings to determine if an extension of time may be approved to complete construction and/or apply water to full beneficial use.

## **FINDINGS OF FACT**

### **Background**

1. Permit S-53646 was issued by the Department on January 31, 2000. The permit authorizes the use of up to 5.0 AF of water from an unnamed reservoir, to be constructed under Application R-84040 (Permit R-12755) (as evidenced by Water Right Certificate 91198), a tributary of Salt Creek, for irrigation of 2.0 acres. The permit specified actual construction was to begin by December 13, 2000, and complete application of water was to be made on or before October 1, 2004.
2. On February 2, 2015, the Department issued a letter by certified mail to the mailing address listed in the permit file, requesting either a Claim of Beneficial Use or an extension of time be submitted, or cancellation proceedings for Permit S-53646 would begin. The letter was returned to the Department as undeliverable on February 10, 2016.

3. On March 2, 2015, the Department issued a letter by certified mail to an alternate address for the permit holder, requesting either a Claim of Beneficial Use or an extension of time be submitted, or cancellation proceedings for Permit S-53646 would begin. The letter was received by the permit holder on March 7, 2015.
4. On June 8, 2015, the Department issued a letter by certified mail to an alternate address for the permit holder, requesting either a Claim of Beneficial Use or an extension of time be submitted, or cancellation proceedings for Permit S-53646 would begin. The letter was received by the permit holder on June 9, 2015.
5. On November 20, 2015, the Department issued a Cancellation of Certain Permit(s) to Appropriate Water under the provisions of ORS 537.260 for Permit S-53646, for failure to make proof of appropriation of water under the terms and conditions of the permit.
6. On December 2, 2015, the Department received a request for reconsideration on Permit S-53646.
7. On December 11, 2015, the Department issued an order reinstating Permit S-53646, as recorded in Special Order Volume 98, page 452.
8. The permit holder, Stephen L. Lawhead, submitted an "Application for Extension of Time" to the Department on May 31, 2016, requesting the time to apply water to full beneficial use under the terms of Permit S-53646 be extended from October 1, 2004, to October 1, 2017. This is the first permit extension requested for Permit S-53646.
9. Notification of the Application for Extension of Time for Permit S-53646 was published in the Department's Public Notice dated June 7, 2016. No public comments were received regarding the extension application.

**Review Criteria [OAR 690-315-0040]**

*The time limits to complete construction and/or apply water to full beneficial use may be extended if the Department finds that the permit holder has met the requirements set forth under OAR 690-315-0040. This determination shall consider the applicable requirements of ORS 537.230<sup>2</sup>, 537.248<sup>3</sup> and/or 539.010(5)<sup>4</sup>.*

**Complete Extension of Time Application [OAR 690-315-0040(1)(a)]**

10. On May 31, 2016, the Department received a completed Application for Extension of Time and the fee specified in ORS 536.050 from the permit holder.

**Start of Construction [OAR 690-315-0040(1)(b) and 690-315-0040(5)]**

11. Actual construction of the water system began prior to the December 13, 2000, deadline specified in the permit. According to the permit holder, construction of the

water system began on January 31, 2000. Construction included the excavation of the reservoir and spillway which serves as the point of diversion for the water system.

According to claim of beneficial use received for Permit R-12755 submitted to the Department April 2, 2015, actual construction of the reservoir began during the summer of 1999. The Department has determined the permit holder has satisfied the condition requiring beginning of construction of the water works.

**Duration of Extension [OAR 690-315-0040(1)(c)]**

*Under OAR 690-315-0040(1)(c), in order to approve an extension of time for water use permits the Department must find that the time requested is reasonable and the applicant can complete the project within the time requested.*

12. As of May 31, 2016, the permit holder states the remaining work to be completed consists of applying water to full beneficial use.

Given the amount of development left to occur, the Department has determined that the permit holder's request to have until October 1, 2017, to accomplish the application of water to beneficial use under the terms and conditions of Permit S-53646 is both reasonable and necessary.

**Good Cause [OAR 690-315-0040(1)(d)]**

*The Department's determination of good cause shall consider the requirements set forth under OAR 690-315-0040(2).*

**Reasonable Diligence of the Appropriator [OAR 690-315-0040(2)(a)]**

*The Department's determination of reasonable diligence shall consider the requirements set forth under OAR 690-315-0040(3)(a-d). In accordance with OAR 690-315-0040(3), the Department shall consider, but is not limited to, the following factors when determining whether the applicant has demonstrated reasonable diligence in previous performance under the permit:*

**Amount of Construction [OAR 690-315-0040(3)(a)]**

13. The application states work was accomplished within the time allowed in the permit or previous extension as follows:
  - a. Construction of the water system began prior to the December 13, 2000, deadline specified in the permit. According to the permit holder, construction of the reservoir and spillway began on January 31, 2000.

According to the claim of beneficial use for Permit R-12755 submitted to the Department on April 2, 2016, construction of the reservoir began during the summer of 1999.
  - b. Work was completed during the original development time frame under Permit S-53646. The permit holder completed the reservoir on June 20, 2000.

- c. Since October 1, 2004, the permit holder has installed the pump and fish screen as required by Permit S-53646.

The Department has determined that work has been accomplished within the time allowed in the permit, which provides evidence of good cause and reasonable diligence from the appropriator towards the complete application of water to a beneficial use.

**Beneficial Use of Water [OAR 690-315-0040(3)(b)]**

14. The application states a maximum volume of 3.0 AF of water has been diverted from the unnamed reservoir perfected under Permit R-12755 as evidenced by Water Right Certificate 91198 for irrigation of 2.0 acres.
15. Beneficial use of water has not yet been demonstrated under this permit because not all permit conditions were satisfied by the October 1, 2004.

**Compliance with Conditions [OAR 690-315-0040(3)(c)]**

16. The Department has considered the permit holder's compliance with conditions, and did not identify any concerns.
17. On May 12, 2016, the permit holder submitted a Small Pump Screen Self Certification as evidence of having met the fish screen installation condition as required by Permit S-53646. This document is located in the Department file for Permit S-53646.

**Financial Investments to appropriate and Apply Water to a Beneficial Purpose [OAR 690-315-0040(2)(b),(3)(d),(4)(d)]**

18. The applications states the permit holder has invested about \$10,000, which is the total projected cost for complete development of this project.

**Good Faith of the Appropriator [OAR 690-315-0040(2)(c)]**

19. The Department has found good faith of the appropriator under Permit S-53646.

**The Market and Present Demands for Water [OAR 690-315-0040(2)(d-e)]**

*The Department's determinations of market and present demand for water or power to be supplied shall consider the requirements set forth under OAR 690-315-0040(4)(a-f). In accordance with OAR 690-315-0040(4), the Department shall consider, but is not limited to, the following factors when determining the market and the present demand for water or power to be supplied:*

The amount of water available to satisfy other affected water rights and scenic waterway flows; special water use designations established since permit issuance, including but not limited to state scenic waterways, federal wild and scenic rivers, serious water management problem areas or water quality limited sources established under 33 U.S.C. 1313(d); or the habitat needs of sensitive, threatened or endangered species, in consultation with the Oregon Department of Fish and Wildlife [OAR 690-315-0040(4)(a-c)].

20. The amount of water available to satisfy other affected water rights and scenic waterway flows was determined at the time of issuance of Permit S-53646; furthermore, water availability for other affected water rights and scenic waterway flows after the permit was issued is determined when an application for a new water right is submitted. The point of diversion is located on an unnamed reservoir, a tributary of Salt Creek, and is not located within a Withdrawn Area. The unnamed reservoir, a tributary of Salt Creek is not located within or above a state or federal scenic waterway, however, it is located within an area ranked "moderate" for stream flow restoration needs as determined by the Department in consultation with the Oregon Department of Fish and Wildlife, and is located within a Sensitive, Threatened or Endangered Fish Species Area as identified by the Department in consultation with Oregon Department of Fish and Wildlife. The point of diversion is not in a location listed by the Department of Environmental Quality as a water quality limited stream.
21. Other economic interests dependent on completion of the project [OAR 690-315-0040(4)(e)].
  - a. None have been identified.
22. Other factors relevant to the determination of the market and present demand for water and power [OAR 690-315-0040(4)(f)].
  - a. None have been identified.

**Fair Return Upon Investment [OAR 690-315-0040(2)(f)]**

23. Use and income from the permitted water development will likely result in reasonable returns upon the investment made to date.

**Other Governmental Requirements [OAR 690-315-0040(2)(g)]**

24. Delay in the development of this project was not caused by any other governmental requirements.

**Unforeseen Events [OAR 690-315-0040(2)(h)]**

25. None have been identified.

## **CONCLUSIONS OF LAW**

1. The applicant is entitled to apply for an extension of time to completely apply water to the full beneficial use pursuant to ORS 537.230(3).
2. The applicant has submitted a complete extension application form and the fee specified in ORS 536.050, as required by OAR 690-315-0040(1)(a).
3. The applicant complied with begin actual construction timeline requirements pursuant to ORS 537.230 as required by OAR 690-315-0040(1)(b) and OAR 690-315-0040(5).

4. Based on Finding of Facts 11 through 19, full application of water to beneficial use can be accomplished by October 1, 2017<sup>5</sup>, as required by OAR 690-315-0040(1)(c).
5. The Department has considered the reasonable diligence and good faith of the appropriator, the cost to appropriate and apply water to a beneficial purpose, the market and present demands for water to be supplied, the financial investment made and fair and reasonable return upon the investment, the requirements of other governmental agencies, and unforeseen events over which the permit holder had no control, whether denial of the extension will result in undue hardship to the applicant and whether there are no other reasonable alternatives for meeting water use needs, any other factors relevant to a determination of good cause, and has determined that the applicant has shown that good cause exists for an extension of time apply water to full beneficial use pursuant to OAR 690-315-0040(1)(d).

### PROPOSED ORDER

Based upon the foregoing Findings of Fact and Conclusions of Law, the Department proposes to issue an order to:

Extend the time to apply water to beneficial use under Permit S-53646 from October 1, 2004, to October 1, 2017.

DATED: July 26, 2016

#### Proposed Final Order Hearing Rights

1. Under the provisions of OAR 690-315-0100(1) and 690-315-0060, the applicant or any other person adversely affected or aggrieved by the proposed final order may submit a written protest to the proposed final order. The written protest must be received by the Water Resources Department no later than **September 9, 2016**, being 45 days from the date of publication of the proposed final order in the Department's weekly notice.

---

<sup>5</sup>Pursuant to ORS 537.230(3), upon the completion of beneficial use of water allowed under the permit, the permittee shall hire a certified water rights examiner to survey the appropriation. Within one year after the complete application of water to a beneficial use (or by the date allowed for the complete application of water to a beneficial use), the permittee shall submit a map of the survey and a new or revised claim of beneficial use as deemed appropriate by the Department.

2. A written protest shall include:
  - a. The name, address and telephone number of the petitioner;
  - b. A description of the petitioner's interest in the proposed final order and if the protestant claims to represent the public interest, a precise statement of the public interest represented;
  - c. A detailed description of how the action proposed in the proposed final order would adversely affect or aggrieve the petitioner's interest;
  - d. A detailed description of how the proposed final order is in error or deficient and how to correct the alleged error or deficiency;
  - e. Any citation of legal authority supporting the petitioner, if known;
  - f. Proof of service of the protest upon the water right permit holder, if petitioner is other than the water right permit holder; and
  - g. The applicant or non-applicant protest fee required under ORS 536.050.
  
3. Within 60 days after the close of the period for requesting a contested case hearing, the Director shall:
  - a. Issue a final order on the extension request; or
  - b. Schedule a contested case hearing if a protest has been submitted, and:
    - 1) Upon review of the issues, the Director finds there are significant disputes related to the proposed agency action; or
    - 2) The applicant submits a written request for a contested case hearing within 30 days after the close of the period for submitting protests.
