MEMO

December 18, 1995

TO Application G- 12177

#2 = 77700059

FROM GW: K. Lite
(Reviewer's Name)

SUBJECT Scenic Waterway Interference Evaluation

- Yes
- No

The source of appropriation is within or above a Scenic Waterway.

- Yes
- No

Use the Scenic Waterway condition (Condition 7J).

PREPONDERANCE OF EVIDENCE FINDING: (Check box only if statement is true)

At this time the Department is unable to find that there is a preponderance of evidence that the proposed use of ground water will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife.

FLOW REDUCTION: (To be filled out only if Preponderance of Evidence box is not checked)

Exercise of this permit is calculated to reduce monthly flows in _____ Scenic Waterway by the following amounts expressed as a proportion of the consumptive use by which surface water flow is reduced.

INTEROFFICE MEMO

To: FILE

Date: September 30, 1991

From: MICHAEL ZWART ^{MTZ}

Subject: APPLICATION G-12177, THOMAS G. STRAND

The subject wells penetrate a moderately deep sand and gravel aquifer, and may be in hydraulic connection with the Crooked River. However, the potential for substantial interference with the river is remote, due to the distance (over 3100 feet) between the wells and the river.
