Dear Daniel E. Davis:

The Water Resources Department has received your applications to use and store water. At this time however, we are unable to accept your applications, because the minimum filing requirements are not met according to the Oregon Administrative Rules (OAR 690-310-0040 and 0050).

We are hereby returning the incomplete applications and the fees submitted. Please return the applications, the required information, and [this checklist](#), so the Department may begin processing your applications in a timely manner. The Three Reservoir applications appear to be in proper form, however you must realize that multiple fills per year on a reservoir outside the storage season will require a surface water application that correctly identifies the flow amount of water in CFS that will be required to refill the reservoirs.

This review is based only on the completeness of your application. Any determination of water availability, compliance with basin plan rules, or any other water related issues has not been made.

Should you have any questions, please do not hesitate to contact Herb Mosgar at the address above or by telephone at 503-986-0804.

Sincerely,

Jerry Sauter
Water Rights Program Analyst
