Note: Attach multiple copies as needed

* By providing an e-mail address, consent is given to receive all correspondence from the department **RECEIVED BY OWRD** electronically. (paper copies of the final order documents will also be mailed.)

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- The Department encourages all applicants to wait for a permit to be issued before beginning construction of any proposed diversion. Acceptance of this application does not guarantee a permit will be issued.
- If I begin construction prior to the issuance of a permit, I assume all risks associated with my actions.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be cancelled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water right holders to get water to which they are entitled.

SECTION 2: PROPERTY OWNERSHIP

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

Yes

- There are no encumbrances.
- This land is encumbered by easements, rights of way, roads or other encumbrances.

No

- I have a recorded easement or written authorization permitting access.
- I do not currently have written authorization or easement permitting access.
- Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).
- Water is to be diverted, conveyed, and/or used only on federal lands.

List the names and mailing addresses of all affected landowners (*attach additional sheets if necessary*).

NA

You must provide the legal description of: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the water is to be used as depicted on the map.

SECTION 3: SOURCE OF WATER

A. Proposed Source of Water

Provide the commonly used name of the water body from which water will be diverted, and the name of the stream or lake it flows into. If unnamed, say so:

Source 1: Pierce Creek

Tributary to: Little Muddy Creek

RECEIVED BY OWRD

Source 2: Tub Run

Tributary to: Little Muddy Creek

Tributary to: _____

Source 4: _____

Tributary to: _____

SALEM, OR

If any source listed above is stored water that is authorized under a water right permit, certificate, or decree, attach a copy of the document or list the document number (for decrees, list the volume, page and/or decree name).

RECEIVED BY OWRD

B. Applications to Use Stored Water

Do you, or will you, own the reservoir(s) described in item 3A above? NA

AUG 25 2016

NA Yes.

SALEM, OR

NA No. (Please enclose a copy of your written notification to the operator of the reservoir of your intent to file this application, which you should have already mailed or delivered to the operator.)

If all sources listed in item 3A are stored water, the Department will review your application using the expedited process provided in ORS 537.147, unless you check the box below. Please see the instruction booklet for more information.

NA By checking this box, you are requesting that the Department process your application under the standard process outlined in ORS 537.150 and 537.153, rather than the expedited process provided by ORS 537.147. To file an application under the standard process, you must enclose the following:

- A copy of a signed non-expired contract or other agreement with the owner of the reservoir (if not you) to impound the volume of water you propose to use in this application.
- A copy of your written agreement with the party (if any) delivering the water from the reservoir to you.

SECTION 4: WATER USE

Provide the amount of water you propose to use from each source, for each use, in cubic feet-per-second (cfs) or gallons-per-minute (gpm). If the proposed use is from storage, provide the amount in acre-feet (af):
(1 cfs equals 448.8 gpm. 1 acre-foot equals 325,851 gallons or 43,560 cubic feet)

SOURCE	USE	PERIOD OF USE	AMOUNT
Pierce Creek	Irrigation	Irrigation Season	0.625* <input checked="" type="checkbox"/> cfs
Tub Run	Irrigation	Irrigation Season	0.625* <input checked="" type="checkbox"/> cfs
Pierce Creek	Reservoir Maint.	Irrigation Season	106.1* <input checked="" type="checkbox"/> af
Tub Run	Reservoir Maint.	Irrigation Season	106.1 * <input checked="" type="checkbox"/> af

*Note: these rates and duties are the combined maximum needed from the two sources, but the individual amounts from each source are not known.

For irrigation use only:
 Please indicate the number of primary and supplemental acres to be irrigated.
 Primary: 212.2 Acres Supplemental: NA Acres
 List the Permit or Certificate number of the underlying primary water right(s): NA
 Indicate the maximum total number of acre-feet you expect to use in an irrigation season: 100 (= 50AC/YR x 2)

RECEIVED BY OWRD

- If the use is **municipal or quasi-municipal**, attach **Form M**
- If the use is **domestic**, indicate the number of households: NA
- If the use is **mining**, describe what is being mined and the method(s) of extraction:
NA

SECTION 5: WATER MANAGEMENT

A. Diversion and Conveyance

What equipment will you use to pump water from your source?

Pump (give horsepower and type): 10 - centrifugal

Other means (describe): _____

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water.

The two diversions will be excavated trenches directly off-channel being 12' long and 6' wide and a depth to encourage natural flow from the creek. Each trench will have a 36" diameter perforated pipe surrounded by river rock. ODFW personnel have reviewed and approved this design in the past. The pumps will be portable, diesel powered pumps.

B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler)

Flood irrigation is the method for the wild rice. Overhead sprinklers will be used in years when the wild rice is not being grown. Approximately 50 acres of land per year will not be in wild rice and instead will be sprinkler irrigated for an alternate crop.

C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to public uses of affected surface waters.

The owner is requesting about 6" depth of water in the reservoirs per year from the pump diversions per year. The owner knows from experience that the wild rice reservoirs need 0-6" depth of water (depending on weather) each early Summer to maintain the depth needed for the rice. The overhead irrigation area in this application is for the entire reservoir area although only about 50 acres will be irrigated per year; however, the rate and duty requested for the irrigation is for the 50 acres. The overhead irrigated area will rotate constantly around the site, see the Remarks Section.

SECTION 6: RESOURCE PROTECTION

In granting permission to use water from a stream or lake, the state encourages, and in some instances requires, careful control of activities that may affect the waterway or streamside area. See instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources.

RECEIVED BY OWRD

Diversion will be screened to prevent uptake of fish and other aquatic life.

Describe planned actions: The two diversions will be excavated trenches directly off-channel being 12' long and 6' wide and a depth to encourage natural flow from the creek. Each trench will have a 36" diameter perforated pipe surrounded by river rock. ODFW personnel have reviewed and approved this design in the past.

AUG 25 2016

SALEM, OR

Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas.

Describe planned actions: The banks will be excavated and replaced as described above. This way impacts to the channel are minimal.

- Operating equipment in a water body will be managed and timed to prevent damage to aquatic life.
Describe: _____
- Water quality will be protected by preventing erosion and run-off of waste or chemical products.
Describe: All reservoir will have emergency spillways that are lined with rock to prevent erosion.

SECTION 7: PROJECT SCHEDULE

Date construction will begin: Late 2016

Date construction will be completed: Late 2020

Date beneficial water use will begin: Late 2017

SECTION 8: WITHIN A DISTRICT

Check here if the point of diversion or place of use are located within or served by an irrigation or other water district.

Irrigation District Name NA	Address	
City	State	Zip

SECTION 9: REMARKS

Use this space to clarify any information you have provided in the application.

This application is to use two sources of surface water to maintain the water level of 10 reservoirs (impoundments) used to grow wild rice. The reservoirs will be filled by natural runoff and precipitation each year and are being applied for in a separate storage application. In late Spring or early Summer the reservoirs typically drop are 3" in depth on average depending on the weather and local soils. This application includes this water for reservoir maintenance for a maximum of 6" depth on the reservoirs each year.

The crop needs to be changed from the wild rice about once in five years to manage weeds and other reasons. The owner expects about 50 acres pre years will be rotated out of wild rice and put into another crop and irrigated with overhead sprinklers using water from either of the two pump diversions. This application lists the entire area in reservoirs for irrigation area; however, only 50 acres is expected to be irrigated each year (instead of growing the wild rice). So the maximum rate and duty for the irrigation is based on the 50 acres instead of the entire irrigated area.

Land Use Information Form

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.wrd.state.or.us

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): LCC 928.310(B)(1)

Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action land-use decision and accompanying findings are sufficient.) If approvals have been obtained but all appeal periods have not ended, check "Being pursued."

Type of Land-Use Approval Needed (e.g. plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant Applicable Plan Policies & Ordinance Section References	Land-Use Approval

Signature (in ink) of all applicants or the applicant's authorized agent (include title or authority if for an organization or corporation).

Property ownership: Does the applicant own all the land for the proposed project? Y / N

If No:

The affected landowner's name and mailing address must be listed

A signed statement declaring the existence of either written authorization or an easement permitting access to land crossed by the proposed ditch canal or other work must be submitted.

For a SW Application: Source of water must be indicated.

If the source is stored water, is the stored water component filled out and does the applicant own the reservoir or include a non-expired agreement for stored water? (ORS 537.400)

NOTE: A surface water application cannot be filed at the same time as a Reservoir or Alt Reservoir if it will be for the use of the stored water under the PROPOSED Reservoir application, Exp. Secondary (E2).

If for stored water not under contract, is the source authorized under a permit, certificate, or decree?

Permit or Certificate issued? Y / N Permit or Certificate # _____

~~N/A~~ For a GW Application: Well Development Tables completed and/or a well log report included (if existing)

Proposed water use

Amount of water from each source in GPM, CFS, or AF

Period of use indicated

If for supplemental irrigation, primary acreage or underlying permit or certificate number listed

(Primary and Supplemental Irrigation counts as 2 uses)

RECEIVED BY OWRD

Water Management Section (Estimates if the water system has not been designed)

Resource Protection Section (N/A for Groundwater)

SALEM, OR

For all standard reservoir applications: Preliminary plans and specifications including dam height, width, crest width and surface area for each reservoir.

Project schedule (If system is already completed, indicate "existing.")

- Supplemental data sheets enclosed (if needed)
 - Form M (Municipal or Quasi-Municipal)
 - Spring Description Sheet (if source is a spring)
- A completed **Land-Use Form** or receipt signed and dated by the appropriate planning department officials. *Please be certain that the Land-Use form lists all lands involved and all uses proposed. Date of signature must be within the past 12 months.*
- A **Legal Description** of all the properties involved where water is diverted, crossed, and used. The Legal description includes a metes and bounds or other government survey description. A copy of the deed, land sales contract or title insurance policy can provide this information, or applicant may submit a lot book report prepared by a title company. Copies of tax bills are not acceptable.
- The proposed source **IS / IS NOT** (circle one) restricted or withdrawn from further appropriation. *NOTE: If it is withdrawn under ORS 538, then return application and fees. If it is withdrawn by other means, accept the application and a negative IR will be issued.*
- The **map** must meet all the minimum requirements of OAR 690-310-0050.
 - Township, Range, Section
 - Location of main canals, ditches, pipelines or flumes (if POA/POD is outside of POU)
 - Place of use, 1/4-1/4's and tax lot clearly identified
 - Even map scale not less than 4" = 1 mile (1" = 1320 ft.); examples: 1" = 100 ft., 1" = 200 ft.
 - Location of *each* diversion point, well or dam by reference to a recognized public land survey corner. Multiple wells shall be uniquely labeled, and identified on well logs if existing.
 - Reference corner on map
 - North Directional Symbol
 - Number of acres per 1/4-1/4 if for irrigation, nursery, or agriculture
 - For a standard reservoir application to store ≥ 9.2 acre feet AND having a dam height ≥ 10 feet, map must be prepared by a CWRE
