Application for a Permit to Store Water in a Reservoir (Alternate Review)

Alternate Review Process (ORS 537.409): You may use this form for any reservoir storing less than 9.2 acre-feet or with a dam less than 10 feet high.

Use a separate form for each reservoir

Please type or print in dark ink. If your application is found to be incomplete or inaccurate, we will return it to you. If any requested information does not apply, insert "n/a". A summary of review criteria and procedures that are generally applicable to these applications is available at

1. APPLICANT INFORMATION

X Applicant: JON CARROLL
First Last
Mailing Address: 8171 DEER CREEK RD
SELMA OREGON 97538
City State Zip
Phone: 541-592-9576 415-828-4585
Home Work Other
Fax: 415-758-7168 E-Mail Address*: JACARROLL4@YAHOO.COM
* By providing an e-mail address, consent is given to receive all correspondence from the department electronically. (paper copies of the final order documents will also be mailed.)

2. AGENT INFORMATION

The agent is authorized to represent the applicant in all matters relating to this application.

Agent: N/A

3. LOCATION AND SOURCE

SEP 26 2016

X A. Reservoir Name: PANGLASINAN SALEM, OR

B. Source: Provide the name of the water body or other source from which water will be diverted, and the name of the stream or lake it flows into. Indicate if source is run-off, seepage, or an unnamed stream or spring.

Source: run off Tributary to: _____

C. County in which diversion occurs: Spring-see 4792 Josephine

App. No. R-88294

For Department Use

Permit No. _____ Date _____

D. Reservoir Location

Township (N or S)	Range (E or W)	Section	quarter/quarter	tax lot number
39S	8W	15	SWNE	203

E. Dam: Maximum height of dam: 0 feet. If excavated, write "zero feet".

F. Quantity: Amount of water to be stored in the reservoir at maximum capacity. List volume in acre-feet: 2.34

Is this project fully or partially funded by the American Recovery and Reinvestment Act? (Federal stimulus dollars) ☐ Yes ☒ No

4. WATER USE

Indicate the proposed use(s) of the stored water. **NOTE: You may wish to consider filing for "Multipurpose use" for your reservoir. Multipurpose use does not limit the types of future uses for the stored water. Multipurpose covers all uses including: stockwater, fish and wildlife, aesthetics, domestic, irrigation, agriculture, fire protection and pollution abatement.** If any use will be out of reservoir use, regardless of the type of storage listed, a secondary application must be filed to appropriate the stored water.

multipurpose

5. PROPERTY OWNERSHIP

Please provide a copy of the recorded deed(s).

Do you own all the land where you propose to divert, transport, and use water?

☐ Yes (please check appropriate box below then skip to section 5)

☐ There are no encumbrances

☐ This land is encumbered by easements, right of way, roads of way, roads or other encumbrances

☒ No (Please check the appropriate box below)

☒ I have a recorded easement or written authorization permitting access.

☐ I do not currently have written authorization or easement permitting access.

☐ Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigated and/or domestic use only (ORS 274.040). (Do not check this box if you described your use as "Multipurpose" in #3 above.)

List the names and mailing ~~addresses~~ of all affected landowners:

6. ENVIRONMENTAL IMPACT

- A. **Channel:** Is the reservoir: ☐ in-stream or ☒ off channel?
- B. **Wetland:** Is the project in a wetland? ☐ Yes ☒ No ☐ Don't know
- C. **Existing:** Is this an existing reservoir? ☐ Yes ☒ No
If yes, how long has it been in place? _____ years.
- D. **Fish Habitat:** Is there fish habitat upstream of the proposed structure? ☐ Yes ☐ No ☐ Don't know
If yes, how much? _____ miles.
- E. **Partnerships:** Have you been working with other agencies? ☐ Yes ☒ No *NA*
- Indicate agency, staff and phone numbers of those involved. Also indicate any agencies that are cost sharing in this project.

NA 7. WITHIN A DISTRICT

☐ Check here if the point of diversion or place of use are located within or served by an irrigation or other water district.

Irrigation District Name	Address	
City	State	Zip

8. DESCRIPTION

Provide a description of the design and operation of the proposed diversion, including a description of how live flow will be passed outside the authorized storage season. Use this space for narrative. You may also provide narrative and sketches on separate pages.

PLEASE SEE ATTACHED COVER LETTER

RECEIVED BY OWRD

SEP 26 2016

SALEM, OR

NP
If the diversion involves a dam, use this space for sketches of the diversion (e.g. cross-section of the dam with its dimensions, dimension and placement of outlet pipe, means of passing live flow outside of the authorized storage season, and means for providing fish passage).

9. SIGNATURE

I swear that all statements made and information provided in this application are true and correct to the best of my knowledge.

Landowner Signature

7-28-16
Date

- Before you submit your application be sure you have:**
- Answered each question completely.
 - Included a legible map that includes Township, Range, Section, quarter-quarter and tax lot number.
 - The map must meet map requirements to be accepted.
 - Included a land use form or receipt stub signed by a local planning official.
 - Included a check payable to Oregon Water Resources Department for the appropriate amount.

WATERMASTER ALTERNATE RESERVOIR APPLICATION REVIEW SHEET

Recommendations for Water Right Applications under the Alternate Reservoir review process (ORS 537.409)

In lieu of the water right application process set forth in ORS 537.140 to 537.211, an owner of a reservoir may submit an alternate reservoir application for a reservoir that has a storage capacity less than 9.2 acre-feet or a dam or impoundment structure less than 10 feet in height. ORS 537.409 describes the criteria used to evaluate alternate reservoir applications.

The review shall be limited to issues pertaining to: a) water availability, b) potential detrimental impact to existing fishery resources; and c) potential injury to existing water rights. (ORS 537.409 (6))

Within 60 days after the department provides public notice...any person may submit detailed, legally obtained information in writing, requesting the department to deny the application for a permit on the basis that the reservoir: (a) Would result in injury to an existing water right; or (b) Would pose a significant detrimental impact to existing fishery resources. (ORS 537.409 (5))

The review of alternate reservoirs is limited to these criteria only.

Application #: R-

Applicant's Name:

Jon Arthur Carroll

1) Does the proposed reservoir have the potential to injure existing water rights?

☒ NO ☐ YES

Explain:

2) Can conditions be applied to mitigate the potential injury to existing water rights?

☐ NO ☐ YES

If YES, which conditions are recommended:

3) Did you meet with staff from another agency to discuss this application?

☒ NO ☐ YES

NOTE: This completed form must be returned to the applicant

SALEM, OR

Use this menu to identify appropriate conditions to be included in the permit, and indicate the abbreviations on the review form:

fishpass: As required by ORS 509.585, a person owning or operating an artificial obstruction (AO) may not construct or maintain any AO across any waters of this state that are inhabited, or historically inhabited, by native migratory fish (NMF) without providing passage for NMF. A person owning or operating an AO shall, prior to construction, fundamental change in permit status or abandonment of the AO in any waters of this state, obtain a determination from ODFW as to whether NMF are or historically have been present in the waters. If ODFW determines that NMF are or historically have been present in the waters, the person owning or operating the AO shall either submit a proposal for fish passage to ODFW or apply for a waiver or exemption. Approval of the proposed fish-passage facility, waiver, or exemption must be obtained from the department prior to construction, permit modification or abandonment of the AO. Approved fish-passage plans, waivers, and exemptions shall maintain adequate passage of NMF at all times (ORS 509.601) as per the approved plan, waiver or exemption.

fishself: The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional prior to diversion of any water. Permittee shall obtain written approval from ODFW that the installation of the required screen and by-pass devices meets the state's criteria or the permittee shall submit documentation that ODFW has determined screens and/or by-pass devices are not necessary.

fishapprove: The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW prior to diversion of any water. The permittee may submit evidence in writing that ODFW has determined screens and/or by-pass devices are not necessary.

fishdiv33: If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR 635-415, shall be followed.

The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW prior to diversion of any water. The permittee may submit evidence in writing that ODFW has determined screens and/or by-pass devices are not necessary.

fishmay: Notwithstanding that ODFW has made a determination that fish screens and/or by-pass devices are not necessary at the time of permit issuance, the permittee may be required in the future to install, maintain, and operate fish screening and by-pass devices to prevent fish from entering the proposed diversion and to provide adequate upstream and downstream passage for fish.

b52 Water may be diverted only when Department of Environmental Quality sediment standards are being met.

b5 The water user shall install and maintain adequate treatment facilities meeting current DEQ requirements to remove sediment before returning the water to the stream.

b51a The period of use has been limited to _____ through _____.

b57 Before water use may begin under this permit, a totalizing flow meter must be installed at each diversion point.

b58 Before water use may begin under this permit, a staff gage that measures the entire range and stage between full reservoir level and dead-pool storage must be installed in the reservoir. The staff gage shall be United States Geological Survey style porcelain enamel iron staff gage style A, C, E or I.

RIGHT-OF-WAY GRANT

1. A right-of-way is hereby granted pursuant to:

- a. ☒ Title V of the Federal Land Policy and Management Act of October 21, 1976 (90 Stat. 2776; 43 U.S.C. 1761);
- b. ☐ Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185);
- c. ☐ Other (describe) _____.

2. Nature of Interest:

- a. By this instrument, the holder Jon A Carroll receives a right to operate, maintain, and terminate a right-of-way for an existing water pipeline, catch basin and two storage tanks for domestic and irrigation use. The facility is located on public lands described as follows:

**SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec.15, T. 39 S., R. 8 W., Willamette Meridian.
Josephine County, Oregon**

RECEIVED BY OWRD

SEP 26 2016

SALEM, OR

- b. The right-of-way area granted herein is 10 feet wide, 687 feet long and contains 0.16 acres, more or less.
- c. This instrument shall terminate on December 31, 2040, 30 years from its effective date unless, prior thereto, it is relinquished, abandoned, terminated, or modified pursuant to the terms and conditions of this instrument or of any applicable Federal law or regulation.
- d. This instrument : may ☒ may not ☐ be renewed. If renewed, the right-of-way shall be subject to the regulations existing at the time of renewal and any other terms and conditions that the authorized officer deems necessary to protect the public interest.
- e. Notwithstanding the expiration of this instrument or any renewal thereof, early relinquishment, abandonment, or termination, the provisions of this instrument, to the extent applicable, shall continue in effect and shall be binding on the holder, its successors, or assigns, until they have fully satisfied the obligations and/or liabilities accruing herein before or on account of the expiration, or prior termination, of the grant.

R-88294

3. Rental:

For and in consideration of the rights granted, the holder agrees to pay the Bureau of Land Management fair market value rental as determined by the authorized officer unless specifically exempted from such payment by regulation. Provided, however, that the rental may be adjusted by the authorized officer, whenever necessary, to reflect changes in the fair market rental value as determined by the application of sound business management principles, and so far as practicable and feasible, in accordance with comparable commercial practices.

4. Terms and Conditions:

- a. This grant is issued subject to the holder's compliance with all applicable regulations contained in Title 43 Code of Federal Regulations parts 2800 and 2880.
- b. Upon grant termination by the authorized officer, all improvements shall be removed from the public lands within 90 days, or otherwise disposed of as provided in paragraph (4)(d) or as directed by the authorized officer.
- c. The stipulations, plans, maps, or designs set forth in Exhibit(s) Ex. A and B, dated N. A., attached hereto, are incorporated into and made a part of this grant instrument as fully and effectively as if they were set forth herein in their entirety.
- d. Failure of the holder to comply with applicable law or any provisions of this right-of-way grant shall constitute grounds for suspension or termination thereof.
- e. The holder shall perform all operations in a good and workmanlike manner so as to ensure protection of the environment and the health and safety of the public.

ACKNOWLEDGMENT

This right-of-way holder is aware that the Bureau of Land Management (BLM) administered lands in western Oregon are managed primarily for timber resource activities which include timber harvesting, reforestation, and tree release programs. Other BLM forest management activities may also include: application of herbicides, firewood cutting, and prescribed burning. Logging operations cause dust and noise. BLM roads will be used to haul timber. Other important resources of these lands include wildlife habitat, minerals, soil and water quality, recreation opportunities, and others. The holder should also be aware that the BLM may grant other rights-of-way across BLM lands, and also may enter into agreements for exchange or sale of BLM administered lands.

IN WITNESS WHEREOF, The undersigned agrees to the terms and conditions of this right-of-way grant

Mr. Pete Samarin
Oregon Div of Fish and Wildlife
1495 East Gregory
Central Point, Or 97502
541-826-8774

Dear Mr. Samarin,

With help from Mrs. Kathy Smith, Josephine county watermaster, we filled out the enclosed, "ODFW Alternate Reservoir Application worksheet", for your review. The address of my property for this particular application is as follows;

375 Cricket Lane, Cave Junction, Oregon

Directions;

Highway 199 South to Cave Junction. Approximately 2 tenths of a mile before city limit, you will come to "Laurel rd", on left. Take a left on Laurel rd.

Go down to first left hand turn, and take left on Walters dr.

Go down to Cricket Lane on right, and take a right turn.

Please follow straight down road until you see a sign that says, 373 to left 373 to right.

Take the left rd uphill to iron gate whereas you will enter a combination and gate will open.

You then proceed uphill to 2nd gate which opens out and that combination is 8967.

I am last house on road and "Alternate Reservoir" proposed placement is in meadow down to your right as you drive up driveway. Please call me prior and I will give you current combination to 1st iron gate so you may gain access to 2nd iron gate.

Thank you and feel free to call me if any questions arise...

Sincerely

Jon A Carroll

ODFW Alternate Reservoir Application Review Sheet

Pete Samarin 826-8771
EXT 222

This portion to be completed by the applicant.

☒ Applicant Name/Address/Phone/Email: JON A. CARROLL - 375 CRICKET LN
CAVE JUNCTION, OREGON 97112 415-828-4585 JACARROLL4@YAHOO.COM
 Reservoir Name: PANGASINAN Source: puddle spring Volume (AF): 1.34
 Twp Rng Sec QQ: 39S R8 Sec 15 Basin Name: Illinois ☐ in-channel ☒ off-channel
TL 203
 Note: It is unlikely that ODFW will be able to complete this form while you wait, nevertheless we recommend making an appointment to submit the form so as to provide any necessary clarifications. See pg. 6 of Instructions for contact information.

This portion to be completed by Oregon Department of Fish and Wildlife (ODFW) District staff.

- 1) Is the proposed project and AO¹ off channel? ☒ YES ☐ NO
(if yes then proceed to #4; if no then proceed to #2)
- 2) Is the proposed project or AO located where NMF² are or were historically present?..... ☐ YES ☐ NO
(if yes then proceed to #3; if no then proceed to #4)
- 3) If NMF are or were historically present:
- a. Is there an ODFW-approved fish-passage plan?..... ☐ YES ☐ NO
 - b. Is there an ODFW-approved fish-passage waiver or exemption?..... ☐ YES ☐ NO

If fish passage is required under ORS 509.580 through .910, then either 3(a) or 3(b) must be "Yes" to move forward with the application. If responses to 3(a) and 3(b) are "No", then the proposed reservoir does not meet the requirements of Oregon Fish Passage Law and shall not be constructed as proposed.

- 4) Would the proposed project pose any other significant detrimental impact to an existing fishery resource locally or downstream?..... ☒ YES ☐ NO
Explain below (for example, list STE species or other existing fishery resources that would be impacted negatively.)

☒ Any diversion or appropriation of water for storage during the period May through November poses a significant detrimental impact to existing fishery resources.
 (For example, if diversion of water for storage during a certain time period would cause a significant detrimental impact to an existing fishery resource, then ODFW should recommend conditions or limitations.)
 If NMF fish are present at the project site or point of water diversion then the applicant should be advised that a fish screen consistent with screening criteria will be required.

- ☐ This proposed pond or reservoir contemplates impounding water in the Columbia Basin above Bonneville Dam. ODFW has determined that additional diversions of water in this area pose a significant detrimental impact to existing fishery resources during the period April 15 through September 30.

SEP 26 2016

SALEM, OR

¹ AO = Artificial Obstruction means any dam, diversion, culvert or other human-made device placed in waters of this state that precludes or prevents the migration of native migratory fish. ORS 509.580 (1)

² NMF = Native Migratory Fish Species in Oregon as defined by OAR 635 - 412 - 0005 (32)

12-88294

This application proposes to impound runoff and spring water from a tributary to George Creek.

George Creek provides habitat for coho salmon (federally threatened). ODFW believes that if the application is conditioned to the time period recommended impacts to fishery resources can be lessened. Juvenile Coho salmon require cool clean water to rear and migrate to the Illinois River. If runoff from this impoundment is allowed to flow into George Creek during late spring/summer ODFW believes impacts can be lessened.

This pond is located outside of known fish habitat, therefore, immediate fish screening is not required.

If YES, can conditions be applied to mitigate the significant detrimental impact to an existing fishery resource?

☐ NO (explain)

☒ YES (select from Menu of Conditions on next page)

b51a. The period of use has been limited to December through April.

To Whom It May Concern,

This is my narrative to document diagram 1a enclosed with application. The narrative will attempt to explain "runoff" procedures and "runoff" shut down procedures, as well as materials utilized for such

NARRATIVE

- 1) Approximate length of collection ditch will be 200 lineal feet
- 2) Depth of collection ditch will be 6" to 8"
- 3) 4" perforated SDR35 piping will be installed in ditch, with Mirifi drainage fabric, 3/4" crushed rock, as a collection system to divert from north to south/south to north, and then to west into Alternate reservoir system.
- 4) The 4" SDR35 perforated pipe installed, in ditch to east of Proposed alternate reservoir, will help divert runoff water in to proposed alternate reservoir.
- 5) When outside of "authorized storage season", Gate (1) will be shutoff, and gates 2 & 3 will be opened to allow live flow in to a normal path of travel.
- 6) On South side there will be a 1" hose bib, coming from spring that we could utilize to aid in the filling of this "Proposed Alternate reservoir", only during regulated and allowed months.

Please feel free to call me at the numbers listed above if you have questions concerning application or design. I Thank you in advance for your consideration,

Sincerely Yours

Jon A. Carroll

To Whom It May Concern,

I am submitting my application for an "alternate reservoir". I have enclosed the following documents for your review.

1) LAND USE INFORMATION FORM

A) Completed Land Use "Information Form", of which was accepted on July 25th, 2016.

B) Business Card for Josephine County Planning

C) Business card for Kathy Smith, Watermaster, district 14

2) ODFW ALTERNATE RESERVOIR APPLICATION REVIEW SHEET

A) Introduction Letter to Pete Samarin

B) ODFW Alternate Reservoir application review sheet

C) T39S R8W Northeast Quarter Section 15 map and pond locale

3) ODFW APPLICATION AND ASSORTED DOCUMENTS.

A) Introduction Letter

B) Diagram 1a Plat map depicting proposed Reservoir, Runoff depiction, Proposed water runoff diagram.

C) Application for a permit to "store water in a reservoir". This was signed on Last Page

D) T39S R8W Northeast Quarter Section 15, Map and plat.

E) Jon Carroll's Deed to property

F) United States Department of the Interior, "Right of way Grant". This document grants me a lease on BLM land and is renewable for only fees paid after December

RECEIVED BY OWRD
