Dear Mr. Lehmann:

We are enclosing herewith for completion, final proof in connection with the incomplete water right represented by your Permit No. 20926 granting a right to the use of 0.17 cfs of the waters of unnamed branch and reservoir, for irrigation, and Permit No. R-1292 for 9.4 a.f. from unnamed stream for storage of water and irrigation.

The data contained in the proof, which is based on an inspection and survey of your project made by a representative of this department, defines the extent to which your water right has been completed within the terms of your Permit. The proof should be dated and signed by you on the second sheet under the Affidavit of Appropriator and returned to this office.

Upon receipt of the proof, properly executed and accompanied by the statutory fee of \$1, a Certificate of Water Right will be issued confirming the rights thereunder and, after being recorded in the records of Yamhill County, will be forwarded to you.

In the interest of economy and due to the fact that your completed project was examined by a representative of this department, it is not necessary that your signature be made before a Notary Public, nor that the signatures of witnesses be affixed to the proof.

Yours very truly,

Lewis A. Stanley

Dear Mr. Lehmann:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under Permit No. 20926.

Pursuant to your notice and in line with the general practice of this office, a survey will be made at a later date for the purpose of checking the acreage actually irrigated. After this survey, proof may be made and certificate issued covering the lands which the survey shows to have been irrigated, and any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right.

Very truly yours,

Chas. E. Stricklin
