FILE NO. 43609

Dave Etchart
McDermitt, Nevada

Gentlemen:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under permit No. 32609 & 32610.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date.

After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Dear Mr. Gillespie:

This will acknowledge receipt of the returned application No. 43609 and the map correctly describing all of the diversion points and the affidavit of abandonment to cancel Certificate No. 1677. This has cleared our records.

Both applications No. 43608 and 43609 are now in satisfactory form for approval by issuance of permits.

Very truly yours,

CHRIS L. WHEELER

June 21, 1967

Mr. Walter E. Gillespie
Land Surveyor
Rt. 2, Box 31 N
Vale, Oregon 97918

Dear Mr. Gillespie:

This will acknowledge receipt of an application for a permit to appropriate 0.75 cubic foot of water per second from Pole Creek and 0.50 cubic foot of water per second from an unnamed stream for the irrigation of 50 acres, a map, and a print of application No. 4522 requesting that the certificate be canceled. This application has been filed and numbered 43608.

Also acknowledged is receipt of an application for a permit to appropriate 1.5 cubic feet of water per second from Simpson Creek, 1.5 cubic feet of water per second from Pole Creek, 1 cubic foot of water per second from unnamed creek, 1 cubic foot of water per second from unnamed creek, 1 cubic foot of water per second from Rock Creek, 1 cubic foot of water per second from Trail Creek and 2.6 cubic feet of water per second from Oregon Canyon Creek for the irrigation of 383 acres, and a map. This application has been filed and numbered 43609.

Enclosed you will find receipt No. 3781 for \$67.80 for the fees for these applications, being \$23 for application No. 43608 and \$44.80 for application No. 43609.

The location of the points of diversion on Rock Creek and Trail Creek, as described on the attached sheet for item No. 4, appears to be reversed of that shown on the application map.

No. "3c" on the attached sheet describes the point of diversion on the unnamed stream to the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 22. This apparently should be the NE corner of NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 22. The application and the map must correspond.

Mr. Walter E. Gillespie

Enclosed you will find an affidavit of abandonment to cancel certificate No. 1677. This will clear our records so that we can proceed with the approval of application No. 43608, upon receipt of the signed and notarized affidavit.

I am returning the application No. 43609 and the map for correction. The application is endorsed so that in order to retain its date of priority, it must be returned on or before August 21, 1967.

Very truly yours,

CHRIS L. WHEELER
