Reference: Application G-12579, Permit G-17670

The partial assignment from Crooked River Ranch Water Company to United States of America acting through the United States Department of Agriculture has been recorded in the records of the Water Resources Department.

The Departments records will now show Crooked River Ranch Water Company and the United States of America acting through the United States Department of Agriculture as the permit holder of record.

Our records have been changed accordingly and the original request is enclosed. Receipt number 122216 covering the recording fee is also enclosed.

A permit is not a perfected water right, and has conditions and timelines that must be satisfied prior to a Certificate of Water Right being issued. Please review the permit to be familiar with the conditions and timelines contained in the permit.

Please note that this permit requires complete application of water to the proposed use by October 1, 2028, and within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Sincerely,

Jerry Sauter
Water Rights Program Analyst
Water Right Services Division
