By my signature below I confirm that I understand:

- ☒ I am asking to use water specifically as described in this application.
- ☒ Evaluation of this application will be based on information provided in the application.
- ☒ I cannot use water legally until the Water Resources Department issues a permit.
- ☒ Oregon law requires that a permit be issued before beginning construction of any proposed well, unless the use is exempt. Acceptance of this application does not guarantee a permit will be issued.
- ☒ If I get a permit, I must not waste water.
- ☒ If development of the water use is not according to the terms of the permit, the permit can be cancelled.
- ☒ The water use must be compatible with local comprehensive land-use plans.
- ☒ Even if the Department issues a permit, I may have to stop using water to allow senior water-right holders to get water to which they are entitled.

I (we) affirm that the information contained in this application is true and accurate.

☐ No

☐ I have a recorded easement or written authorization permitting access.

☐ I do not currently have written authorization or easement permitting access.

☐ Water is to be diverted, conveyed, and/or used only on federal lands.

List the names and mailing addresses of all affected landowners (*attach additional sheets if necessary*).

You must provide the legal description of: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the water is to be used as depicted on the map.

The table below must be completed for each source to be evaluated or the application will be returned. If this is an existing well, the information may be found on the applicable well log. (If a well log is available, please submit it in addition to completing the table.)
