

45554

March 14, 1974

Mr. M. John Youngquist,
Watermaster, District No. 15
1144 S. E. Douglas Street
Roseburg, Oregon 97470

Dear John:

Some time back we had considerable correspondence regarding permit No. 33987 issued to Bill Rees. On March 29, 1971 we recorded an assignment from Bill Rees to Bill Rees and Walter H. Clark. In May of last year you submitted an assignment of the same permit from Martin Moreau to Bill Rees, but previous correspondence would indicate that this should have gone the other way.

We also much earlier had an application for an extension of the time limit from Martin Moreau and you and I discussed this during more than one phone conversation. I got this buried in a large stack of correspondence and now, without further information, am not sure which way to go. If, in fact, Martin Moreau does own the property we should have a proper assignment from Mr. Rees, if possible. Do you have any knowledge of what has been done recently in regard to completion of this permit which would be a consideration to act on the application for extension of time?

Apparently you completed much of the assignment and signed it as a witness so you could perhaps arrange for the changes if it is the intent of Mr. Rees to assign this to Mr. Moreau. I am returning the assignment as submitted so you can see what I mean. At this late date I am hesitant to write to Mr. Moreau and if the assignment was correct would be inclined to approve the application for extension if, in fact, something has been accomplished under the permit.

Very truly yours,

Trever Jones
Assistant
