Mr. Adler:

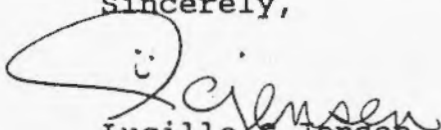

The only water rights of record for use from the spring located in Section 10, T 40 S, R 13 W, W.M., are evidenced by Certificates 50269 and 57611, which you own.

The only other possible legal user of the spring would be the Bureau of Land Management, who owns the land on which the spring is located.

Any other party using the spring would have to file an application for permit from this department.

Contact me if I can help further.

Sincerely,

Lucille C. Jensen

RE: Water Rights

It has come to our attention that others are using the spring to which we have been issued water rights. This may be legal useage.

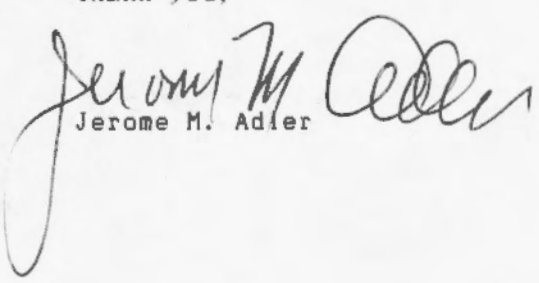

May we request information concerning the spring, as to whom has been issued water rights, the certificate numbers of these rights, and the assigned use so that we will not be wrongfully accusing legally assigned users.

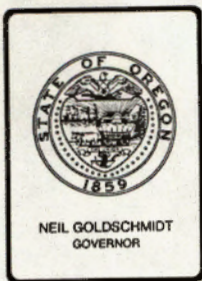

Our certificates : A 61575 P 45872 C 57611 dtd Apr 22 1981

REFERENCE: Files 54591 and 61575

The water right perfected under the terms of the Permit 40962, now evidenced by the Certificate recorded at Page 50269, Volume 44, State Record of Water Right Certificates, is appurtenant to the New Mobil Home Site as illustrated on the enclosed copy of the permit map. This water right has a date of priority of August 2, 1976. The mobil home site location was added to the map during our inspection on the use of water made under the terms of the Permit 40962.

We are in the process of preparing a certificate to be recorded in State Record of Water Right Certificates to be numbered 57611 to evidence the water right perfected under the terms of the Permit 45872 with a date of priority of April 22, 1981. This water right is appurtenant to the house site as illustrated on the enclosed copy to the related Final Proof Survey Map.

Water rights as described by certificates are appurtenant to the place of use where the use was established, passes with the place of use through change of ownership and remain valid so long as the rights are not lost through intentional abandonment or through non-use. If any portion of a water right is not used for a period of any five successive years, that portion would be forfeited.

Sincerely,

WAYNE J. OVERCASH

Enclosed is the Proof of Appropriation of Water under your Water Right Permit 45872.

The data contained in the proof is based on an inspection and survey of your project made by a representative of this office. It defines the extent to which use of water has been completed within the terms of your permit. The proof should be carefully examined, dated and signed, then returned to this office.

Upon receipt of the signed proof, a Certificate of Water Right will be issued confirming the right. This will be forwarded to you after our records are brought up to date.

You may keep the map print for your records.

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.005 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from a spring, TRIBUTARY TO CHESSED RIVER

The use to which this water is to be applied is domestic for one family

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated

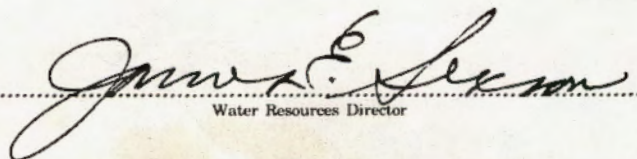

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is April 22, 1981

Actual construction work shall begin on or before August 20, 1982 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1983

Complete application of the water to the proposed use shall be made on or before October 1, 1984

Dear Mr. Hall:

If you wish to establish a right to the use of water from Palmer Spring as suggested in your letter of September 19, 1984, it will be necessary for you to properly complete and submit the enclosed application for permit to appropriate surface water with the required map and fees. A legal description of the property will also be needed which may be copied from your deed, title insurance policy or sales contract.

I am also enclosing our booklet relative to surface water application which briefly explains the requirements for the map, entries to be made on the application, and fees needed.

Due to a new fee schedule mandated by the legislature which became effective October 15, 1983, your check 1036 in the amount of \$20 will not cover the fees needed for your application and is therefore enclosed.

Sincerely,

WAYNE J. OVERCASH
Senior Water Rights Examiner

April of this year I sold 12 acres of land on Gardner Ridge, Brookings, Oreg with a mobile home & house and when sold the water rights were transferred to the buyer.

I would like to apply for a secondary water right on Palmer Spring to be piped to the remaining 17 acres just below the 12 that I sold. There is plenty of water as even at this time of year the overflow is running down the mountain & not being used. I lived there 10 years and this has always been the case.

The present owner has agreed to let me use his holding tank or I could put in another holding tank below his water supply.

Right now I have no house started but plan to build in the near future. I am requesting for this permit now because I have animals on the property that need the water.

I am enclosing \$20. for the application permit.

Thank you,

Dear Mr. Hirsch:

Thank you for your letter dated March 22, 1984.

Certificate Number 50269 was issued confirming the use of water from a spring and used at a mobile home for domestic use as provided under the terms of Permit Number 40962.

Permit Number 45872 granted the right to the use of water from the same spring and for domestic supplies but for a frame house. A certificate of water right confirming the use will be issued after our usual field inspection.

Our records show that both dwellings are west of the road.

If Permit Number 45872 is to be assigned to Jerome M. and Ruth D. Adler, Leland and Betty M. Hall must sign a statement to that effect. The completed assignment form included with the material you submitted in your letter could be used for this purpose. The Halls' would have to sign the form, however. Also, the assignment recording fee is now \$10 rather than the \$3 as shown on the form.

The assignment form along with the supporting data is enclosed.

Sincerely,

Thomas E. Shook
Senior Water Rights Examiner

Re: Water Permit Numbers 40962 and 45872

Dear Mr. Applegate:

Thank you for taking the time to talk with me this afternoon. Enclosed please find the Certificate of Water Right for permit number 40962; the map for permit number 45872 and a document entitled Assignment for permit number 45872. Finally, I am enclosing a map and a legal property description of two parcels that my client, Rick Adler is purchasing from Mr. and Mrs. Hall. The first parcel is a 10.74 acre parcel and the other parcel is a 1.49 acre parcel. On the map, the two parcels are outlined in red, and the location of the frame house and of the mobile home are drawn in in green.

I would like to know whether the Certificate of Water Right covering permit number 40962 adhears to the benefit of the mobile home or the frame house. I would also like to know whether the Certificate of Water Right was ever granted under permit number 45872, and if so to what residence or what property it's benefits inure, whether that property is part of the property my client is purchasing.

The scheduled date for closing this transaction is now April 2, 1984. Therefore, I would appreciate, if you can't get back to me by letter by Friday, March 30, 1984 I would appreciate a phone call, collect of course, to my office at 415-479-7171 to inform me of any unusual findings you may have located in the files on these respective permits.

Your prompt attention to this request is deeply appreciated.

Very truly yours,

Richard A. Hirsch

Dear Mr. and Mrs. Hall:

Dear Mr. and Mrs. Hall:

Your application 61575 describing the use of 0.005 cubic foot per second of water from a spring for domestic use for two families, and map, has been reviewed.

REFERENCE: File 61575

Item 2 must be completed indicating the Township and Range in which the point of diversion is located.

Additional information regarding your spring is required. Please complete the enclosed description sheet and return it to this office.

Item 3 must include all the uses. If domestic use and irrigation is to be applied on, the number of domestic uses applied on by this application and number of acres to be irrigated must appear upon receipt of the requested information, your application will be processed for a permit.

Item 4 should specify the total amount of water to be used and the amount of water to be used by each use described in items 3 and 5. Permits will be issued for the use of water from the Chetco River and its tributaries. However, water may not be available during dry periods. The water may be needed to satisfy existing rights or minimum flow standards.

Item 5 should indicate the uses to which the application is made. If the uses are to be "domestic and irrigation" this should be entered.

Sincerely,

Item 6 states domestic use will be for two families. The numbers of families entered should only indicate the number of families to be served by this application.

Stephen C. Brown
Water Rights Engineer

Even though remarks are made to the effect that construction is complete, Items 7, 8, and 9 must be completed.

SCB:td
Your map must show in addition to the township and range, only the proposed uses as described by this application.

A metes and bounds legal description describing the property to which the use is to be made must accompany the application prior to the issuance of a permit. This can be copied from your deed, title insurance policy, or sales contract.

WATER RESOURCES DEPT #507 or
SALEM, OREGON 52-7813

Reference File # 54591

In reply to your letter of March 13, 1981--I am sending you copies of the mobile home purchase, the closing escrow statement, the deed of reconveyance, a copy of the first water deed, and four copies of a map showing where the water line to the mobile home is located.

As you can see the mobile home was purchased on 8/11/76 and the deed is dated 12/6/76 and not signed until 3/10/77.

The reason for this is we had to have the water right before the State would loan us the money and also certain requirements had to be met in the securing of the mobile home before signing of the deed.

It is our desire to secure another water permit for the mobile home so the water rights for the house and the mobile home will be secure.

I am enclosing \$20.00 for the application.
