Note: Attach multiple copies as needed

* By providing an e-mail address, consent is given to receive all correspondence from the department electronically. (paper copies of the final order documents will also be mailed.)

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- The Department encourages all applicants to wait for a permit to be issued before beginning construction of any proposed diversion. Acceptance of this application does not guarantee a permit will be issued.
- If I begin construction prior to the issuance of a permit, I assume all risks associated with my actions.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be cancelled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water right holders to get water to which they are entitled.
- I have not provided my social security number in any of the materials submitted to the Department.

I (we) affirm that the information contained in this application is true and accurate.

App. No. 5-88458	For Department Use	Date
Permit No.		

SECTION 2: PROPERTY OWNERSHIP

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

Yes

There are no encumbrances.

This land is encumbered by easements, rights of way, roads or other encumbrances.

No

I have a recorded easement or written authorization permitting access.

I do not currently have written authorization or easement permitting access.

Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).

Water is to be diverted, conveyed, and/or used only on federal lands.

List the names and mailing addresses of all affected landowners (*attach additional sheets if necessary*).

See Attachment A with names, addresses, and descriptions of easements and crossing permits.

See Attachment B with names, addresses, and descriptions of land ownership.

You must provide the legal description of: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the water is to be used as depicted on the map.

SECTION 3: SOURCE OF WATER

A. Proposed Source of Water

Provide the commonly used name of the water body from which water will be diverted, and the name of the stream or lake it flows into. If unnamed, say so:

Source 1: Columbia River

Tributary to: Pacific Ocean

Source 2:

Tributary to:

Source 3:

Tributary to:

Source 4:

Tributary to:

If any source listed above is stored water that is authorized under a water right permit, certificate, or decree, attach a copy of the document or list the document number (for decrees, list the volume, page and/or decree name).

B. Applications to Use Stored Water

RECEIVED BY OWRD

Do you, or will you, own the reservoir(s) described in item 3A above?

SEP 08 2017

Yes.

SALEM, OR

No. (Please enclose a copy of your written notification to the operator of the reservoir of your intent to file this application, which you should have already mailed or delivered to the operator.)

If *all* sources listed in item 3A are stored water, the Department will review your application using the expedited process provided in ORS 537.147, unless you check the box below. Please see the instruction booklet for more information.

By checking this box, you are requesting that the Department process your application under the standard process outlined in ORS 537.150 and 537.153, rather than the expedited process provided by ORS 537.147. To file an application under the standard process, you must enclose the following:

- A copy of a signed non-expired contract or other agreement with the owner of the reservoir (if not you) to impound the volume of water you propose to use in this application.
- A copy of your written agreement with the party (if any) delivering the water from the reservoir to you.

SECTION 4: WATER USE

Provide the amount of water you propose to use from each source, for each use, in cubic feet-per-second (cfs) or gallons-per-minute (gpm). If the proposed use is from storage, provide the amount in acre-feet (af):
(1 cfs equals 448.8 gpm. 1 acre-foot equals 325,851 gallons or 43,560 cubic feet)

SOURCE	USE	PERIOD OF USE	AMOUNT
Columbia River	Primary Irrigation	October 1 to April 14	20.99 cfs / 2,729 ac-ft
Columbia River	Supplemental Irrigation	October 1 to April 14	45.45 cfs / 3,636 ac-ft

For irrigation use only:
 Please indicate the number of primary and supplemental acres to be irrigated.
 Primary: 839.65 Acres Supplemental: 3635.85 Acres
 List the Permit or Certificate number of the underlying primary water right(s): 88066, 88069, 87420, T-11404
 Indicate the maximum total number of acre-feet you expect to use in an irrigation season: 6,365 ac-ft

RECEIVED BY OWRD

- If the use is **municipal or quasi-municipal**, attach **Form M**
- If the use is **domestic**, indicate the number of households: _____
- If the use is **mining**, describe what is being mined and the method(s) of extraction: _____

SEP 08 2017

SALEM, OR

SECTION 5: WATER MANAGEMENT

A. Diversion and Conveyance

What equipment will you use to pump water from your source?

- Pump (give horsepower and type): The existing system includes a River Pump Station (7 x 700 hp = 2,800 hp), a Main Booster Pump Station (2 x 400 hp + 4 x 250 hp = 1,800 hp), and a few smaller booster pumps.
- Other means (describe): The existing system includes 25,280' of 30", 30,060' of 24", and 12,580' of 18" steel pipe and 4,420' of 36", 6,080' of 24", 7,560' of 18", 2,170' of 15", and 2,050' of 12" PVC pipe mainlines and nearly 78,000' of 6" to 10" PVC pipe laterals to individual center pivots.

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water. The first phase of the existing system was built and began operating in 1973. The full system has been operating for the last several years.

B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler) There are a total of 42 center pivots and a few handlines.

C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to public uses of affected surface waters. The water is to build soil moisture levels in the late fall and to fill the soil profiles in the spring. There is a flow meter to measure the system's total flow rate and track the total usage. Soil moisture monitoring will be utilized to prevent over irrigation.

SECTION 6: RESOURCE PROTECTION

In granting permission to use water from a stream or lake, the state encourages, and in some instances requires, careful control of activities that may affect the waterway or streamside area. See instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources.

- Diversion will be screened to prevent uptake of fish and other aquatic life.
Describe planned actions: Existing River Pump Station has National Marine Fisheries Services approved intake screens.
- Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas.
Describe planned actions: None required.
- Operating equipment in a water body will be managed and timed to prevent damage to aquatic life.
Describe: None required.
- Water quality will be protected by preventing erosion and run-off of waste or chemical products.
Describe: Not applicable.

RECEIVED BY OWRD

SEP 08 2017

SALEM, OR

SECTION 7: PROJECT SCHEDULE

Date construction will begin: The entire system is already existing and is in operation.

Date construction will be completed:

Date beneficial water use will begin:

SECTION 8: WITHIN A DISTRICT

Check here if the point of diversion or place of use are located within or served by an irrigation or other water district.

Irrigation District Name	Address	
City	State	Zip

SECTION 9: REMARKS

Use this space to clarify any information you have provided in the application.

This water right application will utilize an existing irrigation system.

Easements and Crossing Permits

U.S. Army Corps of Engineers
201 North Third Avenue
Walla Walla, WA 99362-1876

Easement: #DACW68-2-00-05 (Replaced #DACW68-2-72-62)

PARCEL 1 – PUMP PLANT SITE

A parcel of land situated in the West half of Section 8, Township 5 North, Range 30 East, W.M., Umatilla County, Oregon and being more particularly described as follows:

Beginning at the Southwest corner of said Section 8; Thence North 01°01'06" East along the West line of said Section 8 a distance of 2671.17 feet to a point on the Northerly margin of U.S. Highways No. 395 and 730 right-of-way; Thence North 57°31'45" East along said Northerly margin a distance of 149.61 feet to the TRUE POINT OF BEGINNING; Thence continuing North 57°31'45" East a distance of 75.00 feet; Thence North 32°28'15" West a distance of 120.00 feet; Thence South 57°31'45" West a distance of 100.00 feet; Thence South 32°28'15" East a distance of 120.00 feet; Thence North 57°31'45" East a distance of 25.00 feet to the TRUE POINT OF BEGINNING.

This Parcel contains 0.28 acre, more or less.

PARCEL 2 – PIPELINE RIGHT-OF-WAY

A strip of land situated in the West half of the West half of Section 8, Township 5 North, Range 30 East, W.M., Umatilla County, Oregon and being 10.00 feet Westerly of and 20.00 feet Easterly of the following described line.

Beginning at the Southwest corner of said Section 8; Thence North 01°01'06" East along the West line of said Section 8 a distance of 2671.17 feet to a point on the Northerly margin of U.S. Highways No. 395 and 730 right-of-way; Thence North 57°31'45" East along said Northerly margin a distance of 149.61 feet to the TRUE POINT OF BEGINNING; Thence South 32°28'15" East a distance of 142.65 feet; Thence South 17°13'47" West a distance of 569.95 feet; Thence South 00°23'45" West a distance of 260.83 feet; Thence South 01°52'21" West a distance of 1501.49 feet; Thence South 15°27'17" East a distance of 338.81 feet to a point on the South line of said Section 8, said point lying South 89°11'04" East a distance of 120.89 feet from the Southwest corner of said Section 8 and Terminus of this Easement.

EXCEPTING therefrom all that portion lying within the right-of-way of U.S. Highways No. 395 and 730, and the Union Pacific Railroad Company.

This Parcel contains 1.64 acres, more or less.

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): UCDC Section 152.056 CA
- Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

RE: Application for a Permit to Use Surface Water for the St. Hilaire Brothers Hermiston Farm LLC.

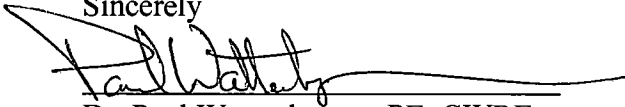

Dear Sir/Madame;

Enclosed is an Application for a Permit to Use Surface Water, Columbia River, for the St. Hilaire Brothers Hermiston Farm LLC. The requested period of use is from October 1st through April 14th. Because of the size of the farm multiple maps are included. There are four maps numbered 1, 2, 3, and 4 of 4 which each show a portion of the farm at a scale of 1" = 1,320'. There is also one map that shows the entire farm, but at a scale of 1" = 2,640'. The application includes 20.99 cfs/2,729 ac-ft for Primary Irrigation on 83.65 acres and 45.45 cfs/3,636 ac-ft for Supplemental Irrigation on 3,635.85 acres.

Based on the total rate 66.44 cfs a check in the amount of \$24,900 is also enclosed.

If there are any questions please direct them to Paul Wattenburger at IRZ Consulting at (541) 567-0252 or paul@irz.com. Thank you.

Sincerely

Dr. Paul Wattenburger, PE, CWRE
