Application for a Permit to
**Store Water
 in a Reservoir**

(Alternate Review)

SALEM, OR

Alternate Review Process (ORS 537.409): You may use this form for any reservoir storing less than 9.2 acre-feet or with a dam less than 10 feet high.

Use a separate form for each reservoir

Please type or print in dark ink. If your application is found to be incomplete or inaccurate, we will return it to you. If any requested information does not apply, insert "n/a". A summary of review criteria and procedures that are generally applicable to these applications is available at www.wrd.state.or.us/OWRD/PUBS/forms.shtml.

1. APPLICANT INFORMATION

Applicant: Benjamin Beck Sarah Sibbersen
First Last
 Mailing Address: 1200 Sterling Creek Rd.
Jacksonville OR 97530
City State Zip
 Phone: (402) 669-1649 (905) 234-5679
Home Work Other
 Fax: N/A E-Mail Address*: beckashland@gmail.com

* By providing an e-mail address, consent is given to receive all correspondence from the department electronically. (paper copies of the final order documents will also be mailed.)

2. AGENT INFORMATION

The agent is authorized to represent the applicant in all matters relating to this application.

Agent: N/A
First Last
 Mailing Address: _____

City State Zip
 Phone: _____
Home Work Other
 Fax: _____ E-Mail Address*: _____

* By providing an e-mail address, consent is given to receive all correspondence from the department electronically. (paper copies of the final order documents will also be mailed.)

3. LOCATION AND SOURCE

A. Reservoir Name: N/A

B. Source: Provide the name of the water body or other source from which water will be diverted, and the name of the stream or lake it flows into. Indicate if source is run-off, seepage, or an unnamed stream or spring.

Source: Paarman Creek Tributary to: Forest Creek

C. County in which diversion occurs: Jackson

For Department Use		
App. No. <u>R-2017-7</u>	Permit No. _____	Date _____

D. Reservoir Location

Township (N or S)	Range (E or W)	Section	quarter/quarter	tax lot number
20S	2W	7	SW 1/4 of NW 1/4	602

E. **Dam:** Maximum height of dam: 9' feet. If excavated, write "zero feet".

F. **Quantity:** Amount of water to be stored in the reservoir at maximum capacity. List volume in acre-feet: 3 Acre-feet = $\frac{\text{Average Length}(\text{Average Width})(\text{Average Depth})}{43,560}$

Is this project fully or partially funded by the American Recovery and Reinvestment Act? (Federal stimulus dollars) Yes No

4. WATER USE

Indicate the proposed use(s) of the stored water. **NOTE: You may wish to consider filing for "Multipurpose use" for your reservoir. Multipurpose use does not limit the types of future uses for the stored water. Multipurpose covers all uses including: stockwater, fish and wildlife, aesthetics, domestic, irrigation, agriculture, fire protection and pollution abatement.** If any use will be out of reservoir use, regardless of the type of storage listed, a secondary application must be filed to appropriate the stored water.

Multipurpose

DEC 21 2017

SALEM, OR

5. PROPERTY OWNERSHIP

Please provide a copy of the recorded deed(s).

Do you own all the land where you propose to divert, transport, and use water?

Yes (please check appropriate box below then skip to section 5)

There are no encumbrances

This land is encumbered by easements, right of way, roads of way, roads or other encumbrances

No (Please check the appropriate box below)

I have a recorded easement or written authorization permitting access.

I do not currently have written authorization or easement permitting access.

Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigated and/or domestic use only (ORS 274.040). (Do not check this box if you described your use as "Multipurpose" in #3 above.)

List the names and mailing addresses of all affected landowners:

6. ENVIRONMENTAL IMPACT

- A. **Channel:** Is the reservoir: in-stream or off channel?
- B. **Wetland:** Is the project in a wetland? Yes No Don't know
- C. **Existing:** Is this an existing reservoir? Yes No
If yes, how long has it been in place? _____ years.
- D. **Fish Habitat:** Is there fish habitat upstream of the proposed structure? Yes No Don't know
If yes, how much? _____ miles.
- E. **Partnerships:** Have you been working with other agencies? Yes No
Indicate agency, staff and phone numbers of those involved. Also indicate any agencies that are cost sharing in this project.

RECEIVED BY OWRD

DEC 21 2017

7. WITHIN A DISTRICT

SALEM, OR

Check here if the point of diversion or place of use are located within or served by an irrigation or other water district.

Irrigation District Name	Address	
City	State	Zip

8. DESCRIPTION

Provide a description of the design and operation of the proposed diversion, including a description of how live flow will be passed outside the authorized storage season. Use this space for narrative. You may also provide narrative and sketches on separate pages.

The point of diversion will be located in a natural depression (deeper point) of the creek bed to alleviate any need for alterations to the landscape. The proposed reservoir will also be located geographically to collect runoff from the hillside - this runoff providing the primary source for the reservoir; secondary to this will be pulled from the point of diversion in Poorman Creek. If necessary, water will be collected from the point of diversion using a small horsepower pump with a fish screened foot valve to block any fish from being disturbed. Water will only be collected within the specified period of approved use and only when runoff collection is inadequate.

R-88487

If the diversion involves a dam, use this space for sketches of the diversion (e.g. cross-section of the dam with its dimensions, dimension and placement of outlet pipe, means of passing live flow outside of the authorized storage season, and means for providing fish passage).

No dam for diversion

9. SIGNATURE

I swear that all statements made and information provided in this application are true and correct to the best of my knowledge.

 Applicant Signature 

12/18/17
Date
12/18/17

Before you submit your application be sure you have:

- Answered each question completely.
- Included a legible map that includes Township, Range, Section, quarter-quarter and tax lot number.
- The map must meet map requirements to be accepted.
- Included a land use form or receipt stub signed by a local planning official.
- Included a check payable to Oregon Water Resources Department for the appropriate amount.

ODFW Alternate Reservoir Application Review Sheet

This portion to be completed by the applicant.

Applicant Name/Address/Phone/Email: Benjamin Beck/Sarah Silbernsein
1200 Sterling Creek Rd. Jacksonville 97530 / 402-669-1649 / ssilbernsein@yahoo.com

Reservoir Name: Pond 1 Source: nhoff / prorman creek Volume (AF): 3 AF

Twp Rng Sec QQ: 30S 2W Sec 7 SW 1/4 of NW 1/4 Basin Name: Forest Creek in-channel
 off-channel

Note: It is unlikely that ODFW will be able to complete this form while you wait, nevertheless we recommend making an appointment to submit the form so as to provide any necessary clarifications. See pg. 6 of Instructions for contact information.

This portion to be completed by Oregon Department of Fish and Wildlife (ODFW) District staff.

- 1) Is the proposed project and AO¹ off channel? YES NO
 (if yes then proceed to #4; if no then proceed to #2)
- 2) Is the proposed project or AO located where NMF² are or were historically present?..... YES NO
 (if yes then proceed to #3; if no then proceed to #4)
- 3) If NMF are or were historically present:
- a. Is there an ODFW-approved fish-passage plan?..... YES NO
 - b. Is there an ODFW-approved fish-passage waiver or exemption?..... YES NO

If fish passage is required under ORS 509.580 through .910, then either 3(a) or 3(b) must be "Yes" to move forward with the application. If responses to 3(a) and 3(b) are "No", then the proposed reservoir does not meet the requirements of Oregon Fish Passage Law and shall not be constructed as proposed.

- 4) Would the proposed project pose any other significant detrimental impact to an existing fishery resource locally or downstream?..... YES NO
 Explain below (for example, list STE species or other existing fishery resources that would be impacted negatively.)

Any diversion or appropriation of water for storage during the period Apr: 1 through September poses a significant detrimental impact to existing fishery resources. (For example, if diversion of water for storage during a certain time period would cause a significant detrimental impact to an existing fishery resource, then ODFW should recommend conditions or limitations.)
 If NMF fish are present at the project site or point of water diversion then the applicant should be advised that a fish screen consistent with screening criteria will be required.

- This proposed pond or reservoir contemplates impounding water in the Columbia Basin above Bonneville Dam. ODFW has determined that additional diversions of water in this area pose a significant detrimental impact to existing fishery resources during the period April 15 through September 30.

Revised 10/4/12

R-88487

MENU OF CONDITIONS FOR WRD, ODFW, DEQ AND ODA

Revised June 24, 2011

DEC 21 2017

Use this menu to identify appropriate conditions to be included in the permit, and indicate the abbreviations on the review form:

fishpass: As required by ORS 509.585, a person owning or operating an artificial obstruction (AO) may not construct or maintain any AO across the waters of this state that are inhabited, or historically inhabited, by native migratory fish (NMF) without providing passage for NMF. A person owning or operating an AO shall, prior to construction, fundamental change in permit status or abandonment of the AO in any waters of this state, obtain a determination from ODFW as to whether NMF are or historically have been present in the waters. If ODFW determines that NMF are or historically have been present in the waters, the person owning or operating the AO shall either submit a proposal for fish passage to ODFW or apply for a waiver or exemption. Approval of the proposed fish-passage facility, waiver, or exemption must be obtained from the department prior to construction, permit modification or abandonment of the AO. Approved fish-passage plans, waivers, and exemptions shall maintain adequate passage of NMF at all times (ORS 509.601) as per the approved plan, waiver or exemption.

fishself: The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional prior to diversion of any water. Permittee shall obtain written approval from ODFW that the installation of the required screen and by-pass devices meets the state's criteria or the permittee shall submit documentation that ODFW has determined screens and/or by-pass devices are not necessary.

fishapprove: The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW prior to diversion of any water. The permittee may submit evidence in writing that ODFW has determined screens and/or by-pass devices are not necessary.

fishdiv33: If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR 635-415, shall be followed.

The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW prior to diversion of any water. The permittee may submit evidence in writing that ODFW has determined screens and/or by-pass devices are not necessary.

fishmay: Notwithstanding that ODFW has made a determination that fish screens and/or by-pass devices are not necessary at the time of permit issuance, the permittee may be required in the future to install, maintain, and operate fish screening and by-pass devices to prevent fish from entering the proposed diversion and to provide adequate upstream and downstream passage for fish.

b52 Water may be diverted only when Department of Environmental Quality sediment standards are being met.

b5 The water user shall install and maintain adequate treatment facilities meeting current DEQ requirements to remove sediment before returning the water to the stream.

b51a The period of use has been limited to _____ through _____.

b57 Before water use may begin under this permit, a totalizing flow meter must be installed at each diversion point.

b58 Before water use may begin under this permit, a staff gage that measures the entire range and stage between full reservoir level and dead-pool storage must be installed in the reservoir. The staff gage shall be United States Geological Survey style porcelain enamel iron staff gage style A, C, E or I.

futile call: The use of water allowed herein may be made only at times when waters from the (NAME OF SURFACE WATER) would not otherwise flow into a tributary of the _____ River or sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

riparian: If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR 635-415, shall be followed.

wq: The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

fence: The stream and its adjacent riparian area shall be fenced to exclude livestock.

bly: Water must be diverted to a trough or tank through an enclosed water delivery system. The delivery system must be equipped with an automatic shutoff or limiting flow control mechanism or include a means for returning water to the stream source through an enclosed delivery system. The use of water shall not exceed 0.10 cubic feet per second per 1000 head of livestock.

RE: Fish Passage Plan For Alternate Reservoir Application

SALEM, OR

Dear Mr. Beck, and Ms. Sibbernsen,

The Oregon Department of Fish and Wildlife (ODFW) has evaluated your proposal to divert water from Poorman Creek off channel into "Pond 1" during our review of your application to Oregon Water Resources Department (OWRD) for an Alternate Reservoir permit. By law, ORS 509.580 through .910 requires ODFW to evaluate projects that include any dam, diversion, culvert or other human-made device placed in waters of this state that precludes or prevents the migration of native migratory fish.

During a site visit on November 14, 2017 it was determined that the diversion location for the proposed diversion will be located at approximately N 42° 16.786, W 122° 59.534. It was also determined that the diversion method will be pumping water (recommended rate of approximately 22.56 gallons per minute) out of Poorman Creek. The proposed pump location has an existing pool depression that will be conducive to pumping water. However, if future conditions change at this site (i.e. depression fills in with sediment) the landowner must contact ODFW at the Central Point office to re-evaluate options at this site. Dam building (or other diversion methods) that restrict fish passage are not allowed at this site.

This letter serves as ODFW's fish passage plan approval for the property described above to place a pump in Poorman Creek to fill "Pond 1" during the OWRD approved fill period.

If you have questions please contact me at 541-826-8774 x 222 or peter.a.samarin@state.or.us

Sincerely,

Peter Samarin

Peter Samarin

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; **and**
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

For Local Government Use Only

SALEM, OR

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): 4.2-1 ; Chapter 4

Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:

Alternate Reservoir Application Completeness Checklist

This is the checklist used by WRD staff

Application _____ County _____
Priority Date _____ Township _____ Range _____ Section _____ Taxlot _____
Use _____ Caseworker _____
Amount (AF) _____ Watermaster _____

Minimum Requirements (ORS 537.409)

- Landowner Name, Mailing Address and Telephone Number.
- Source and tributary listed. **NO WELLS-MUST HAVE GW APP TO USE A WELL AS A SOURCE**
- Reservoir Location- Township, Range, Section, Quarter Quarter, Taxlot
- Dam height, if applicable
- Total Quantity of Storage Requested: _____
- Proposed Use of the water. Cannot accept application for use of this stored water at the same time (E2)
- Property ownership indicated? If applicant does not own all the land is the affected landowner's name and mailing address listed? (Including: lands not owned by applicant, upon which the source is located OR that are crossed by the diversion works. This includes any roads or rights-of-way.)
- Environmental Impact section completed?
- Application signed by the landowner(s)? All parties noted as applicants must sign the application. *Must be an original "wet" signature.*
- Acceptable map ** Indicates requirements of standards set forth by the Commission and causes fatal flaw if not provided by the applicant.
 - Reservoir Location - noting Township, Range, Section, 1/4 1/4 and Tax Lot number(s)*
 - Scale of the Map, even scale such as 1" = 400', 1" = 1000', or 1" = 1320' **
 - Reference corner on map
 - North Directional Symbol **
 - 1/4 1/4's clearly identified
 - Reservoir clearly identified **
 - Dam or POD (If off channel) Location coordinates referenced to a government landsurvey corner*
If no dam, use coordinates to center of reservoir.**
- Completed Watermaster review sheet signed and dated by Watermaster.
 - Will the reservoir injure an existing water right? YES NO
 - If YES, can conditions be applied to mitigate the injury? YES NO **If NO, return the application.**
 - Did the watermaster determine when water is available for the proposed use? YES NO
 - The Watermaster review sheet must have been completed within the last 6 months.*
 - If the watermaster determined that water is NOT available, return the application.**
- Completed ODFW review sheet signed and dated by ODFW representative.
 - Will the reservoir pose a significant detrimental impact to an existing fishery resource? YES NO
 - If YES, can conditions be applied to mitigate the impact? YES NO **If NO, return the application.**
 - The ODFW review sheet must have been completed within the last 6 months.*
- Completed Land-Use Form or receipt signed by the appropriate planning department official enclosed?
 - Does the use on land-use form match the proposed use on the application? Must be an original "wet" signature within the last 12 months.*
- Provide a Legal Description of all the property involved with this application. You may include a copy of your deed land sales contract or title insurance to meet this requirement.
