

September 22, 1966

Elmer J. Jackson
Mitchell
Oregon

Dear Mr. Jackson:

This will acknowledge your application to appropriate 8.4 cubic feet of water per second from Badger Creek and Indian Creek for the irrigation of 338.3 acres, a map, and the fee of \$37.40 for which our receipt No. 843 is enclosed.

This application has been filed and numbered 42834.

Diversion points No. 2, 8, and 9 as shown on the map are, apparently, from existing ditches and not from Badger or Indian Creeks. These points would be considered a part of your distribution system and not diversion points as such. If this is correct, you should delete reference to diversion points No. 2, 8, and 9 on the map and from Item No. 4 on the application.

The scale to which the map is drawn must be indicated.

I am returning your application and map for completion and correction. The application is endorsed so that in order to retain its date of priority it must be returned to this office on or before November 22, 1966.

Very truly yours,

CHRIS L. WHEELER
State Engineer
