Dear Mr. and Mrs. Elder:

Enclosed is the proof of appropriation of water under your water right permit number 32113, 32114, and 32115.

The data contained in the proof is based on an inspection and survey of your project made by a representative of this office. It defines the extent to which the water right has been completed within the terms of your permit. The proof should be carefully examined, dated and signed and returned to this office.

Upon receipt of the proof and the recording fee of \$2.00, a certificate of water right will be issued confirming the right and, after recording in the county records, will be forwarded to you.

You may keep the map print for your records.

Sincerely,

Trevor Jones, Administrator  
Water Rights Division

### Form 132

Please submit \$2.00 for each permit. (total - \$6.00)

Our field engineer found a total of 117.6 acres claimed irrigated in connection with permit No. 32115, which exceeds the limit of 92.8 acres under the permit. If you intend to establish a legal water right for the additional 24.8 acres, a permit must be obtained. We will assist in making an application for a permit for the additional land at your request.

Dear Sir and Madam:

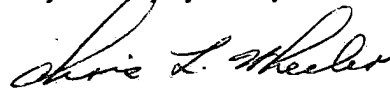

This will acknowledge receipt of your notice to the effect that complete application of water has been made under permit No. 32113.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date.

After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

CHRIS L. WHEELER  
State Engineer
