Water-Use Permit Application Processing

1. Completeness Determination

The Department evaluates whether the application and accompanying map contain all of the information required under OAR 690-310-0040 and OAR 690-310-0050 (www.oregon.gov/owrd/law.our). The Department also determines whether the proposed use is prohibited by statute. If the Department determines that the application is incomplete, all fees have not been paid, or the use is prohibited by statute, the application and all fees submitted are returned to the applicant.

2. Initial Review

The Department reviews the application to determine whether water is available during the period requested, whether the proposed use is restricted or limited by rule or statute, and whether other issues may preclude approval of or restrict the proposed use. An Initial Review (IR) containing preliminary determinations is mailed to the applicant. The applicant has 14 days from the mailing date to withdraw the application from further processing and receive a refund of all fees paid minus \$260. The applicant may put the application on hold for up to 180 days and may request additional time if necessary.

3. Public Notice

Within 7 days of the mailing of the initial review, the Department gives public notice of the application in the weekly notice published by the Department at www.oregon.gov/owrd. The public comment period is 30 days from publication in the weekly notice.

4. Proposed Final Order Issued

The Department reviews any comments received, including comments from other state agencies related to the protection of sensitive, threatened or endangered fish species. Within 60 days of completion of the IR, the Department issues a Proposed Final Order (PFO) explaining the proposed decision to deny or approve the application. A PFO proposing approval of an application will include a draft permit, and may request additional information or outstanding fees required prior to permit issuance.

5. Public Notice

Within 7 days of issuing the PFO, the Department gives public notice in the weekly notice. Notice includes information about the application and the PFO. Protest must be received by the Department within 45 days after publication of the PFO in the weekly notice. Anyone may file a protest. The protest filing fee is \$410.00 for the applicant and \$810.00 for non-applicants. Protests are filed on approximately 10% of Proposed Final Orders. If a protest is filed the Department will attempt to settle the protest but will schedule a contested case hearing if necessary.

6. Final Order Issued

If no protests are filed, the Department can issue a Final Order within 60 days of the close of the period for receiving protest. If the application is approved, a permit is issued. The permit specifies the details of the authorized use and any terms, limitations or conditions that the Department deems appropriate.

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- The Department encourages all applicants to wait for a permit to be issued before beginning construction of any proposed diversion. Acceptance of this application does not guarantee a permit will be issued.
- If I begin construction prior to the issuance of a permit, I assume all risks associated with my actions.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be cancelled.
- The water use must be compatible with local comprehensive land use plans.

SECTION 5: WATER MANAGEMENT

A. Diversion and Conveyance

What equipment will you use to pump water from your source?

Pump (give horsepower and type): Each user has own pumps and irrigation system

Other means (describe): _____

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water.

Each users pumps directly from Willow Creek and Pumps are equipped with ODF&W approved fish screens and flow meters

B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler)

Each user has their own system to apply their irrigation water

C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to public uses of affected surface waters.

Conservation varies by user. The applicant will comply with water use measurement and reporting requirements.

SECTION 6: RESOURCE PROTECTION

In granting permission to use water from a stream or lake, the state encourages, and in some instances requires, careful control of activities that may affect the waterway or streamside area. See instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources.

Diversion will be screened to prevent uptake of fish and other aquatic life.

Describe planned actions: All diversions have ODF&W approved fish screens

Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas.

Describe planned actions: None anticipated. All diversions, delivery systems and application systems are existing

Operating equipment in a water body will be managed and timed to prevent damage to aquatic life.

Describe: All diversion have ODF&W approved fish screens

Water quality will be protected by preventing erosion and run-off of waste or chemical products.

Describe: Measures vary by user.

SECTION 9: REMARKS

Use this space to clarify any information you have provided in the application.

Applicant has filed an application with the Bureau of Reclamation and Corps of Engineers to amend applicant's stored water contract to include the 1000 acre-feet requested in this application. We are nearing the end of the contract amendment process and will provide a copy of the contract as soon as it is available.

Section 2: Pursuant to ORS 537.211(6), Applicant is not required to obtain prior authorization or an easement permitting access to non-owned lands. Applicant is a public corporation formed under ORS Chapter 554.

Pursuant to OAR 690-320-0070(3), Applicant requests a permit condition stating: "The use of stored water under this permit may be used in place of any existing ground water right for primary irrigation of the same land in order to conserve ground water supplies." (This condition appears in Permit S-54980, held by Applicant).

Special water allocation provisions are included in the company's bylaws. To help ensure that the landowners properly understand the nature of their rights to use water under the permit, Applicant requests a permit condition stating: "Use of water under this permit shall be subject to applicable provisions of articles of incorporation, bylaws, rules and regulations of the Willow Creek District Improvement Company." (This condition appears in Permit S-54980, held by Applicant).

We have attached an application map to each of the corresponding deeds. We have also included an extra set of application maps, including an extra copy of the oversized Thompson-Damon-Bloodsworth map.

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

Bill and Kathryn,

Please see the attached notice relating to the Willow Creek District Improvement Company's efforts to secure an additional 1000 acre-feet of stored water from Willow Creek Dam and Reservoir. Now that the Corps' environmental review appears to be nearing completion, the District will be filing an application with the Oregon Water Resources Department for a permit to use the additional stored water.

Please let me know if you have any questions regarding this notice.

Best regards,

Dear Kathryn and Bill:

The Oregon Water Resources Department requires an applicant for a permit to use stored water to provide notice of the application to the operator of the reservoir. (Oregon Administrative Rules 690-310-0040(1)(d)). On behalf of the Willow Creek District Improvement Company ("District"), I am writing to notify the United States Army Corps of Engineers and the United States Bureau of Reclamation of the District's intent to file an application for a permit to use 1000 acre-feet of stored water from Willow Creek Reservoir in Heppner, Oregon. A copy of this letter will accompany the District's application.

The District is required to submit a copy of its water use contract to OWRD before a water use permit can be issued. We appreciate the agencies' cooperation in completing the necessary contracting and environmental review, and look forward to completing the process in the coming months.

Best regards,

Shonee D. Langford

RE: Application for a Permit to Use Surface Water (Stored Water Only)

To Whom it May Concern:

Enclosed for filing on behalf of the Willow Creek District Improvement Company is an Application for a Permit to Use Surface Water with supporting documentation. Also enclosed is a check to cover the application fee of \$2,251. I will serve as the applicant's agent.

The application proposes to use 1000 acre-feet of stored water from Willow Creek Reservoir in Heppner, Oregon. The applicant currently holds Permit S-54980 to use 2500 acre-feet of stored water from the reservoir.

Timing is a concern for the 2018 irrigation season, given the potential need to use water in mid-to-late summer. ~~We would appreciate an opportunity to discuss the estimated time frame for processing this application to help us determine whether a limited-license application may be necessary for the 2018 season.~~

Best regards,

Shonee D. Langford

Edward,

Thanks for bringing this to my attention. You are absolutely right, and I don't know where we came up with the amount we paid. We agree that the correct amount is \$2916.00, and we intended to pay the permit recording fee up front.

Please charge the balance of \$665.00 to Schwabe, Williamson & Wyatt's account with the Department. I would appreciate a reply to confirm when that has been done.

Thank you,

Shonee
