Lee R. Wendelbo
264 Norton Road
Williams, OR 97544

Dear Mr. Wendelbo:

REFERENCE: File T-4764

I apologize for the lengthy delay in corresponding on your Transfer Application 4764. The application somehow was held up and then mislaid. It was brought to my attention only after the end of the recent legislative session.

Your application, which requests a change in point of diversion from Manger Creek to the West Fork Illinois River, cannot be processed and should not have been filed. The statutes do not provide for a change in source of appropriation.

The filing fees of \$135 will be returned to you as soon as a refund check can be processed through accounting. I am returning your application and supporting data for your records.

Again, I apologize for this delay.

Sincerely,

LARRY W. JEBOUSEK
Administrator
Water Rights Division
