## Watermaster Review Form: Water Right Transfer

Transfer Application: T-10365

Review Due Date: \_\_\_\_\_

Applicant Name: Westland Irrigation District - Amstad to Correa

Proposed Changes:  POU     POD     POA     USE     OTHER

Reviewer(s): Molly Reid, Assistant Watermaster

Date of Review: May. 24, 2007

1. Do you have information suggesting that the water rights may be subject to forfeiture?  
 Yes     No    If "Yes", describe the information and indicate if you intend to file a cancellation affidavit or if you need additional time to determine if a cancellation affidavit should be filed: \_\_\_\_\_
2. Is there a history of regulation on the source that serves the right proposed for transfer that has involved the right and downstream water rights?  Yes     No    Generally characterize the frequency of any regulation or explain why regulation has not occurred:  
Permit S-25924 on Umatilla River, regulated in mid to late summer when water is insufficient to meet all water rights. Permit 7400 is available per storage availability in McKay Reservoir. All groundwater rights within Stage Gulch Critical Groundwater area and may be regulated back if water is not available. G6339 is regulated as surface water.
3. Check here if it appears that downstream water rights benefit from return flows resulting from the current use of the right?  If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:  
\_\_\_\_\_
4. Are there upstream water rights that would be affected by the proposed change?  
 Yes     No    If "Yes", describe how the rights would be affected and list the rights most affected: \_\_\_\_\_
5. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach?  If you check the box, describe and, if possible, estimate the losses: No losses, water transported via Westland Canal.
6. Would distribution of water for the right after the proposed change result in regulation of other water rights that would not have occurred if use of the existing right was maximized?  
 Yes     No    If "Yes", explain: \_\_\_\_\_
7. For POU changes, would the original place of use continue to receive water from the same source?  Yes     No     N/A    If "Yes", explain: \_\_\_\_\_
8. For POU or USE changes, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste?  Yes     No  
If "Yes", explain: \_\_\_\_\_

9. Are there other issues not identified through the above questions?  Yes  No If “Yes”, explain: \_\_\_\_\_
10. What alternatives may be available for addressing any issues identified above: \_\_\_\_\_
11. Have headgate notices been issued for the source that serves the right?  Yes  No
12. What water control and measurement conditions should be included in the transfer:

<b>Measurement Devices</b>	<input checked="" type="checkbox"/> Present and should be maintained.	<input type="checkbox"/> Should be required prior to diverting water.	<input type="checkbox"/> May be required in the future.
<b>Headgates</b>	<input checked="" type="checkbox"/> Present and should be maintained.	<input type="checkbox"/> Should be required prior to diverting water.	<input type="checkbox"/> May be required in the future.
