

**Application for
Extension of Time
for a Water Right Permit**
(Non-Municipal / Non-Quasi-municipal Water Use)

TO THE DIRECTOR OF THE OREGON WATER RESOURCES
DEPARTMENT

*A separate extension application must be submitted for each permit as per
OAR 690-315-0020(2).*

*This application and a summary of review criteria and procedures that are generally
applicable to this application are available at
<http://www.wrd.state.or.us/OWRD/PUBS/forms.shtml>.*

I, ERIC HOLMES

NAME OF PERMIT HOLDER [OAR 690-315-0020(1) and (3)(a)]

3160 ELIOT HOOVER OR 97031
ADDRESS CITY STATE ZIP

541-386-6922 _____
PHONE E-MAIL ADDRESS

the permit holder of: Application Number G - 13527
 Permit Number G - 12723

[OAR 690-315-0020(3)(b)]

do hereby request that the time in which to:

complete construction (of diversion/appropriation works and/or purchase and
installation of the equipment necessary to the use of water), which time now
expires on October 1, _____, be extended to October 1, _____

RECEIVED

GENERAL TIPS:

- Permit holders of municipal or quasi-municipal water use permits DO NOT use this form. The correct form is *Application for Extension of Time for Municipal and Quasi-Municipal Water Use Permits*, available at the following link:
<http://www.wrd.state.or.us/OWRD/PUBS/forms.shtml#other>

RECEIVED

FEB 23 2010

WATER RESOURCES DEPT
SALEM, OREGON

- 1 Request the reasonable amount of time necessary to fully complete the water construction project and/or to fully use the permitted quantity of water under the terms and conditions of your permit. Should this request be approved, it will be OWRD's expectation that you will complete your project within the new time period allowed. Future extensions may not be granted.
 - A separate Application for Extension of Time must be submitted for each permit. OAR 690-315-0020(2).
 - An instruction sheet (Instructions for Filling Out Extension of Time Application for Permits) provides details that will help you answer each question on the application. Permit extensions are evaluated under OAR Chapter 690, Division 315. These rules may be viewed at:
<http://www.wrd.state.or.us/OWRD/LAW/index.shtml>.
- 1 You may provide OWRD with any additional information or evidence that will aid us in making our decision. Please note that OWRD may require other information that is necessary to evaluate the application. OAR 315-0020(3)(n).
 - After careful review of the Application for Extension of Time, you may contact OWRD at (503) 986-0900, to ask questions and request assistance from a Permit Extensions Specialist in the Water Rights and Adjudications Division.
 - Once an Application for Extension of Time is received by OWRD, it will be reviewed for completeness. OWRD will return any incomplete or deficient applications to the applicant.
OAR 690-315-0040(1)(a).

RECEIVED

APR 13 2010

Reference Materials Needed to Complete this Application:

WATER RESOURCES DEPT
SALEM, OREGON

- The water right permit. If needed, a copy of the water right permit can be downloaded from the Department's Website at <http://www.wrd.state.or.us> (find the link to the Water Rights Information System (WRIS)). Or, a copy of the permit (or other documents) may be requested by water right application number from the Water Rights Division at 503-986-0900 (copy fees will apply).
- Documentation which demonstrates compliance with permit conditions (for example, well construction logs; static water level measurement reports; annual water use reports; ODFW fish screen certification; a plan to monitor the effect of water use on ground water aquifers utilized under the permit; etc.).

Answer the Following Questions to Complete this Application for Extension of Time

1. Did the actual construction of the water system/well drilling begin within the [OAR 690-315-0020(3)(d)]

10. Justify the time requested to complete the project and/or apply the water to full beneficial use. Your justification should combine information from your answers from Questions 2-B, 7, 8, and 9 of this Application for Extension of Time, and should also include any other information or evidence to establish that the requested amount of time is sufficient and that you will be able to complete the project within the amount of time requested.

BOTH A & A PUMP SITES AND TENNESON END,

THINK THERE IS A BEND IN THE PIPE, AND

THATS WHY WE CANT GET A E-TAPE MEASUREMENT,

I WILL HAVE TO PULL THE PUMPOUT

EVERY OCTOBER TO GET THE MEASUREMENT.

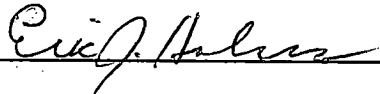

11. Provide any other information you wish OWRD to consider while evaluating your Extension of Time Application.

I HAVE NOT HAD A PROBLEM WITH WATER,

JUST PUMPS & MOTORS. IT LOOKS LIKE THE

STATIC WATER LEVEL HAS GONE UP. I NEED
TO SELL THIS PROPERTY AND I WOULD LIKE TO
HAVE WATER RIGHTS TO GO WITH IT. ANY THING
YOU CAN DO TO HELP ME WITH THIS, I WOULD
A APPRECIATE IT. THANKS 11

I am the permit holder, or have authorization from the permit holder, to apply for an extension of time under this permit. I understand that false or misleading statements in this extension application are grounds for OWRD to suspend processing of the request and/or reason to deny the extension.

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

J SCOTT HARRIS
1515 MORGENSEN RD
MOSIER, OREGON 97040

(541) 478-3236

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: G-13527

SOURCE OF WATER: A WELL IN THE ROWENA RIVER BASIN

PURPOSE OR USE: IRRIGATION OF 27.9 ACRES

RATE OF ALLOWED USE: 0.125 CUBIC FOOT PER SECOND

PERIOD OF ALLOWED USE: MARCH 1 THROUGH OCTOBER 31 FOR IRRIGATION

DATE OF PRIORITY: OCTOBER 15, 1993

POINT OF DIVERSION LOCATION: NE 1/4 SE 1/4, SECTION 18, T 2 N, R 12 E, W.M.; 472.2 FEET SOUTH AND 945.4 FEET WEST FROM THE E 1/4 CORNER SEC 18

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NE 1/4 SE 1/4 27.9 ACRES
SECTION 18
TOWNSHIP 2 NORTH, RANGE 12 EAST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

Application G-13527 Water Resources Department

PERMIT G-12723

RECEIVED

FEB 23 2010

WATER RESOURCES DEPT PAGE 2
SALEM, OREGON

C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

Limited Water Level Decline/Interference Condition

To monitor the effect of water use from the well(s) authorized under this permit, the Department requires the water user to make and report annual static water level measurements. The static water level shall be measured in the month of **March**. Reports shall be submitted to the Department within 30 days of measurement.

RECEIVED

APR 13 2010

Measurements must be made according to the following schedule:

Before Use of Water Takes Place

Initial and Annual Measurements

WATER RESOURCES DEPT
SALEM, OREGON

The Department requires the permittee to submit an initial water level measurement in the month specified above once well construction is complete and annually thereafter until use of water begins; and

After Use of Water has Begun

Seven Consecutive Annual Measurements

Following the first year of water use, the user shall submit seven consecutive annual reports of static water level measurements. The first of these seven annual measurements will establish the reference level against which future annual measurements will be compared. Based on an analysis of the data collected, the Director may require that the user obtain and report additional annual static water level measurements beyond the seven year minimum reporting period. The additional measurements may be required in a different month. If the measurement requirement is stopped, the Director may restart it at any time.

2010

2010
#2

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board and be submitted to the Department on forms provided by the Department. The Department requires the individual performing the measurement to:

- (A) Identify each well with its associated measurement; and
- (B) Measure and report water levels to the nearest tenth of a foot as depth-to-water below ground surface; and
- (C) Specify the method used to obtain each well measurement; and
- (D) Certify the accuracy of all measurements and calculations submitted to the Department.

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s) if annual water level measurements reveal any of the following events:

- (A) An average water level decline of 3 or more feet per year for five consecutive years; or
- (B) A water level decline of 15 or more feet in fewer than five consecutive years; or
- (C) A water level decline of 25 or more feet; or
- (D) Hydraulic interference leading to a decline of 25 or more feet in any neighboring well with senior priority.

The period of non or restricted use shall continue until the annual water level rises above the decline level which triggered the action or until the Department determines, based on the permittee's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this permit. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

WATER RESOURCES DEPT
SALEM, OREGON

WATER RESOURCES DEPT
SALEM, OREGON

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin within one year from permit issuance, and shall be completed on or before October 1, 1998. Complete application of the water to the use shall be made on or before October 1, 1999.

Issued August 28, 1996

Our records indicate that you are the holder of a groundwater permit that requires that you periodically measure and report static water levels in your well(s). If you are no longer the holder of this permit or no longer have an interest in it, please contact our department. Consult your permit to determine the required times for measuring and reporting, as well as any requirements regarding who must make the measurements. We recommend that you keep a copy of all measurement reports for your records. All measurements should be made to at least the nearest tenth of a foot or the nearest inch (e.g. 10.2 feet or 10 feet 3 inches). All wells that have been constructed must be measured regardless of whether they are being used, in accordance with your permit.

MEASUREMENT REPORT

(Complete one form for each well.)

Well Identification (Provide as much of the following information as possible; correct any errors from our files)

Well not yet drilled as of date:

Original owner on well log: SCOTT HARRIS

Well ID# (on tag attached to casing): L

16596

Startcard number (if listed on well log):

4834

Well depth: 480.00 (ft) Casing diameter:

(in)

Date drilled:

12/28/1992

Owner's well name:

Drilled by:

When did water use begin under this permit from this well? Date: Month/Yr 2-4-93

Show all water rights listing this well:

Application number(s):

Permit number(s):

Certificate number(s):

Date of measurement: 3-23-04

Description of measuring point (e.g. 1 1/4" port pipe on north side): TOP OF WELL OPEN WITH CAP

Static water level above/below (circle one) measuring point: 70 feet, or airline pressure 30.3 psi

Measuring point distance above/below (circle one) land surface: feet, or airline length 450 feet

Static water level above/below (circle one) land surface: 380 feet

Shut-in pressure (if flowing artesian well): psi

Method of measurement: E-tape Airline Other (specify):

Water level status when measured: Static Pumping Rising Flowing Other

Length of time well was idle before measurement: 24 hr

Comments (use back of report if necessary):

I hereby certify that to the best of my ability, the information on this report is accurate and, at the time of measurement, the presence of the water in the well was artesian.
