IMPORTANT—This form is a notice to the State Engineer that permittee is ready to make **final proof** to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the **final proof** inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated. **Fill out, detach and mail to the State Engineer, Salem, Oregon 97310, when all of the water has been applied.**

Proof of Appropriation of Water

DONALD C. JESSE

of Rt. 2, Box 23, Hillsboro, State of Oregon, 97123,
has applied beneficially the waters of
an unnamed drainageway and reservoir constructed under Application No. R-49954,
Permit No. R-6096
a tributary of Tualatin River for the purpose of
irrigation of 80.0 acres and supplemental irrigation of 48.8 acres

under Permit No. 37581 and that the use of said waters has been completed under the
terms of said permit; that the priority of the right dates from
January 8, 1973
that the amount of water for the purposes aforesaid, has been actually beneficially used in the
amount of
0.92 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream.
The point of diversion is located in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 13, T. 1 S., R. 3 W., W. M.,
1000 feet North and 1220 feet West from the NE Corner DeWitt DLC 57

The amount of water used for irrigation, together with the amount secured under any other
right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second
per acre, or its equivalent for each acre irrigated from direct flow and shall be
further limited to a diversion of not to exceed 2 $\frac{1}{2}$ acre feet per acre for each
acre irrigated during the irrigation season of each year from direct flow and
storage from reservoir constructed under Permit No. R-6096

and shall
conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right, and to which such right is appurtenant, is
as follows:

Dear Mr. Jesse:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under permit No. R-6096 and 37581.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date.

After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Dear Mr. Jesse:

This will acknowledge your application for a permit to construct a reservoir and to store therein 8.64 acre feet of water from unnamed drainage ways for irrigation and supplemental irrigation. A drawing showing the construction features of the reservoir and fees of \$20 were also received. Our receipt No. 32014 was handed to you. The reservoir application has been filed and numbered R-49954.

This will also acknowledge your secondary application for a permit to appropriate 1.4 cubic foot of water per second from the unnamed drainage ways and reservoir for the irrigation of 60 acres and supplemental irrigation of 49.4 acres. The fees of \$31.00 were also received for which our receipt No. 32015 was handed to you. Your secondary application has been filed and numbered 49955.

As discussed when you were in this office when the applications were filed, your applications must be supported by a map showing the project and a legal description of the property upon which the water will be used.

We can hold action on your application for a reasonable length of time pending receipt of the balance of the supporting data.
