**Before submitting your Application for Extension of Time, make sure the following items are included:**

- This completed Application for Extension of Time.
- Statutory fee of \$350.
- Signature page (last page of this Application for Extension of Time).
- All supporting documentation and/or evidence referenced in the Application for Extension of Time.

**MAIL COMPLETED APPLICATION**

**along with the**

**\$350 STATUTORY FEE TO:**

**Water Resources Department  
Attn: Water Right Permit Extensions  
725 Summer Street NE, Suite A  
Salem, Oregon 97301**

**GENERAL TIPS:**

- Request the reasonable amount of time necessary to fully complete the water construction project and/or to fully use the permitted quantity of water under the terms and conditions of your permit. Should this request be approved, it will be OWRD's expectation that you will complete your project within the new time period allowed. Future extensions may not be granted.
- A separate Application for Extension of Time must be submitted for each permit. OAR 690-315-0020(2).
- An instruction sheet (Instructions for Filling Out Extension of Time Application for Permits) provides details that will help you answer each question on the application. Permit extensions are evaluated under OAR Chapter 690, Division 315. These rules may be viewed at: <http://www.wrd.state.or.us/OWRD/LAW/index.shtml>.

- You may provide OWRD with any additional information or evidence that will aid us in making our decision. Please note that OWRD may require other information that is necessary to evaluate the application. OAR 315-0020(3)(n).
- After careful review of the Application for Extension of Time, you may contact OWRD at (503) 986-0900, to ask questions and request assistance from a Permit Extensions Specialist in the Water Rights and Adjudications Division.
- Once an Application for Extension of Time is received by OWRD, it will be reviewed for completeness. OWRD will return any incomplete or deficient applications to the applicant. OAR 690-315-0040(1)(a).

**Reference Materials Needed to Complete this Application:**

- The water right permit. If needed, a copy of the water right permit can be downloaded from the Department's Website at <http://www.wrd.state.or.us> (find the link to the Water Rights Information System (WRIS)). Or, a copy of the permit (or other documents) may be requested by water right application number from the Water Rights Division at 503-986-0900 (copy fees will apply).
- Documentation which demonstrates compliance with permit conditions (for example, well construction logs; static water level measurement reports; annual water use reports; ODFW fish screen certification; a plan to monitor the effect of water use on ground water aquifers utilized under the permit; etc.).

**Answer the Following Questions to Complete this Application for Extension of Time**

[OAR 690-315-0020(3)(d)]

1. Did the actual construction of the water system/well drilling begin within the time specified in the permit? [yes/no] yes

**TIP:** Not all permits specify a date by which construction was to begin.

Date construction began is: Aug 19 04

Details of construction: 11 wells have been drilled, several hundred feet of main line buried, and center pivots installed.

2. Permits typically contain standard or special conditions that must be satisfied to lawfully develop and use permitted water. In the development of this water right, have you satisfied the conditions contained in your permit? [yes/no] yes

A) Describe how you have complied with each condition contained in the original permit [and, if applicable, each condition contained in any order approving a permit amendment and/or a final order approving a prior extension of time]. Include the date when the condition was satisfied.

**TIP:** The instruction sheet for the Application for Extension of Time provides an explanation of the typical conditions that must be addressed in this question.

**CHART-A**

Condition No.**	Date Satisfied	Describe How Permit Condition Has Been Satisfied
A	12/05	Installed water meters on all completed wells. Kept records of amount of water used each month. Submitted reports to the department annually.
B	12/05	Allowed water master access to all meters. Monitored and reported impact of water use. Sent plan for department approval within one year of permit being issued. Sent annual water level reports to department.

\*\* Condition No: Hand-number each condition on a copy of your permit (and, if applicable, permit amendment and prior extension).

B) If you have NOT complied with all applicable conditions, explain the reasons why and indicate with a date certain (in the near future) when compliance will occur.

**CHART-B**

Condition No.**	Date Will Comply	Explain Why Each Permit Condition Has NOT Been Satisfied

\*\* Condition No: Hand-number each condition on a copy of your permit (and, if applicable, permit amendment and prior extension).

5. Provide the maximum rate, or duty if applicable, of water diverted for beneficial use under this permit and/or prior extensions of time, if any, made to date.

**TIP:** Report the rate in the same units of measurement as specified in the permit, being cfs (cubic feet per second), gpm (gallons per minute) or AF (acre-feet – usually only specified on a reservoir water right). Do not provide daily, monthly or annual water use totals.

Maximum rate = 9.76 cfs (cubic feet per second) or,

Maximum rate = \_\_\_\_\_ gpm (gallons per minute) or,

Acre Feet Stored = \_\_\_\_\_ AF

6. Provide the total number of acres irrigated to date under this permit.

Total acres irrigated to date: 3,425

7. Provide a summary of your future plans and schedule to complete the construction of the water system, and/or apply water to full beneficial use under the terms and conditions of the permit.

9. List the reasons why the project was not constructed, and/or water was not beneficially used within permit time limits. Provide supporting information for the reason(s) that best fits your circumstances.

A) The project is of a size and scope that was originally planned to be phased in over a time frame longer than the one allowed in the permit.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

B) The financial resources needed to develop the project precluded completion of the project within authorized time frames.

My father was a partner in a joint venture with me (Brad). He died September 24 of 2007. I was not able to finish the project with the financing available to me. I now have a 3 year farm credit loan issued to me, Mar of 08. I have budgeted the \$180,000 needed to finish the project. I have 60,000 per year. Approved in the loan.

C) Good faith attempts to comply with permit conditions and/or acquire permits from other agencies, or otherwise comply with government regulations, delayed completion of the project.

D) Acts of God or other unforeseen events delayed full development of the water system and use of water within the authorized time frames.

"Stoffel Bros drilling" drilled well E crooked. The pump wouldn't go deep enough to pump the water we needed. We tried to get him to repair the well. We now are left with the responsibility to re-drill the well at our own expense.

[OAR 690-315-0020(3)(k)]

10. Justify the time requested to complete the project and/or apply the water to full beneficial use. Your justification should combine information from your answers from Questions 2, 3-A, 3-B, 7 and 9 of this Application for Extension of Time, and should also include any other information or evidence to establish that the requested amount of time is sufficient and that you will be able to complete the project within the amount of time requested.

Most of this project has been completed. The death of my father temporarily created a financial hardship. Farm Credit Services has issued a three year loan allowing \$60,000 per year for this project. I now have the money available.

11. Provide any other information you wish OWRD to consider while evaluating your Extension of Time Application.

My well drillers have had a difficult time drilling in the rock geology. I'm asking for 5 years to complete these wells since the drilling has been difficult and slow.

I am the permit holder, or have authorization from the permit holder, to apply for an extension of time under this permit. I understand that false or misleading statements in this extension application are grounds for OWRD to suspend processing of the request and/or reason to deny the extension.

Re: Application G-15977 Permit G-15710

Allen Farms would like to submit this plan to monitor and report the impact of water use.

1. The wells shall be measured during March of each year.
2. The wells to be measured include well A, well D, well E, well H, and well O.
3. The measurement taken March of 2006 will be used as the reference level.
4. Measurements will be to the nearest .25 inch. Measurements will be made from ground level by using an electric tape.
5. Measurements will be made before pumping begins each irrigation season, during the month of March.
6. Measurements will be taken by the land owner or land owner's employee. It is the responsibility of the land owner to assure accuracy of measurements.
7. The annual reporting data will be mailed to the Ground Water and Hydrology section within 30 days after measurement.

Should you have any questions concerning our proposed plan, please feel free to contact me.

Sincerely,

Brad Allen
