Application for a Permit to Use

Groundwater

Oregon Water Resources Department 725 Summer Street NE, Suite A Salem, Oregon 97301-1266 (503) 986-0900 www.wrd.state.or.us

Water-Use Permit Application Processing

1. Completeness Determination

The Department evaluates whether the application and accompanying map contain all of the information required under OAR 690-310-0040 and OAR 690-310-0050 (www.oregon.gov/owrd/law). The Department also determines whether the proposed use is prohibited by statute. If the Department determines that the application is incomplete, all fees have not been paid, or the use is prohibited by statute, the application and all fees submitted are returned to the applicant.

2. Initial Review

The Department reviews the application to determine whether water is available during the period requested, whether the proposed use is restricted or limited by rule or statute, and whether other issues may preclude approval of or restrict the proposed use. An Initial Review (IR) containing preliminary determinations is mailed to the applicant. The applicant has 14 days from the mailing date to withdraw the application from further processing and receive a refund of all fees paid minus \$260. The applicant may put the application on hold for up to 180 days and may request additional time if necessary.

3. Public Notice

Within 7 days of the mailing of the initial review, the Department gives <u>public notice</u> of the application in the weekly notice published by the Department at <u>www.oregon.gov/owrd</u>. The public comment period is 30 days from publication in the weekly notice.

4. Proposed Final Order Issued

The Department reviews any comments received, including comments from other state agencies related to the protection of sensitive, threatened or endangered fish species. Within 60 days of completion of the IR, the Department issues a Proposed Final Order (PFO) explaining the proposed decision to deny or approve the application. A PFO proposing approval of an application will include a draft permit, and may request additional information or outstanding fees required prior to permit issuance.

5. Public Notice

Within 7 days of issuing the PFO, the Department gives public notice in the weekly notice. Notice includes information about the application and the PFO. Protest must be received by the Department within 45 days after publication of the PFO in the weekly notice. Anyone may file a protest. The protest filing fee is \$410 for the applicant and \$810 for non-applicants. Protests are filed on approximately 10% of Proposed Final Orders. If a protest is filed, the Department will attempt to settle the protest but will schedule a contested case hearing if necessary.

6. Final Order Issued

Revised 12/4/2017

If no protests are filed, the Department issues a Final Order consistent with the PFO. If the application is approved, a permit is issued that specifies the details of the authorized use and any terms, limitations or conditions that the Department deems appropriate.

Attachments:

- Land Use Information Form with approval and signature of local Planning Department (*must be an original*) or signed receipt
- Provide the legal description of: (1) the property from which the water is to be diverted, (2) any property crossed by the proposed ditch, canal or other work, and (3) any property on which the water is to be used as depicted on the map. Example: A copy of the deed, land sales contract or title insurance policy.
- Fees Amount enclosed: \$3,260
 See the Department's Fee Schedule at www.oregon.gov/owrd or call (503) 986-0900.

Provide a map and check that each of the following items is included:

- Permanent quality and drawn in ink
- Even map scale not less than 4'' = 1 mile (example: 1'' = 400 ft, 1'' = 1320 ft, etc.)
- ☐ Township, Range, Section, Quarter/Quarter, Tax Lots
- Reference corner on map
- Location of each well, and/or dam if applicable, by reference to a recognized public land survey corner (distances north/south and east/west). Each well must be identified by a unique name and/or number.
- ☐ Indicate the area of use by Quarter/Quarter and tax lot clearly identified
- Number of acres per Quarter/Quarter and hatching to indicate area of use if for primary irrigation, supplemental irrigation, or nursery
- △ Location of main canals, ditches, pipelines or flumes (if well is outside of the area of use)

SECTION 2: PROPERTY OWNERSHIP

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

| ⊠Yes | |
|------|---|
| | ☐ There are no encumbrances. |
| | ☐ This land is encumbered by easements, rights of way, roads or other encumbrances. |
| □ No | |
| | ☐ I have a recorded easement or written authorization permitting access. |
| | ☐ I do not currently have written authorization or easement permitting access. |
| | ☐ Written authorization or an easement is not necessary, because the only affected lands I do not own are |
| | state-owned submersible lands, and this application is for irrigation and/or domestic |
| | use only (ORS 274.040). |
| | ☐ Water is to be diverted, conveyed, and/or used only on federal lands. |

List the names and mailing addresses of all affected landowners (attach additional sheets if necessary). NA

<u>You must provide the legal description of</u>: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the water is to be used as depicted on the map.

SECTION 3: WELL DEVELOPMENT

| | <u> </u> | IF LESS T | HAN 1 MILE: |
|----------|----------------------------------|--------------------------------------|--|
| WELL NO. | NAME OF NEAREST SURFACE WATER | DISTANCE TO NEAREST SURFACE WATER | ELEVATION CHANGE BETWEEN NEAREST SURFACE WATER AND WELL HEAD |
| Well 2 | Albany Channel | 1,610 feet | 10 feet (estimated) |
| Well 3 | Albany Channel | 1,650 feet | 10 feet (estimated) |

Please provide any information for your existing or proposed well(s) that you believe may be helpful in evaluating your application. For existing wells, describe any previous alteration(s) or repair(s) not documented in the attached well log or other materials (attach additional sheets if necessary).

Revised 12/4/2017

Ground Water/4

SECTION 3: WELL DEVELOPMENT, CONTINUED

Total maximum rate requested: 500 gpm (each well will be evaluated at the maximum rate unless you indicate well-specific rates and annual volumes in the table below).

The table below must be completed for each source to be evaluated or the application will be returned. If this is an existing well, the information may be found on the applicable well log. (If a well log is available, please submit it in addition to completing the table.) If this is a proposed well, or well-modification, consider consulting with a licensed well driller, geologist, or certified water right examiner to obtain the necessary information.

| • | | | | | | | | PRO | POSED (| JSE . | | | |
|-----------------------------------|-------------|----------|--|---------|-----------------|----------------------------------|--|--------------------------------|--|-------------------|------------------------|------------------------------------|---------------------------------|
| OWNER'S WELL NAME OR NO. | PROPOSED | EXISTING | WELL ID (WELL TAG) NO.* OR WELL LOG ID** | FLOWING | CASING DIAMETER | CASING INTERVALS (IN FEET) | PERFORATED OR SCREENED INTERVALS (IN FEET) | SEAL INTERVALS (IN FEET) | MOST RECENT STATIC WATER LEVEL & DATE (IN FEET) | SOURCE AQUIFER*** | TOTAL WELL DEPTH | WELL- SPECIFIC RATE (GPM) | ANNUAL VOLUME (ACRE-FEET) |
| Well 2 | | × | BENT 55311 | | 12 inch | +1.5 to 18.5 | 18.5 to 58 | 0 to 18.5 | 13.3 3/31/2016 | Alluvium | 60 ft | | |
| Well 3 | \boxtimes | | | | 12 inch | +2 to 25+/- | 25 to 55+/ | 0 to 19+/- | | Alluvium | 55+/- ft | | |

^{*} Licensed drillers are required to attach a Department-supplied Well Tag, with a unique Well ID or Well Tag Number to all new or newly altered wells. Landowners can request a Well ID for existing wells that do not have one. The Well ID is intended to serve as a unique identification number for each well.

** A well log ID (e.g. MARI 1234) is assigned by the Department to each log in the agency's well log database. A separate well log is required for each subsequent alteration of the well.

*** Source aquifer examples: Troutdale Formation, gravel and sand, alluvium, basalt, bedrock, etc.

SECTION 4: WATER USE

| USE | PERIOD OF USE | ANNUAL VOLUME (ACRE-FEET) |
|------------------------|---------------|---------------------------|
| Agriculture/Commercial | Year-Round | 200 |

| | rirrigation use only: ase indicate the number of primary and supplemental acres to be irrigated (must match map). |
|----------|---|
| | |
| | mary: <u>NA</u> Acres Supplemental: <u>NA</u> Acres |
| • | ou listed supplemental acres, list the Permit or Certificate number of the underlying primary water right(s): NA |
| Ind | icate the maximum total number of acre-feet you expect to use in an irrigation season: <u>NA</u> |
| • | If the use is municipal or quasi-municipal, attach Form M |
| • | If the use is domestic , indicate the number of households: <u>NA</u> |
| | Exempt Uses: Please note that 15,000 gallons per day for single or group domestic purposes and 5,000 gallons per day for a single |
| | industrial or commercial purpose are exempt from permitting requirements. |
| • | If the use is mining, describe what is being mined and the method(s) of extraction (attach additional sheets if |
| | necessary): NA |
| | |
| SE | CTION 5: WATER MANAGEMENT |
| A | Diversion and Conveyance |
| А. | What equipment will you use to pump water from your well(s)? |
| | ⊠Pump (give horsepower and type): _Submersible; horsepower to be determined |
| | □Other means (describe): |
| | Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water. Water will be diverted from the wells using submersible pumps and conveyed to the places of use by buried mainlines. The places of use are expected to include buildings and equipment needed to manufacture and produce agricultural products. |

B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler) (attach additional sheets if necessary) Water will be used in a mint still and in other equipment used to produce agricultural-related products. The equipment for applying the water is expected to include, but not be limited to, spigots, facets, sprinklers and spray bars.

C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to aquatic life and riparian habitat; prevent the discharge of contaminated water to a surface stream; prevent adverse impact to public uses of affected surface waters (attach additional sheets if necessary). Water is currently needed for operation of a mint still. Other water uses related to the production and manufacture of agricultural products are expected to be developed on the property as we expand our farming business. A flowmeter will be installed at each well. The places of use are not near surface-water bodies so aquatic life, riparian habitat and streams will not be affected or damaged by the proposed water uses.

Revised 12/4/2017

Land Use Information Form

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form <u>must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed</u>. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; OR
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, <u>and all</u> of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

BENTON COUNTY EXCEPTIONS

- Taxes for the fiscal year 2003-04, a lien in an amount to be determined, but not yet payable.
- 2. The assessment and tax rolls disclose that the premises herein described have been specially assessed as Farm Use Land. If the land becomes disqualified for the special assessment under the statute, an additional tax may be levied for previous years in which the farm use assessment was in effect for the land. In addition thereto, a penalty may be levied if notice of disqualification is not timely given.
- The rights of the public in and to that portion of the premises herein described lying within the limits of public roads, streets and highways.
- The following matters are excluded from the coverage of the policy based on the proximity of the property to Willarmette River, Willamette Sloughs, Albany Channel, Albany Slough, McBee Slough and Un-Named Creeks.
 - a. Rights of the public and governmental bodies (including claims of ownership) to that portion of the premises lying below the high water mark of Willamette River, Willamette Sloughs, Albany Channel, Albany Slough, McBee Slough and Un-Named Creeks.
 - b. Any adverse claim based on the assertion that:
 - Some portion of said land has been created by artificial means, or has accreted to such portion so created.
 - ii. Some portion of said land has been brought within the boundaries thereof by an avulsive movement of Willamette River, Willamette Sloughs, Albany Channel, Albany Slough, McBee Slough and Un-Named Creeks or has been formed by accretion to such portion.
- Any rights and easements of the public and governmental bodies for rights of portage.
- 6. Unrecorded leases and/or tenancies, if any.
- An Easement created by instrument, including the terms and provisions thereof,
