NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

Tax Map: 15-10-20, Tax Lot 700 – The subject property is zoned Forest Use 2 (F2) and is also in a Wildlife Area Combining Zone (WA).

The applicant has requested a "Permit to Use or Store Water" to "Store Water for Pond Maintenance". Staff notes that the applicant has stated that aquatic species cultivation is an intended use of the pond. Staff interprets the applicant's request as a new proposal for aquatic species cultivation. Farm Use, as defined in DCC 18.04, is allowed outright in this zone.

"Farm use" means the current employment of land for the primary purpose of obtaining a profit in money by raising, harvesting and selling crops or by the feeding, breeding, management and sale of, or the produce of, livestock, poultry, fur-bearing animals or honeybees or for dairying and the sale of dairy products or any other agricultural or horticultural use or animal husbandry or any combination thereof. "Farm use" includes the preparation, storage and disposal by marketing or otherwise of the products or by-products raised on such land for human or animal use. "Farm Use" also includes the current employment of the land for the primary purpose of obtaining a profit in money by stabling or training equines, including but not limited to, providing riding lessons, training clinics and schooling shows. "Farm use" also includes the propagation, cultivation, maintenance and harvesting of aquatic species and bird and animal species to the extent allowed by the rules adopted by the State Fish and Wildlife Commission. "Farm use" includes the on-site construction and maintenance of equipment and facilities used for the activities described above. "Farm use" does not include the use of land subject to the provisions of ORS chapter 321, except land used exclusively for growing cultured Christmas trees as defined in ORS 215.203(3). Current employment of the land for farm use also includes those uses listed under ORS 215.203(2)(b).

This LUCS only confirms that the use of irrigation water for "Farm Use" is allowed outright on the subject property.

The applicant did not provide a site plan. Building permits and land use permits may be required for any associated structures. This LUCS does not confirm compliance with wetlands or floodplain regulations if these exist on the property. On-site sales or on-site processing of farm crops may require additional permits.

To the extent the pond is providing irrigation to crops including marijuana/cannabis, staff notes this LUCS does not confirm compliance with State or Federal administered regulations for medical or recreational marijuana. Additionally, there are specific County regulations for

both medical and recreational marijuana. This LUCS does not expressly or implicitly confirm the subject property could comply with the adopted rules governing medical or recreational marijuana. The applicant/property owner shall comply with all applicable regulations in place at the time of establishment of the use.
