TO Whom it may concern:

I asked the previous owner of our property when the pond was built. To the best of his recollection he could only give the year, 1965. As for the use of water in the reservoir, we really don't use it except to watch the wildlife that frequent the pond.

Jerry Kroger

# Oregon Water Resources Department Notice of Exempt Reservoir

For reservoirs built before January 1, 1995, that:

- Store less than 9.2 acre-feet of water, or
- Have a dam less than 10 feet high.

The deadline for submitting a Notice of Exempt Reservoir is January 31, 1997.

HS 2376 INSTRUCTION SHEET

HS 2376 INSTRUCTION SHEET

In order to qualify as exempt, a pond must have been constructed prior to 1967 and must hold a minimum 9.2 acre feet\* of water or more. A dam less than 18 feet high is not eligible. Examples of qualifying ponds are: a pond with a dam that stores 12 acre feet, or a pond with a 12 foot high dam that holds 9.2 acre feet. Any dam over 18 feet high is not eligible. Ponds that hold less than 9.2 acre feet cannot qualify as exempt.

To get a permit for a reservoir (green form) you must provide the following information:

- 1. Landowner's name, address and phone number
- 2. The name of the river basin
- 3. The location of the reservoir. This may be shown on a topographic map, or on your deed or other map.
- 4. The name of the dam (optional)
- 5. The year the dam was constructed

The dam must be on a 1/4 section, quarter-quarter section or 1/2 section. The location of the reservoir indicated on the map must be within the boundaries. A copy of an assessors map may be used for this purpose as it will meet map requirements.

The area of the reservoir must be equal to an area one acre or more.

The reservoir must be a "water right." The reservoir must be protected by the regulation of the dam. If you have an existing reservoir or make a new one, you must get a permit.

If you have any questions about water rights, call the Water Rights Division at 503-378-4999 ext. 499.

Application No. 82081  
Permit No.
