one or more of the proposed POA's is/is not within _____) and taps a groundwater water.

have determined that the proposed groundwater use interference with the nearest surface water source, or interference with the nearest surface water source, or protect the surface water from interference: on #(s) _____; or condition(s) as indicated in "Remarks" below; as indicated in item 4 below; or protect the surface water from substantial interference.

that groundwater for the proposed use requested without injury to prior rights and/or is within the

- b. will not be available in the amount requested without injury to prior rights and/or is within the capacity of the resource; or
- c. _____ will, if properly conditioned, avoid injury to existing rights or to the groundwater resource:
 - i. _____ The permit should contain condition #(s) _____;
 - ii. _____ The permit should contain special condition(s) as indicated in "Remarks" below;
 - iii. _____ The permit should be conditioned as indicated in item 4 below; or
- 4. a. _____ THE PERMIT should allow groundwater production from no deeper than _____ feet below land surface;
- b. _____ The permit should allow groundwater production from no shallower than _____ feet below land surface;
- c. _____ The permit should allow groundwater production only from the _____ groundwater reservoir between approximately _____ feet and _____ feet below land surface;
- d. _____ Well reconstruction is necessary to accomplish one or more of the above conditions.
- e. _____ One or more POA's commingle two or more sources of water. The applicant must select one source of water per POA and specify the proportion of water to be produced from each source.

REMARKS:

(Well Construction Considerations on Reverse Side)

WELL CONSTRUCTION (If more than one well doesn't meet standards, attach an additional sheet.)

5. THE WELL which is the point of appropriation for this application does not meet current well construction standards based upon:

- a. review of the well log;
- b. field inspection by _____;
- c. report of CWRE _____;
- d. other: (specify) _____

6. THE WELL construction deficiency:

- a. constitutes a health threat under Division 200 rules;
- b. commingles water from more than one groundwater reservoir;
- c. permits the loss of artesian head;
- d. permits the de-watering of one or more groundwater reservoirs;
- e. other: (specify) _____

7. THE WELL construction deficiency is described as follows: _____

8. THE WELL
- a. was constructed according to the standards in effect at the time of original construction or most recent modification.
 - b. was not constructed according to the standards in effect at the time of original construction or most recent modification.
 - c. I do not know if it met standards at the time of construction.

RECOMMENDATION:

- A. I recommend including the following condition in the permit: "No water may be appropriated under terms of this permit until the well(s) has been repaired to conform to current well construction standards and proof of such repair is filed with the Enforcement Section of the Water Resources Department."
- B. I recommend withholding issuance of the permit until evidence of well reconstruction is filed with the Enforcement Section of the Water Resources Department.
- C. REFER this review to Enforcement Section for concurrence.

THIS SECTION TO BE COMPLETED BY ENFORCEMENT PERSONNEL

I concur in G/H's recommendation A or B above relating to conditioning or withholding the permit.

_____, 200____
(Signature)

I do not concur in G/H's recommendation A or B above relating to conditioning or withholding the permit for the following reasons: _____
