RECEIVED

DEC 03 2018

OWRD

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application.
- I cannot use water legally until the Water Resources Department issues a permit.
- Oregon law requires that a permit be issued before beginning construction of any proposed well, unless the use is exempt. Acceptance of this application does not guarantee a permit will be issued.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be cancelled.
- The water use must be compatible with local comprehensive land-use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water-right holders to get water to which they are entitled.

 I (we) affirm that the information contained in this application is true and accurate.

Applicant Signature

Robert McKenzie (pres) Dec 03-2018

SECTION 2: PROPERTY OWNERSHIP

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

- YES, there are no encumbrances.
- YES, the land is encumbered by easements, rights of way, roads or other encumbrances.
- NO, I have a recorded easement or written authorization permitting access.
- NO, I do not currently have written authorization or easement permitting access.
- NO, written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).
- NO, because water is to be diverted, conveyed, and/or used only on federal lands.

Affected Landowners: List the names and mailing addresses of all owners of any lands that are not owned by the applicant and that are crossed by the proposed ditch, canal or other work, even if the applicant has obtained written authorization or an easement from the owner. *(Attach additional sheets if necessary).*

N/A

Legal Description: You must provide the legal description of: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the water is to be used as depicted on the map.

The legal description of the property is included in the original Attachment 3. Well 5 is located on tax lot 100 (Parcel 5).

SECTION 3: WELL DEVELOPMENT

WELL NO.	NAME OF NEAREST SURFACE WATER	IF LESS THAN 1 MILE:	
		DISTANCE TO NEAREST SURFACE WATER	ELEVATION CHANGE BETWEEN NEAREST SURFACE WATER AND WELL HEAD
WELL 5	UNNAMED TRIBUTARY TO SIXES RIVER	4,175 FEET	10.5
WELL 5	BOULDER CREEK	5,350 FEET	95.5
WELL 5	UNNAMED TRIBUTARY TO FLORAS LAKE	5,395 FEET	61.5

Please provide any information for your existing or proposed well(s) that you believe may be helpful in evaluating your application. For existing wells, describe any previous alteration(s) or repair(s) not documented in the attached well log or other materials *(attach additional sheets if necessary).*

The table above identifies the nearest location of perennial stream reaches, as identified in C.2. in the groundwater review completed for Application G-18768 original proposed points of appropriation. Elevation change between surface water and wellhead is based on the assumption that the well will be at the same elevation as the proposed Well 2, which is located approximately 370 feet North.

MAY 26 2020

OWRD

SECTION 3: WELL DEVELOPMENT, continued

Total maximum rate requested: **0.169 CFS** (each well will be evaluated at the maximum rate unless you indicate well-specific rates and annual volumes in the table below).

The table below must be completed for each source to be evaluated or the application will be returned. If this is an existing well, the information may be found on the applicable well log. (If a well log is available, please submit it in addition to completing the table.) If this is a proposed well, or well-modification, consider consulting with a licensed well driller, geologist, or certified water right examiner to obtain the necessary information.

OWNER'S WELL NAME OR NO	PROPOSED	EXISTING	WELL ID (WELL TAG) NO * OR WELL LOG ID**	FLOWING ARTESIAN	CASING DIAMETER	CASING INTERVALS (IN FEET)	PERFORATED OR SCREENED INTERVALS (IN FEET)	SEAL INTERVALS (IN FEET)	MOST RECENT STATIC WATER LEVEL & DATE (IN FEET)	PROPOSED USE			
										SOURCE AQUIFER***	TOTAL WELL DEPTH	WELL-SPECIFIC RATE (GPM)	ANNUAL VOLUME (ACRE-FEET)
WELL 5	<input checked="" type="checkbox"/>	<input type="checkbox"/>	N/A	<input type="checkbox"/>	10" 6"	0-20 20-104	84-94 94-99 99-104	0-20	17 FEET BLS (CURR 50232 - 9/2/97)	SEDIMENTS OF THE PIONEER TERRACE	104	N/A	N/A
	<input type="checkbox"/>	<input type="checkbox"/>		<input type="checkbox"/>									
	<input type="checkbox"/>	<input type="checkbox"/>		<input type="checkbox"/>									
	<input type="checkbox"/>	<input type="checkbox"/>		<input type="checkbox"/>									
	<input type="checkbox"/>	<input type="checkbox"/>		<input type="checkbox"/>									
	<input type="checkbox"/>	<input type="checkbox"/>		<input type="checkbox"/>									

* Licensed drillers are required to attach a Department-supplied Well Tag, with a unique Well ID or Well Tag Number to all new or newly altered wells. Landowners can request a Well ID for existing wells that do not have one. The Well ID is intended to serve as a unique identification number for each well.

** A well log ID (e.g. MARI 1234) is assigned by the Department to each log in the agency's well log database. A separate well log is required for each subsequent alteration of the well.

*** Source aquifer examples: Troutdale Formation, gravel and sand, alluvium, basalt, bedrock, etc.

Proposed construction of Well 5 is the same as construction of CURR 50232.

OWRD

SECTION 4: SENSITIVE, THREATENED OR ENDANGERED FISH SPECIES PUBLIC INTEREST INFORMATION

This information must be provided for your application to be accepted as complete. The Water Resources Department will determine whether the proposed use will impair or be detrimental to the public interest with regard to sensitive, threatened or endangered fish species if your proposed groundwater use is determined to have the potential for substantial interference with nearby surface waters.

To answer the following questions, use the map provided in [Attachment 3](#) or the link below to determine whether the proposed point of appropriation (POA) is located in an area where the Upper Columbia, the Lower Columbia, and/or the Statewide public interest rules apply.

For more detailed information, click on the following link and enter the TRSQQ or the Lat/Long of a POA and click on "Submit" to retrieve a report that will show which section, if any, of the rules apply:
https://apps.wrd.state.or.us/apps/misc/lkp_trsqq_features/

If you need help to determine in which area the proposed POA is located, please call the customer service desk at (503) 986-0801.

Upper Columbia - OAR 690-033-0115 thru -0130

RECEIVED

Is the well or proposed well located in an area where the Upper Columbia Rules apply?

MAY 26 2020

Yes No

OWRD

If yes, you are notified that the Water Resources Department will consult with numerous federal, state, local and tribal governmental entities so it may determine whether the proposed use is consistent with the "Columbia River Basin Fish and Wildlife Program" adopted by the Northwest Power Planning Council in 1994 for the protection and recovery of listed fish species. The application may be denied, heavily conditioned, or if appropriate, mitigation for impacts may be needed to obtain approval for the proposed use.

If yes, and if the Department determines that proposed groundwater use has the potential for substantial interference with nearby surface waters:

- I understand that the permit, if issued, will not allow use during the time period April 15 to September 30, except as provided in OAR 690-033-0140.
- I understand that the Department of Environmental Quality will review my application to determine if the proposed use complies with existing state and federal water quality standards.
- I understand that I will install and maintain water use measurement and recording devices as required by the Water Resources Department, and comply with recording and reporting permit condition requirements.

Lower Columbia - OAR 690-033-0220 thru -0230

Is the well or proposed well located in an area where the Lower Columbia rules apply?

Yes No

If yes, and the proposed groundwater use is determined to have the potential for substantial interference with nearby surface waters you are notified that the Water Resources Department will determine, by reviewing recovery plans, the Columbia River Basin Fish and Wildlife Program, and regional restoration programs applicable to threatened or endangered fish species, in coordination with state and federal agencies, as

appropriate, whether the proposed use is detrimental to the protection or recovery of a threatened or endangered fish species and whether the use can be conditioned or mitigated to avoid the detriment.

If a permit is issued, it will likely contain conditions to ensure the water use complies with existing state and federal water quality standards; and water use measurement, recording and reporting required by the Water Resources Department. The application may be denied, or if appropriate, mitigation for impacts may be needed to obtain approval of the proposed use.

If yes, you will be required to provide the following information, if applicable. N/A

Yes No The proposed use is for more than **one** cubic foot per second (448.8 gpm) and is not subject to the requirements of OAR 690, Division 86 (Water Management and Conservation Plans).

If yes, provide a description of the measures to be taken to assure reasonably efficient water use:

Statewide - OAR 690-033-0330 thru -0340

RECEIVED

Is the well or proposed well located in an area where the Statewide rules apply?

MAY 26 2020

Yes No

OWRD

If yes, and the proposed groundwater use is determined to have the potential for substantial interference with nearby surface waters you are notified that the Water Resources Department will determine whether the proposed use will occur in an area where endangered, threatened or sensitive fish species are located. If so, the Water Resources Department, Department of Fish and Wildlife, Department of Environmental Quality, and the Department of Agriculture will recommend conditions required to achieve “no loss of essential habitat of threatened and endangered (T&E) fish species,” or “no net loss of essential habitat of sensitive (S) fish species.” If conditions cannot be identified that meet the standards of no loss of essential T E fish habitat or no net loss of essential S fish habitat, the agencies will recommend denial of the application unless they conclude that the proposed use would not harm the species.

SECTION 5: WATER USE

USE	PERIOD OF USE	ANNUAL VOLUME (ACRE-FEET)
Cranberry Operation	Year-round	123

For irrigation use only:

Please indicate the number of primary and supplemental acres to be irrigated (*must match map*).

Primary: 90 Acres Supplemental: _____Acres

If you listed supplemental acres, list the Permit or Certificate number of the underlying primary water right(s):

Indicate the maximum total number of acre-feet you expect to use in an irrigation season: 123

- If the use is **municipal or quasi-municipal**, attach **Form M**
- If the use is **domestic**, indicate the number of households: _____ (**Exempt Uses:** Please note that 15,000 gallons per day for single or group **domestic** purposes and 5,000 gallons per day for a single **industrial or commercial** purpose are exempt from permitting requirements.)
- If the use is **mining**, describe what is being mined and the method(s) of extraction (*attach additional sheets if necessary*): _____

MAY 26 2020

SECTION 6: WATER MANAGEMENT

OWRD

A. Diversion and Conveyance

What equipment will you use to pump water from your well(s)?

- Pump (give horsepower and type): 2 HP Submersible pump
 Other means (describe): _____

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water. Well 5 will pump water into bulges in the system for cranberry operations to supplement water available from natural flow and storage under Permit S-53011.

B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler) (*attach additional sheets if necessary*)

Sprinkler

C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to aquatic life and riparian habitat; prevent the discharge of contaminated water to a surface stream; prevent adverse impact to public uses of affected surface waters (*attach additional sheets if necessary*).

Water is required for the continued operation of existing cranberry bogs. Because wells are expensive to operate, the owner is incentivized to conserve water as best as possible.

SECTION 7: PROJECT SCHEDULE

- a) Date construction will begin: Within five years of permit issuance.
 b) Date construction will be completed: Within five years of permit issuance
 c) Date beneficial water use will begin: Within five years of permit issuance.

SECTION 8: RESOURCE PROTECTION

In granting permission to use water the state encourages, and in some instances requires, careful control of activities that may affect adjacent waterway or streamside area. See instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources.

- Water quality will be protected by preventing erosion and run-off of waste or chemical products.
 Describe: This is an existing system, with the exception of the construction of Well 5. The applicant will take necessary precautions to prevent run-off and erosion during construction of Well 5.
- Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas.
Note: If disturbed area is greater than one acre, applicant should contact the Oregon Department of Environmental Quality to determine if a 1200C permit is required.
 Describe planned actions and additional permits required for project implementation: No excavation or clearing of banks will occur.
- Other state and federal permits or contracts required and to be obtained, if a water right permit is granted:
 List: _____

SECTION 9: WITHIN A DISTRICT

Check here if the point of appropriation (POA) or place of use (POU) are located within or served by an irrigation or other water district.

Irrigation District Name	Address	
City	State	Zip

SECTION 10: REMARKS

Use this space to clarify any information you have provided in the application (*attach additional sheets if necessary*).

The Applicant is requesting to modify the original Application G-18768 to appropriate up to 0.169 cfs from Well 5 only. The rate requested is less than the maximum allowable rate for cranberry use, however the Applicant will be able to put water to beneficial use at the requested rate and volume on the entire proposed place of use (90 acres) for the following reasons: application G-18768 is being requested to supplement the existing water supply from natural flow and storage under Permit S-53011. During the irrigation season, some irrigation demands can be met using stored water and natural flow (natural flow through May 31) During harvest, requested groundwater can be pumped into cranberry bogs where it will be used for cranberry purposes, and then conveyed to the next down-gradient bog for re-use, thereby maximizing the use of the water.

Minimum Requirements Checklist

Minimum Requirements (OAR 690-310-0040, OAR 690-310-0050 & ORS 537.140)

Include this checklist with the application

Check that each of the following items is included. The application will be returned if all required items are not included. If you have questions, please call the Water Rights Customer Service Group at (503) 986-0900.

Please submit the original application and signatures to the Water Resources Department. Applicants are encouraged to keep a copy of the completed application.

- SECTION 1: Applicant Information and Signature
- SECTION 2: Property Ownership
- SECTION 3: Well Development
- SECTION 4: Sensitive, Threatened or Endangered Fish Species Public Interest Information
- SECTION 5: Water Use
- SECTION 6: Water Management
- SECTION 7: Project Schedule
- SECTION 8: Resource Protection
- SECTION 9: Within a District
- SECTION 10: Remarks

Include the following additional items:

- Land Use Information Form with approval and signature of local planning department (*must be an original*) or signed receipt.
- Provide the legal description of: (1) the property from which the water is to be diverted, (2) any property crossed by the proposed ditch, canal or other work, and (3) any property on which the water is to be used as depicted on the map.
- Fees - Amount enclosed: \$ 3,610.00
See the Department's Fee Schedule at www.oregon.gov/owrd or call (503) 986-0900.
- Map that includes the following items:
 - Permanent quality and drawn in ink
 - Even map scale not less than 4" = 1 mile (example: 1" = 400 ft, 1" = 1320 ft, etc.)
 - North Directional Symbol
 - Township, Range, Section, Quarter/Quarter, Tax Lots
 - Reference corner on map
 - Location of each diversion, by reference to a recognized public land survey corner (distances north/south and east/west)
 - Indicate the area of use by Quarter/Quarter and tax lot identified clearly.
 - Number of acres per Quarter/Quarter and hatching to indicate area of use if for primary irrigation, supplemental irrigation, or nursery
 - Location of main canals, ditches, pipelines or flumes (if well is outside of the area of use)

Note: In addition to a groundwater application, a standard reservoir application is required to store groundwater in a reservoir. If an applicant proposes to divert water from a reservoir, a surface water application is also required.

Water-Use Permit Application Processing

1. Completeness Determination

The Department evaluates whether the application and accompanying map contain all of the information required under OAR 690-310-0040 and OAR 690-310-0050. The Department also determines whether the proposed use is prohibited by statute. If the Department determines that the application is incomplete, all fees have not been paid, or the use is prohibited by statute, the application and all fees submitted are returned to the applicant.

2. Initial Review

The Department reviews the application to determine whether water is available during the period requested, whether the proposed use is restricted or limited by rule or statute, and whether other issues may preclude approval of or restrict the proposed use. An Initial Review (IR) containing preliminary determinations is mailed to the applicant. The applicant has 14 days from the mailing date to withdraw the application from further processing and receive a refund of all fees paid minus \$260. The applicant may put the application on hold for up to 180 days and may request additional time if necessary.

3. Public Notice

Within 7 days of the mailing of the initial review, the Department gives [public notice](#) of the application in the weekly notice published by the Department at www.oregon.gov/owrd. The public comment period is 30 days from publication in the weekly notice.

4. Proposed Final Order Issued

The Department reviews any comments received, including comments from other state agencies related to the protection of sensitive, threatened or endangered fish species. Within 60 days of completion of the IR, the Department issues a Proposed Final Order (PFO) explaining the proposed decision to deny or approve the application. A PFO proposing approval of an application will include a draft permit, and may request additional information or outstanding fees required prior to permit issuance.

5. Public Notice

Within 7 days of issuing the PFO, the Department gives public notice in the weekly notice. Notice includes information about the application and the PFO. Protest must be received by the Department within 45 days after publication of the PFO in the weekly notice. Anyone may file a protest. The protest filing fee is \$410.00 for the applicant and \$810.00 for non-applicants. Protests are filed on approximately 10 percent of Proposed Final Orders. If a protest is filed the Department will attempt to settle the protest but will schedule a contested case hearing if necessary.

6. Final Order Issued

If no protests are filed, the Department can issue a Final Order within 60 days of the close of the period for receiving protest. If the application is approved, a permit is issued. The permit specifies the details of the authorized use and any terms, limitations or conditions that the Department deems appropriate

G-18768

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): 3.021(1)

Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:

Exhibit "A"

Real property in the County of Curry, State of Oregon, described as follows:

PARCEL 1:

Commencing at the Southeast corner of the West Half of the West Half of the Southwest Quarter of Section 28, Township 31 South, Range 15 West, Willamette Meridian, Curry County, Oregon; thence North 2640.00 feet, more or less to the Northeast corner of said West Half of the West Half of the Southwest Quarter; thence East along the East and West center line of said Section 28, a distance of 835.00 feet; thence South, parallel to the East line of said West Half of the West Half of the Southwest Quarter 2640.00 feet, more or less, to the South line of said Section 28; thence West 835.00 feet to the Point of Beginning.

PARCEL 2:

T.L. 3800

The West Half of the West Half of the Southwest Quarter of Section 28; and the East Half of the Southeast Quarter of Section 29, all in Township 31 South, Range 15 West, Willamette Meridian, Curry County, Oregon.

PARCEL 4:

A parcel of land lying in the East Half of the Southwest Quarter of Section 29, Township 31 South, Range 15 West, Willamette Meridian, Curry County, Oregon, described as follows: Beginning at the Southwest corner of the East Half of the Southwest Quarter; thence East along the South line of said Southwest Quarter 1320.0 feet, more or less, to the Southeast corner of said Southwest Quarter; thence North along the East line of the Southwest Quarter 990.0 feet; thence West 1320.0 feet, more or less, to a point on the West line of the East Half of the Southwest Quarter 990.0 feet North along said West line from the Point of Beginning; thence South along the West line of the East Half of the Southwest Quarter 990.0 feet to the Point of Beginning.

PARCEL 5:

T.L. 100

Northwest Quarter of the Northeast Quarter, Section 32, Township 31 South, Range 15 West, Willamette Meridian, Curry County, Oregon; and the East Half of the Northeast Quarter of Section 32, Township 31 South, Range 15 West, Willamette Meridian, Curry County, Oregon. EXCEPTING THEREFROM that portion conveyed by Deeds recorded in Volume 49, Pages 35 and 513, Curry County Deed Records.

PARCEL 6:

That part of the East Half of the Northwest Quarter of Section 32 lying East of the established road marking the Easterly boundary of the tract of land conveyed to Calvin Jarvis Blair in deed recorded March 1, 1948, in Volume 32, Page 566, Curry County Deed Records, all in Township 31 South, Range 15 West, Willamette Meridian, Curry County, Oregon. EXCEPTING THEREFROM that portion lying within the boundaries of Airport Road.

PARCEL 9:

Commencing at the Southeast corner of the West Half of the West Half of the Northwest Quarter of Section 33, Township 31 South, Range 15 West, Willamette Meridian, Curry County, Oregon; thence North 2640.00 feet, more or less, to the Northeast corner of said West Half of the West Half of the Northwest Quarter; thence East along the North line of Section 33, a distance of 835.00 feet; thence South 2640.00 feet, more or less, to the East and West center line of said Section 33; thence West 835.00 feet to the Point of Beginning. EXCEPTING THEREFROM that portion conveyed by deed recorded in Volume 50, Page 620, Curry County Deed Records and described as follows: Beginning at a point which marks the center of Section 33, Township 31 South, Range 15 West, Willamette Meridian, Curry County, Oregon; thence due West 1457.00 feet to a point which marks the point of beginning; thence due West 208.00 feet; thence due North 208.00 feet; thence due East 208.00 feet; thence due South 208.00 feet to the Point of Beginning.

PARCEL 10:

The West Half of the West Half of the Northwest Quarter of Section 33, Township 31 South, Range 15 West, Willamette Meridian, Curry County, Oregon. EXCEPTING THEREFROM that portion conveyed by deed recorded in Volume 53, Page 148, Curry County Deed Records

PARCEL 11:

Beginning at a point on the North boundary of the Northeast Quarter of the Southwest Quarter of Section 29, Township 31 South, Range 15 West, Willamette Meridian, Curry County, Oregon, which said point is 76 feet East of the Northwest corner of said Northeast Quarter of the Southwest Quarter; thence South 208 feet; thence East 280 feet; thence South 208 feet; thence East 208 feet; thence North 416 feet; thence West 488 feet to the Point of Beginning.
