FINDINGS OF FACT

The findings of fact in the Proposed Final Order issued July 24, 2018 are incorporated herein with the following modification:

1. On June 9, 2017, Dan Holborow and Khara Holborow submitted an application to the Department for a water use permit.
2. The Department issued a Proposed Final Order on July 24, 2018. The protest period closed September 7, 2018, and no protest was filed.
3. The Department's continuing evaluation reveals that the measurement and reporting condition, described as Condition #1, in the July 24, 2018 draft permit was incorrect. The requirement for a totalizing flow meter shall be replaced with the requirement for an in-line flow restrictor, as shown on Page 2 of this Final Order.

This is a Final Order in other than contested case. This order is subject to judicial review under ORS 536.075 and ORS 183.484. If a contested case hearing is requested, the Department must schedule one. In the contested case hearing, however, only those issues based on the modifications to the Proposed Final Order may be addressed. Only the applicant or protestant may appeal this order. (ORS 537.170(7)(b)).

- A. Before water use may begin under this permit, the permittee shall install an in-line flow restrictor at each point of diversion. The permittee shall maintain the device in good working order.
- B. The permittee shall allow the watermaster access to the device; provided however, where any device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the volume of water diverted, and may require the permittee to report water-use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water-use information, the periods of water use and the place and nature of use of water under the permit.
- D. The Director may provide an opportunity for the permittee to submit alternative measuring and reporting procedures for review and approval.

CONCLUSIONS OF LAW

- 1. The conclusions of law in the Proposed Final Order issued July 24, 2018 are incorporated herein, with the above modification.
- 2. The proposed use would not impair or be detrimental to the public interest.

NOTE: When issuing permits, ORS 537.170(6) authorizes the Department to include provisions or restrictions concerning the use, control and management of the water to be appropriated for the project. Permit S-55170 is conditioned accordingly.
