#### **SECTION 2: PROPERTY OWNERSHIP**

YES, there are no encumbrances.
YES, the land is encumbered by easements, rights of way, roads or other encumbrances.
NO, I have a recorded easement or written authorization permitting access.
NO, I do not currently have written authorization or easement permitting access.
NO, written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).
NO, because water is to be diverted, conveyed, and/or used only on federal lands.
Affected Landowners: List the names and mailing addresses of all owners of any lands that are not owned by the applicant and that are crossed by the proposed ditch, canal or other work, even if the applicant has obtained written authorization or an easement from the owner. (Attach additional sheets if necessary).

Please indicate if you own all the lands associated with the project from which the water is to be diverted,

**Legal Description:** You must provide the legal description of: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the water is to be used as depicted on the map.

#### **SECTION 3: WELL DEVELOPMENT**

		IF LESS THAN 1 MILE:					
WELL NO.	NAME OF NEAREST SURFACE WATER	DISTANCE TO NEAREST SURFACE WATER	ELEVATION CHANGE BETWEEN NEAREST SURFACE WATER AND WELL HEAD				
5	Pudding River	4100 ft					
	Pudding River unknown Stream	4100 ft 2900 ft					
Y		·					
		A					

Please provide any information for your existing or proposed well(s) that you believe may be helpful in evaluating your application. For existing wells, describe any previous alteration(s) or repair(s) not documented in the attached well log or other materials (attach additional sheets if necessary).

MAR 1 4 2019

(Km)

SECTION 3: WELL DEVELOPMENT, continued

Total maximum rate requested: 1 (each well will be evaluated at the maximum rate unless you indicate well-specific rates and annual volumes in the table below).

O.89 199 for both vells and 209 perwell. (2 wells)

The table below must be completed for each source to be evaluated or the application will be returned. If this is an existing well, the information may be found on the applicable well log. (If a well log is available, please submit it in addition to completing the table) If this is a proposed well, or well-modification, consider consulting with a licensed well driller, geologist, or certified water right examiner to obtain the necessary information.

				,						PR	OPOSED	USE

							0.						

Licensed drillers are required to attach a Department-supplied Well Tag, with a unique Well ID or Well Tag Number to all new or newly altered wells. Landowners can request a Well ID for existing wells that do not have one. The Well ID is intended to serve as a unique identification number for each well.

A well log ID (e.g. MARI 1234) is assigned by the Department to each log in the agency's well log database. A separate well log is required for each subsequent alteration of the well.

\*\*\* Source aquifer examples: Troutdale Formation, gravel and sand, alluvium, basalt, bedrock, etc.

# SECTION 4: SENSITIVE, THREATENED OR ENDANGERED FISH SPECIES PUBLIC INTEREST INFORMATION

This information must be provided for your application to be accepted as complete. The Water Resources Department will determine whether the proposed use will impair or be detrimental to the public interest with regard to sensitive, threatened or endangered fish species if your proposed groundwater use is determined to have the potential for substantial interference with nearby surface waters.

To answer the following questions, use the map provided in <u>Attachment 3</u> or the link below to determine whether the proposed point of appropriation (POA) is located in an area where the Upper Columbia, the Lower Columbia, and/or the Statewide public interest rules apply.

For more detailed information, click on the following link and enter the TRSQQ or the Lat/Long of a POA and click on "Submit" to retrieve a report that will show which section, if any, of the rules apply: <a href="https://apps.wrd.state.or.us/apps/misc/lkp">https://apps.wrd.state.or.us/apps/misc/lkp</a> trsqq features/

	need help to determine in which area the proposed POA is located, please call the customer service desk at 086-0801.
Upper	Columbia - OAR 690-033-0115 thru -0130
Is the	well or proposed well located in an area where the Upper Columbia Rules apply?
Ye	s No
tribal g Basin l and rec	you are notified that the Water Resources Department will consult with numerous federal, state, local and governmental entities so it may determine whether the proposed use is consistent with the "Columbia River Fish and Wildlife Program" adopted by the Northwest Power Planning Council in 1994 for the protection covery of listed fish species. The application may be denied, heavily conditioned, or if appropriate, tion for impacts may be needed to obtain approval for the proposed use.
	and if the Department determines that proposed groundwater use has the potential for substantial erence with nearby surface waters:
•	I understand that the permit, if issued, will not allow use during the time period April 15 to September 30, except as provided in OAR 690-033-0140.
•	I understand that the Department of Environmental Quality will review my application to determine if the proposed use complies with existing state and federal water quality standards.
•	I understand that I will install and maintain water use measurement and recording devices as required by the Water Resources Department, and comply with recording and reporting permit condition requirements.

#### Lower Columbia - OAR 690-033-0220 thru -0230

MAR 1 4 2019

Is the well or proposed well located in an area where the Lower Columbia rules apply?

OWRD

Yes No

If yes, and the proposed groundwater use is determined to have the potential for substantial interference with nearby surface waters you are notified that the Water Resources Department will determine, by reviewing recovery plans, the Columbia River Basin Fish and Wildlife Program, and regional restoration programs applicable to threatened or endangered fish species, in coordination with state and federal agencies, as

For Department Use: App. Number: G - 18803

Groundwater — Page 4

Rev. 08-18

appropriate, whether the proposed use is detrimental to the protection or recovery of a threatened or endangered fish species and whether the use can be conditioned or mitigated to avoid the detriment.

If a permit is issued, it will likely contain conditions to ensure the water use complies with existing state and federal water quality standards; and water use measurement, recording and reporting required by the Water Resources Department. The application may be denied, or if appropriate, mitigation for impacts may be needed to obtain approval of the proposed use.

If yes, you will be required to provide the following information, if applicable.	
Yes No The proposed use is for more than <b>one</b> cubic foot per second (448.8 gpm) and is not subject the requirements of OAR 690, Division 86 (Water Management and Conservation Plans).	ect to
If yes, provide a description of the measures to be taken to assure reasonably efficient water use:	
	RECEIVE
Statewide - OAR 690-033-0330 thru -0340  Is the well or proposed well located in an area where the Statewide rules apply?	MAR 1 4 20
Yes No	OWRD

If yes, and the proposed groundwater use is determined to have the potential for substantial interference with nearby surface waters you are notified that the Water Resources Department will determine whether the proposed use will occur in an area where endangered, threatened or sensitive fish species are located. If so, the Water Resources Department, Department of Fish and Wildlife, Department of Environmental Quality, and the Department of Agriculture will recommend conditions required to achieve "no loss of essential habitat of threatened and endangered (T&E) fish species," or "no net loss of essential habitat of sensitive (S) fish species." If conditions cannot be identified that meet the standards of no loss of essential T E fish habitat or no net loss of essential S fish habitat, the agencies will recommend denial of the application unless they conclude that the proposed use would not harm the species.

#### **SECTION 5: WATER USE**

USE	PERIOD OF USE	ANNUAL VOLUME (ACRE-FEET)
Imaghon	March 1 thru Oct 31	180.3
3		J.

For irrigation use only:						
Please indicate the number of primary and supplemental acres to be irrigated (must match map).						
Primary: Acres Supplemental:Acres						
If you listed supplemental acres, list the Permit or Certificate number of the underlying primary water right(s):						
Na						
Indicate the maximum total number of acre-feet you expect to use in an irrigation season: 180.3						

• If the use is municipal o	r quasi-municipa	I, attach Form M
-----------------------------	------------------	------------------

•	If the use is <b>domestic</b> , indicate the number of households: (Exempt Uses: Please note that 15,000 gallons per day
	for single or group domestic purposes and 5,000 gallons per day for a single industrial or commercial purpose are exempt from
	permitting requirements.)

Groundwater — Page 5 Rev. 08-18

• If the use is <b>mining</b> , describe what is being mined and the method(s) of extraction (attach additional sheets if <b>RECEIVE</b> Decessary):
MAR 1 4 2019
SECTION 6: WATER MANAGEMENT OWRD
A. Diversion and Conveyance What equipment will you use to pump water from your well(s)?
Pump (give horsepower and type): 20hp-30hp variable frequency drove Sub mersible
Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water
B. Application Method  What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler)  (attach additional sheets if necessary)  — drip, high-pressure sprinkler
C. Conservation  Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to aquatic life and riparian habitat; prevent the discharge of contaminated water to a surface stream; prevent adverse impact to public uses of affected surface waters (attach additional sheets if necessary).  The gate early working comps/nursery stack, with the conserve of the conserve.
SECTION 7: PROJECT SCHEDULE
a) Date construction will begin: <u>Fall</u> 2019 or within 5 years of permit issuance b) Date construction will be completed: <u>without</u> 2019 or without 5 years of permit c) Date beneficial water use will begin: <u>Summer</u> 2020 or without 5 years of permit
SECTION 8: RESOURCE PROTECTION
In granting permission to use water the state encourages, and in some instances requires, careful control of activities that may affect adjacent waterway or streamside area. See instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources.
Water quality will be protected by preventing erosion and run-off of waste or chemical products.  Describe: Limit Chemical Fertilizer use while image they
Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas.  Note: If disturbed area is greater than one acre, applicant should contact the Oregon Department of  Environmental Quality to determine if a 1200C permit is required.  Describe planned actions and additional permits required for project implementation:
Other state and federal permits or contracts required and to be obtained, if a water right permit is granted:  List:

RECEIVED

#### NOTE TO APPLICANTS

MAR 1 4 2019

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

#### This form is NOT required if:

- 1) Water is to be diverted, conveyed, <u>and/or</u> used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or groundwater registration modification, <u>and all</u> of the following apply:
  - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
  - b) The application involves a change in place of use only;
  - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
  - d) The application involves irrigation water uses only.

### NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land use form and return it to the WRD. If no land use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.
