Alternate Reservoir Application Completeness Checklist This is the checklist used by WRD staff County Application Curri Priority Date 3-15-2019 Township 35 Range 4 Section 36 Taxlot 200 Use \_\_\_\_\_\_\_ Caseworker \_\_\_\_\_ Kim French Amount (AF) \_\_\_\_\_ Watermaster \_\_\_\_\_ 9 Minimum Requirements (ORS 537.409) Landowner Name, Mailing Address and Telephone Number. Source and tributary listed. NO WELLS-MUST HAVE GW APP TO USE A WELL AS A SOURCE Reservoir Location- Township, Range, Section, Quarter Quarter, Taxlot Dam height, if applicable Total Quantity of Storage Requested: 5 Acre Feet Proposed Use of the water. Cannot accept application for use of this stored water at the same time (E2) ✓ Property ownership indicated? If applicant does not own all the land is the affected landowner's name and mailing address listed? (Including: lands not owned by applicant, upon which the source is located **OR** that are crossed by the diversion works. This includes any roads or rights-of-way.) Environmental Impact section completed? ✓ Application signed by the landowner(s)? All parties noted as applicants must sign the application. Must be an original "wet" signature. Acceptable map \*\* Indicates requirements of standards set forth by the Commission and causes fatal flaw if not provided by the applicant. Reservoir Location - noting Township, Range, Section, 1/4 1/4 and Tax Lot number(s)\* Scale of the Map, even scale such as 1'' = 400', 1'' = 1000', or 1'' = 1320' \*\*Reference corner on map North Directional Symbol \*\* 1/41/4's clearly identified Reservoir clearly identified \*\* Dam or POD (If off channel) Location coordinates referenced to a government landsurvey corner\* If no dam, use coordinates to center of reservoir.\*\* Completed Watermaster review sheet signed and dated by Watermaster. Will the reservoir injure an existing water right? ☐ YES ☑ NO If YES, can conditions be applied to mitigate the injury? 

YES 

NO If NO, return the application. Did the watermaster determine when water is available for the proposed use? 

YES 

NO The Watermaster review sheet must have been completed within the last 6 months. If the watermaster determined that water is NOT available, return the application. Completed ODFW review sheet signed and dated by ODFW representative. Will the reservoir pose a significant detrimental impact to an existing fishery resource? 

VES 

NO If YES, can conditions be applied to mitigate the impact?  $\Box$ YES  $\Box$ NO If NO, return the application. *The ODFW review sheet must have been completed within the last 6 months.* Completed Land-Use Form or receipt signed by the appropriate planning department official enclosed? Does the use on land-use form match the proposed use on the application? Must be an original "wet" signature within the last 12 months. Provide a Legal Description of all the property involved with this application. You may include a copy of your deed land sales contract or title insurance to meet this requirement. ☐ Fees enclosed? Revised 2017-8-4

## Appendix A

Developing your water right often entails grading trenching or other types of construction within waterways, riparian areas, and wetlands. Permits from local, state or federal agencies may be required. A good first step is to check with your local city or county planning office. The following information was provided by the Oregon Division of State Lands.

### Activities in Wetlands and Waterways are Regulated by:

- The Division of State Lands (DSL) under the State Removal-Fill Law
- The U.S. Army Corps of Engineers (Corps) under the Federal Clean Water Act and Rivers and Harbors Act
- The State Department of Forestry under the Forest Practices Act
- The U.S. Natural Resource Conservation Service (NRCS) under the Food, Agriculture, Conservation and Trade Act
- Some City and County land use ordinances

## What Areas are Regulated?

- Rivers streams and most creeks
- Estuaries and tidal marshes
- Lakes and some ponds
- Permanent and seasonal wetlands
- Regulations apply to all lands, public or private
- A wetland does not have to be mapped by the state or otherwise 'designated' to fall under the regulations
- If you are uncertain if there are regulated wetlands on your property, contact DSL for assistance.

#### What Activities are Regulated?

- Placement of fill material
- Alteration of stream bank or stream course
- Ditching and draining
- Plowing/disking non-farmed wetlands
- Excavation or dredging of material
- In-water construction (may also require a lease from DSL)
- For some activities, joint application forms can be obtained from DSL or the Corps

# What Activities are Exempt

- Some routine maintenance activities
- Established, ongoing agricultural activities and grazing
- Some minor projects involving small amounts of fill or removal

#### How are Laws Enforced?

The best enforcement is to prevent illegal wetland alterations through information and education. However, when violations do occur, a variety of enforcement tools may be used, including restoration orders, fines of up to \$10,000 per day (DSL), civil and/or criminal charges.
