

May 21, 1952

Rough and Ready Lumber Co.  
Salem, Oregon

Attention: Mr. Lew F. Krauss

Gentlemen:

This acknowledges receipt of Form C, being notice of complete application of water under your Permit No. 18615.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date for the purpose of checking the amount of water used as described in the permit. After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer.

In the meantime, the permit which you hold will be valid evidence of your water right.

Very truly yours,

CHAS. E. STRICKLIN  
State Engineer

Rough and Ready Lumber Co.  
Selma, Oregon

Attention: Mr. Lew F. Krauss, Partner

Dear Mr. Krauss:

This acknowledges receipt of Form-B, being notice of the completion of construction under Permit No. 18615 in the name of Rough and Ready Lumber Company.

This report has been filed with other matter pertaining to the water right, and the permit is in good standing until October 1, 1952, when under its terms, all the water which it is intended to use at any time should be used to the full extent intended.

Very truly yours,

*Chas. E. Stricklin*

CHAS. E. STRICKLIN  
State Engineer

Form 119

Rough & Ready Lumber Co. April 25, 1949  
Selma, Oregon

Attention: Mr. Lew F. Krauss, Partner  
Gentlemen:

Herewith you will find Application No. 23603, Permit No. 18615, together with blueprint.

This application has been approved and recorded in this office.

PLEASE READ CAREFULLY THE FOLLOWING INSTRUCTIONS:

Your permit has been recorded in this office, but you should hold the original as evidence of your water right unless the land described therein is disposed of. In that event you should file an assignment to the new owner for record in this office. Assignment blanks will be furnished upon request.

The permit, which appears on the back page of the application form, limits the time in which you may begin and complete construction of your project. According to law you must begin actual construction work within one year from the date of issuance of the permit or your right will be lost. The State Engineer is authorized to extend the time for completion of the project on proper showing, but has no authority to extend the time limit for beginning of construction work.

Forms are attached to the permit for your convenience in submitting notice when construction begins, when it is completed, and when the water has been completely applied to the proposed use.

Whenever a measuring device becomes necessary for the proper distribution of water the permittee will be required to install one to the satisfaction of the State Engineer as provided by Section 116-501, O.C.L.A.

As soon as the work is completed and the water applied to the proposed use, you should notify the State Engineer who will then take up with you the matter of final proof, after which a water right certificate will be issued.

If your use of water is for irrigation, proof can be made only after you have actually irrigated ALL of the land described in your permit, which you intend to irrigate at any time.

Yours very truly,

*Chas. E. Stricklin*

February 3, 1949

Mr. Tom R. Pearce  
Watermaster, District No. 16  
Grants Pass, Oregon

Dear Mr. Pearce:

This will acknowledge receipt of your letter of January 27, transmitting an application in the name of Rough and Ready Lumber Company, for a permit to appropriate 0.50 cubic foot of water per second from Rough and Ready Creek for a mill pond, together with fees in the amount of \$20.00, for which our Receipt No. 6420 is enclosed.

The application has been filed and given No. 23603. It appears to be in order and I believe that the matter of approval by issuance of a permit can be given consideration if you will send us a description of the pond as to size, depth and as to the size of dike. I assume that the pond is for the storage of logs.

Yours very truly,

CHAS. E. STRICKLIN  
State Engineer

Enc.

Grants Pass, Ore., Feb. 7th, 1949

Dear Mr. Stricklin:

The general size of the log pond is 100 feet by 200 feet with 5 feet depth, leaving 1 foot for freeboard. Size of dike about 2 feet in height and 12 foot crest. The pond was excavated from level land, so that the excavation is about equal to the fill.

Yours very truly,

*Tom R. Pearce*  
Watermaster District No. 16.
