Dear Reservoir Owner,

You submitted a Notice of Exempt Reservoir under *ORS 537.405 (HB 2376)*. HB 2376 provided an opportunity for the Oregon Department of Fish and Wildlife to comment on how a specific reservoir(s) caused injury to an existing fishery resource. In addition the same law allowed members of the public to comment on how the storage or use of the water caused an injury to an existing water right. This comment period ended on August 1, 1997.

The Department received the attached injury allegation(s) related to your reservoir(s), as provided for in *ORS 537.405*. If you do not agree with the allegation of injury, please submit detailed information to the Department explaining why or how the allegation is in error. Your response must be postmarked no later than *December 10, 1997*.

The Department will review any submission you may make and determine if a Mitigation Order is required. If the Department finds that the allegation is factual and verifiable, the Department will issue a Mitigation Order requiring that the attached conditions, or other conditions that prove to be necessary after reviewing any information that is submitted, be met in order for the reservoir to maintain an exempt status.

If you receive a Mitigation Order, you may request a Contested Case Hearing to contest the findings of the Department and the allegation of injury. Information on how to request a Contested Case Hearing will be provided with the mitigation order, if issued.

If you have any questions, please call the Water Rights Information Group at (503) 378-3739 extension. 499.

MITIGATION CONDITIONS

File # P- 81639
Date 11-7-97
LKS

Oregon Department of Fish and Wildlife Conditions

- _____ In accordance with ORS 498.268 and ORS 509.605, install, maintain, and operate bypass devices as required by the Oregon Department of Fish and Wildlife that will provide adequate upstream passage for fish. (SMBS)
- _____ Install, maintain, and operate fish screening devices as required by the Oregon Department of Fish and Wildlife to prevent fish from entering the diversion. (SMSS)
- _____ The reservoir owner is required to by-pass flows from _____ through _____. (BPC)

Water Right Related Conditions

- _____ The pond may be filled one time only per year. No diversion of water to storage can occur during times all water rights are not met on the John Day river System. (KR1)
- _____ If required by the Watermaster, the water user shall install and maintain a headgate, an in-line flow meter, weir, or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the headgate and measuring device must be approved by the Watermaster (Department). (KR2)
- ✓ _____ Live stream flow must be passed when required to satisfy existing water rights. In order to substantiate live flow is being passed, measuring devices may be required. (J)
- _____ Live flow must be by-passed all year. (BSD)
- _____ Any secondary use of stored water is limited each year to the capacity of the reservoir. (BSD2)
- _____ The water user shall install and maintain a headgate, an in-line flow meter, weir, or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the headgate and measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

Please attach copy of HB 2153 Certificate.

HB 2376 Notice of Exempt Reservoir Application # P 81839

**Attach additional sheets if necessary.

Please specify which reservoir(s)/ponds(s) the comments pertain to:

Describe by name, number or Township Range Section and 1/4 1/4 if necessary. If comments refer to all reservoir listed please specify. Please provide enough information to accurately describe which reservoir the comment(s) pertains to.

Does the reservoir/pond cause injury to an existing water right? Specify which water right and the evidence which supports that finding. *Please describe for each reservoir listed above. If the water right and the supporting evidence are the same please indicate.* FOR

YES HAVE REGULATED THIS AC - 15526

*****SEE BACK OF PAGE FOR LIST OF CONDITIONS TO MITIGATE INJURY*****

Which of the following conditions are required to mitigate the described injury?

(1)

The water user shall install and maintain a headgate, an in-line flow meter, weir, or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the headgate and measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

(2)

The following provision for a measuring device shall be effective:

- (a) the pump system shall include an access port for measuring the water level;
- (b) the pump system shall include an in-line flow meter or other suitable device for measuring the water to which the user is entitled;
- (c) the type and plans of the measuring device be approved by the Watermaster before the beginning of construction work and that the measuring device be installed under the general supervision of said Watermaster.

(3)

A totalizing flow meter must be installed at each diversion point. The totalizing flow meter must be installed and maintained as identified in OAR 690-507-645.

(4)

A staff gage that measures the entire range and stage between full reservoir level dead pool storage must be installed in the reservoir. The staff gage shall be United States Geological Survey style porcelain enamel iron staff gage style A, C, E or I. Additionally, if the reservoir is located in channel then weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, a gated valve outlet must be installed.

*Please specify whether the installation of the weir(s) will provide no public benefit.

(5)

Live stream flow must be by-passed between When Regulated and _____.

(6)

The period of use has been limited to _____ through _____.

Other (Please specify below)

Oregon Water Resources Department Notice of Exempt Reservoir

For reservoirs built before January 1, 1995, that:

- Store less than 9.2 acre-feet of water, or
- Have a dam less than 10 feet high.

The deadline for submitting a Notice of Exempt Reservoir is January 31, 1997.

One acre-foot is the volume of water that would cover one acre with one foot of water. To find out how much water your pond stores, multiply the surface area by the average depth. This will give you a rough estimate of cubic feet. One acre-foot equals 43,560 cubic feet. You can submit a Notice of Exempt Reservoir if your pond stores less than 400,752 cubic feet (43,560 X 9.2).
