Water Resources Dept.

Water Rights Division

Gentlemen

I wish to explain why I think you are wrong with your mitigation order.

Deep Gulch Creek does not flow into Frog Creek. No water flowing into the pond would flow into Frog Creek. Also Dry Gulch creek dries up early, usually about the End of June or July. I would like to discuss this before a final order is issued.

Sincerely Yours

Clifford Moran

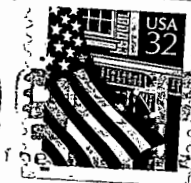

Phone 541-482-0549

P.S.

November 19

I just finished talking to the Water Master in Medford, who suggested that I also let you know that there is an outlet for the pond.
