WATER RIGHTS SECTION

Gentelmen

In reference to your letter of 20 Nov. 97, I again wish to explain my position.

I have water rights to the stream. This stream empties into Babe Cr. aproximately 1/2 mile after it leaves our property.

Where in the letter of Nov. 12 it states that this streem had been controled, I believe that this is wrong. There has been a control on the "live" stream on our property, but not on this stream. This stream does not go into the live stream.

Aproxemately 5 years ago there was a fire on Grizzly Pk. and the Forest Service emptied the Pond, they had no other water available. The pond received no water that year it all came from the year before.

Although this may be irrevelent to the issue, I feel it worth mentioning.

I apreciate your patience and help.

A Map of the area is attached.

Sincerely

Clifford Moran
