record owner of water permit No. 49611, do hereby request that the time in which to:

complete the construction of works and/or purchase and installation of the equipment necessary to the use of water, which time now expires on October 1, 1988, be extended to October 1, 1989 and/or the time in which to

accomplish beneficial use of water to the full extent now intended under the terms of said permit, which time now expires on October 1, 1989, be extended to October 1, 1990.

I have accomplished the following described works and/or purchase and installation of equipment necessary to the use of water under said permit:

- (1) within the past year purchased storage tank and pipe and largely developed Spring 2. (It may be done prior to Oct. 1). However, the access road to the ranch slid out and then the fire season stopped all work, which is why no other work has been done. As above, work is now continuing.
- (2) prior to this past year Spring 4 was developed and is ready for use by cattle. Additional supplies and pipe were bought.
- (3) and have accomplished beneficial use of water to the extent of (IF FOR IRRIGATION, STATE HOW MANY ACRES HAVE BEEN IRRIGATED) None.

Enclosed is the signed application requesting an extension of the time limits on Permit 49496 and a check for \$100.00.
