The assignment from Frances E. Farr to Gary Deniz has been recorded in the records of the Water Resources Department.

The Departments records will now show Gary Deniz as the permit holder of record.

Our records have been changed accordingly and the original requests are enclosed. Receipt number 129961 covering the recording fees is also enclosed.

A permit is not a perfected water right, and has conditions and timelines that must be satisfied prior to a Certificate of Water Right being issued. Please review the permits to be familiar with the conditions and timelines contained in the permits.

Please note that Permit G-12245 required complete application of water to the proposed use by October 1, 1999, and Permit G-15666 required complete application of water to the proposed use by October 1, 2008, and within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE). Applications for Extension of Time were received by the Department on May, 20, 2019, requesting the time to complete construction and application of water, be extended to October 1, 2023. As of this date, the Applications for Extension of Time are pending review.

Sincerely,

Mary F. Bjork
