Appendix A

Developing your water right often entails grading trenching or other types of construction within waterways, riparian areas, and wetlands. Permits from local, state or federal agencies may be required. A good first step is to check with your local city or county planning office. The following information was provided by the Oregon Division of State Lands.

Activities in Wetlands and Waterways are Regulated by:

- The Division of State Lands (DSL) under the State Removal-Fill Law
- The U.S. Army Corps of Engineers (Corps) under the Federal Clean Water Act and Rivers and Harbors Act
- The State Department of Forestry under the Forest Practices Act
- The U.S. Natural Resource Conservation Service (NRCS) under the Food, Agriculture, Conservation and Trade Act
- Some City and County land use ordinances

What Areas are Regulated?

- Rivers streams and most creeks
- Estuaries and tidal marshes
- Lakes and some ponds
- Permanent and seasonal wetlands
- Regulations apply to all lands, public or private
- A wetland does not have to be mapped by the state or otherwise 'designated' to fall under the regulations
- If you are uncertain if there are regulated wetlands on your property, contact DSL for assistance.

What Activities are Regulated?

- Placement of fill material
- Alteration of stream bank or stream course
- Ditching and draining
- Plowing/disking non-farmed wetlands
- Excavation or dredging of material
- In-water construction (may also require a lease from DSL)
- For some activities, joint application forms can be obtained from DSL or the Corps

What Activities are Exempt

- Some routine maintenance activities
- Established, ongoing agricultural activities and grazing
- Some minor projects involving small amounts of fill or removal

How are Laws Enforced?

The best enforcement is to prevent illegal wetland alterations through information and education. However, when violations do occur, a variety of enforcement tools may be used, including restoration orders, fines of up to \$10,000 per day (DSL), civil and/or criminal charges.

Oregon Water Resources Department Alternate Reservoir Application

[Main](#)[Help](#)[Return](#)[Contact Us](#)

For impoundments less than 10 feet in height or storing less than 9.2 acre feet of water.

Today's Date: Thursday, June 27, 2019

Base Application Fee.		\$410.00
Proposed Dam Height in feet.	7	
Proposed Reservoir volume in Acre Feet.	.53	\$35.00
Permit Recording Fee. ***		\$520.00
*** the Permit Recording Fee is not required when the application is submitted but, must be paid before a permit will be issued. It is fully refundable if a permit is not issued. If the recording fee is not paid prior to issuance of the Final Order, permit issuance will be delayed.	Recalculate	
Estimated cost of Permit Application		\$965.00
