

Oregon Water Resources Department

Water Right Services Division

Water Right Application S-88225 in the)
name of MARK M. ROBINSON and) PROPOSED FINAL ORDER
HELEN ROBINSON)

Summary: The Department proposes to issue an order approving Application S-88225 and a permit consistent with the attached draft permit.

Prior to the issuance of a permit, if one is issued, the Department must receive the following:

- Evidence that you have written authorization or an easement permitting access to lands not owned by you.

Please include the application number on any documents submitted.

Authority

The application is being processed in accordance with Oregon Revised Statute (ORS) 537.153 through 537.175, and 390.826, and Oregon Administrative Rule (OAR) Chapter 690, Divisions 5, 33, 300, 310, 400, 410, and Rogue Basin Program OAR 690-515. These statutes and rules can be viewed on the following website: <https://www.oregon.gov/OWRD/programs/policylawandrules/Pages/default.aspx>

The Department's main page is <http://www.oregon.gov/OWRD>.

The Department shall presume that a proposed use will not impair or be detrimental to the public interest if:

- a) The proposed use is allowed in the applicable basin program established pursuant to ORS 536.300 and 536.340 or given a preference under ORS 536.310(12);
- b) Water is available;
- c) The proposed use will not injure other water rights; and
- d) The proposed use complies with the rules of the Commission. ORS 537.153(2); OAR 690-310-0110(1)

All four criteria must be met for a proposed use to be presumed to not impair or be detrimental to the public interest. When the criteria are met and the presumption is established, or if the proposed use can be modified or conditioned to meet the presumption criteria, the Department must further evaluate the proposed use, any comments received, information available in its files or received from other interested agencies and any other available information to determine whether the presumption is overcome. OAR 690-310-0120(3).

If the Department determines that the presumption is established and not overcome, the Department shall issue a proposed final order recommending issuance of the permit subject to any appropriate modifications or conditions.

FINDINGS OF FACT

Application History

1. On May 9, 2016, Mark M. Robinson and Helen Robinson filed a complete application for the following water use:

Source	ROGUE RIVER, A TRIBUTARY OF PACIFIC OCEAN; AND LOST CREEK RESERVOIR, CONSTRUCTED UNDER PERMITS R-8141 AND R-8142, TRIBUTARY TO ROGUE RIVER
Rate and Use	0.005 CUBIC FOOT PER SECOND (CFS) FOR DOMESTIC USE AND 4.5 ACRE-FEET (AF) FOR IRRIGATION OF 1.0 ACRE
County	JOSEPHINE COUNTY
Place of Use	SECTION 2, TOWNSHIP 36 SOUTH, RANGE 7 WEST W.M.

2. On May 27, 2016, the Department mailed the applicant notice of its Initial Review, determining that **“The diversion of 4.5 AF of water from Lost Creek Reservoir, constructed under Permits R-8141 and R-8142, a tributary of Rogue River, for irrigation of 1.0 acre is allowable during the full period requested, April 1 through October 31 of each year, contingent upon the Department receiving a valid and executed contract from the Bureau of Reclamation,”** and **“The diversion of 0.005 CFS of water from Rogue River, a tributary of Pacific Ocean, for year-round domestic use for one household is not allowable, and it appears unlikely that you will not be issued a permit for this use. However, by providing additional information you may request a limited permit for human consumption use (indoor use only: cooking, drinking, sanitation) at 0.005 CFS, further limited to 500 gallons per day.”** The applicant did not notify the Department to stop processing the application within 14 days of that date.
3. On May 31, 2016, the Department gave public notice of the application in its weekly notice. The public notice included a request for comments, and information for interested persons about obtaining future notices and a copy of the Proposed Final Order.
4. On June 6, 2016, the Department received a contract from the U.S. Bureau of Reclamation authorizing up to 4.5 AF of stored water from the Rogue River Basin Project (Lost Creek Reservoir) for irrigation of 1.0 acre.
5. On November 14, 2016, the Department received a Stop Processing Request from the applicant to withdraw Application S-88225, which was withdrawn via Special Order Volume 103, Page 556, on December 15, 2016.
6. On January 3, 2017, the applicant submitted an Application Supplement for Human Consumption & Livestock Uses form.
7. On January 6, 2017, the Department received a request to reinstate Application S-88225, which was reinstated on January 24, 2017, via Special Order Volume 103, Page 726.

Presumption Criteria (a) Consistency with Basin Program

8. The proposed uses are allowed under the Rogue Basin Program (OAR 690-515-0040). ORS 537.153(2); OAR 690-310-0110(1)(a)

Presumption Criteria (b) Water Availability

9. An assessment of live flow water availability at 80% exceedance for the proposed use was completed using the Department's Water Availability Reporting System (WARS). A copy of this assessment is in the application file. This review is done consistent with OAR 690-410-0070(2)(a). The assessment established that **live flow surface water is not available during any time of the year**. ORS 537.153(2); OAR 690-310-0110(1)(b)
10. Stored water from Lost Creek Reservoir is available during the full season requested, being April 1 through October 31 of each year.

Presumption Criteria (c) Injury Determination

11. The proposed use will not injure other water rights. ORS 537.153(2); OAR 690-310-0110(1)(c)

Presumption Criteria (d) Whether the Use Complies with Rules of the Commission

12. Documentation has been submitted from the relevant land-use planning jurisdiction that indicates the proposed use is allowed outright. ORS 537.153(2); OAR 690-310-0110(2)(d)
13. The proposed use is in an area of the state in which OAR 690-033-0310 thru -0340 applies. These rules establish definitions, additional procedures, and standards to aid the Department in determining whether a proposed use will impair or be detrimental to the public interest with regard to sensitive, threatened, or endangered fish species.

ORS 690-033-0310 Statewide Rules

- A. The proposed use occurs occur in an area that may affect the habitat of sensitive, threatened or endangered fish species. OAR 690-033-0310(1)
 - B. The applicant has been notified that based on a preliminary determination, the proposed use may affect the habitat of sensitive, threatened or endangered fish species and the application may be conditioned or denied. OAR 690-033-0310(1)(a)
 - C. The interagency review team has been notified that an application has been received in an area that may affect the habitat of sensitive, threatened or endangered fish species. OAR 690-033-0310(1)(b)
 - D. The interagency review team was convened to review the application and recommended conditions as necessary to achieve the standards listed in 690-033-0330(2)(a) and (b). The draft permit has been conditioned accordingly.
14. Based on the review of the presumption criteria (a)-(d) above, the presumption has been established for use of stored water from Lost Creek Reservoir, constructed under Permits R-8141 and R-8142, tributary to Rogue River, for irrigation. ORS 537.153(2); OAR 690-310-0110(1)(a)-(d)
 15. The presumption has **not** been established for diversion of live flow surface water from the Rogue River for human consumption use. ORS 537.153(2); OAR 690-310-0110(1)(a)-(d)
 16. OAR 690-310-0120(2)(b) states that when the presumption is not established, the Department shall determine whether the proposed use will impair or be detrimental to the public interest considering the factors in ORS 537.170(8), and may make specific findings to demonstrate that even though the

presumption is not established, the proposed use will not impair or be detrimental to the public interest, and propose approval of the application with appropriate modifications or conditions.

690-310-0260 Public Interest Findings

17. The proposed use is located above the Rogue Scenic Waterway, as designated under ORS 390.826.
18. The proposed diversion and use of water does not significantly impair the free-flowing character of these waters in quantities necessary for recreation, fish and wildlife.
19. The proposed diversion and use of water is consistent with the provisions of ORS Chapters 536 and 537 and OAR 690.
20. Construction, operation and maintenance of the diversion system will be carried out in a manner consistent with the purposes set forth in ORS 390.805 to 390.925.
21. Water rights for human consumption use shall not exceed 0.005 cubic feet per second per household. OAR 690-310-0260(2)(d)
22. After considering alternative water sources, including groundwater, stored water, purchased trucked water, community and municipal suppliers, and transfers of existing water rights, the applicant provided documentation that there are no reasonable alternative sources of water.
23. Denial of the application will result in loss of reasonable expectations for use of the property.

Other Criteria and Requirements

24. Pursuant to the provisions of ORS 390.835 and OAR 690-310-0260, the Director is authorized to issue water rights for human consumption use within or above a designated reach of a scenic waterway when flows are less than quantities necessary for recreation, fish, and wildlife. OAR 690-310-0260
25. The amounts requested, 0.005 CFS and 4.5 AF, are necessary for the proposed uses.
26. The applicant proposed to apply water when needed and use the most efficient method of water application for the crop being irrigated. These measures are adequate at this time. OAR 690-310-0150(2)(j)

Further Evaluation of the Proposed Use

27. Pursuant to ORS 537.170(8), the Department has considered the following factors:
 - A. The maximum economic development of the waters involved: The applicant has demonstrated that denial of this application would result in loss of reasonable expectations for use of the property. OAR 690-310-0260(4)(c)
 - B. The control of the waters of this state for all beneficial purposes, including drainage, sanitation and flood control: Human consumption use includes uses of water for sanitation (OAR 690-300-0010(24)). Because the applicant has no other reasonable source of water to provide sanitation to their home, human consumption use is necessary to provide the beneficial use of sanitation to the applicant.

- C. The amount of waters available for appropriation for beneficial use: Water is not available for the proposed use during the full period requested.
- D. The prevention of wasteful, uneconomic, impracticable or unreasonable use of the waters involved: The use will be conditioned to require reasonable use of the water and measurement, recording, and reporting conditions as required under ORS 390.835(6)(d)(C).
- E. All vested and inchoate rights to the waters of this state or to the use of waters of this state, and the means necessary to protect such rights: Issuance of this right may increase the likelihood that water may not be available for all water rights.
- F. The state water resources policy formulated under ORS 536.295 to 536.350 and 537.505 to 537.534: ORS 536.310(3) provides that "adequate and safe supplies be preserved and protected for human consumption use, while conserving maximum supplies for other beneficial uses." Because the proposed use is human consumption there is a preference for this use over all other uses.
28. No comments were received by the close of the comment period. OAR 690-310-0120(3).
29. Information available in department files, received from other interested agencies, and other available information does not provide a preponderance of evidence that the proposed use would impair or be detrimental to the public interest under ORS 537.153. OAR 690-310-0120(3)
30. The Department has determined that the proposed use from live flow will not impair or be detrimental to the public interest considering the factors in ORS 537.170(8), and even though the presumption is not established, the proposed use will not impair or be detrimental to the public interest.

CONCLUSION OF LAW

1. The proposed use would not impair or be detrimental to the public interest.

NOTE: When issuing permits, ORS 537.170(6) authorizes the Department to include provisions or restrictions concerning the use, control and management of water to be appropriated for the project. The attached draft permit is conditioned accordingly.

PROPOSED ORDER

The Department recommends approval of Application S-88225 and issuance of a permit consistent with the attached draft permit.

DATED July 16, 2019

Alyssa Mucken
Water Rights Section Manager, for
Thomas M. Byler, Director
Oregon Water Resources Department

Protests

Under the provisions of ORS 537.153(7) (for surface water) or ORS 537.621(8) (for groundwater), you can protest this Proposed Final Order. Protests must be received in the Water Resources Department no later than **August 30, 2019**. Protests must be in writing, and must include the following:

- Your name, address, and telephone number;
- A description of your interest in the Proposed Final Order, and, if you claim to represent the public interest, a precise statement of the public interest represented;
- A detailed description of how the action proposed in the Proposed Final Order would impair or be detrimental to your interest;
- A detailed description of how the Proposed Final Order is in error or deficient, and how to correct the alleged error or deficiency;
- Any citation of legal authority to support your protest, if known;
- To affect the department's determination that the proposed use in this application will, or will not, impair or be detrimental to the public interest ORS 537.153(6) requires that a protest demonstrate, by a preponderance of evidence any of the following: (a) One or more of the criteria for establishing the presumption are, or are not, satisfied; or (b) The specific aspect of the public welfare, safety and health under ORS 537.170(8) that would be impaired or detrimentally affected, and specifically how the identified aspect of the public welfare, safety and health under ORS 537.170 (8) would be impaired or be adversely affected;
- If you are the applicant, the protest fee of \$410 required by ORS 536.050; and
- If you are not the applicant, the protest fee of \$810 required by ORS 536.050 and proof of service of the protest upon the applicant.
- If you are the applicant, a statement of whether or not you are requesting a contested case hearing.

Requests for Standing

Under the provisions of ORS 537.153(7) (for surface water) or ORS 537.621(8) (for groundwater), persons other than the applicant who support a Proposed Final Order can request standing for purposes of participating in any contested case proceeding on the Proposed Final Order or for judicial review of a Final Order.

Requests for standing must be received in the Water Resources Department no later than **August 30, 2019**. Requests for standing must be in writing, and must include the following:

- The requester's name, mailing address and telephone number;
- If the requester is representing a group, association or other organization, the name, address and telephone number of the represented group;
- A statement that the requester supports the Proposed Final Order as issued;
- A detailed statement of how the requester would be harmed if the Proposed Final Order is modified; and
- A standing fee of \$230. If a hearing is scheduled, an additional fee of \$580 must be submitted along with a petition for party status.

DRAFT

This is not a permit.

DRAFT

STATE OF OREGON

COUNTY OF JOSEPHINE

DRAFT PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS DRAFT PERMIT IS HEREBY ISSUED TO

MARK M. ROBINSON
HELEN ROBINSON
656 HARDELL LANE
VISTA CA 92084

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: S-88225

MAXIMUM VOLUME/RATE, USE, AND SOURCE OF WATER :

0.005 CUBIC FOOT PER SECOND FOR HUMAN CONSUMPTION USE (COOKING, DRINKING, AND SANITATION) FOR ONE HOUSEHOLD, FURTHER LIMITED TO 500 GALLONS PER DAY, FROM THE ROGUE RIVER, TRIBUTARY OF PACIFIC OCEAN

4.5 ACRE-FEET FOR IRRIGATION OF 1.0 ACRE FROM LOST CREEK RESERVOIR, CONSTRUCTED UNDER PERMITS R-8141 AND R-8142, TRIBUTARY TO ROGUE RIVER

PERIOD OF USE: HUMAN CONSUMPTION USE – JANUARY 1 THROUGH DECEMBER 31
IRRIGATION - APRIL 1 THROUGH OCTOBER 31

DATE OF PRIORITY: MAY 9, 2016

POINT OF DIVERSION AND RE-DIVERSION:

POD Name	Twp	Rng	Mer	Sec	Q-Q	Measured Distances
POD 1	36 S	7 W	WM	2	NW SE	925 FEET SOUTH AND 1510 FEET WEST FROM E1/4 CORNER, SECTION 2
POD 2	36 S	7 W	WM	2	NW SE	945 FEET SOUTH AND 1490 FEET WEST FROM E1/4 CORNER, SECTION 2

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second and 4.5 acre-feet for each acre irrigated during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
36 S	7 W	WM	2	SE NE	1.0

HUMAN CONSUMPTION USE					
Twp	Rng	Mer	Sec	Q-Q	
36 S	7 W	WM	2	SE NE	

1. Water Use Measurement, Recording, and Reporting Condition:

- A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter at each point of diversion and re-diversion. The permittee shall maintain the device in good working order.
 - B. The permittee shall allow the watermaster access to the device; provided however, where any device is located within a private structure, the watermaster shall request access upon reasonable notice.
 - C. The permittee shall keep a complete record of the volume of water diverted each month, and shall submit a report which includes water-use measurements to the Department annually, or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water-use information, including the place and nature of use of water under the permit.
 - D. The Director may provide an opportunity for the permittee to submit alternative measuring and reporting procedures for review and approval.
2. The use of water under this right is subject to the terms and conditions of contract No. 169E101896, or a satisfactory replacement, between the U.S. Bureau of Reclamation and the permittee, a copy of which is on file in the records of the Water Resources Department.
 3. The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW prior to diversion of any water. The permittee may submit evidence in writing that ODFW has determined screens and/or by-pass devices are not necessary.
 4. If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR 635-415, shall be followed.
 5. The use may be restricted if the quality of the source stream or downstream waters decreases to the point that those waters no longer meet state or federal water quality standards due to reduced flows.

STANDARD CONDITIONS

1. Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.
2. Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.
3. This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
4. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.
5. The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.
6. Construction of the water system shall begin within five years of the date of permit issuance. The deadline to begin construction may not be extended. This permit is subject to cancellation proceedings if the begin construction deadline is missed.
7. Complete application of the water shall be made within five years of the date of permit issuance. If beneficial use of permitted water has not been made before this date, the permittee may submit an application for extension of time, which may be approved based upon the merit of the application.
8. Within one year after making beneficial use of water, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner.
