Grants Pass, Oregon

Dear Sir and Madam:

Enclosed is the assignment of permit numbers A-3263 and 28014 from W. G. Katzenbach to you. This has been recorded in the Miscellaneous Records of the State Engineer, Volume 4, page 841, and our records have been changed accordingly.

Also enclosed is our receipt No. 889 covering the recording fee of \$1.00.

Very truly yours,

CHRIS L. TREEMER
State Engineer

Grants Pass, Oregon

Dear Sir:

This will acknowledge receipt of your letter dated September 2, 1966, in connection with permit numbers R-3263 and 28814.

The date for completion of construction work for these permits was extended to October 1, in 1966. Also the date for complete application of water is October 1, 1966.

You can make application with the State Engineer to extend the time for completion of the project and the State Engineer is permitted by law to extend this time limit only upon a showing of due diligence by the permittee. The application for extension of time must be carefully and completely executed so that this office may determine from your sworn statement whether due diligence has been shown. I am enclosing an application for your use.

If you wish to file for an extension of time, the application must be executed before a Notary Public and submitted to this office with the statutory filing fee in the amount of \$2. for each permit.

If you are the legal owner of the property involved in connection with these permits, you should obtain an assignment of the permits from W. G. Katzenbach.

I am also enclosing an assignment form with the proper application and permit numbers entered for your use.

Very truly yours,

CHES L. WHEELER
State Engineer

Harold P. & Virginia M. Sanders
1021 Missouri Flats Road
Grants Pass, Oregon

Dear Mr. & Mrs. Sanders:

Your application for extension of the time limits lists permits No. R-3263 and 28814, but there is no reference to the extent of construction of the reservoir described in permit No. R-3263. If the construction of the reservoir was completed by October 1, 1966, and water stored to its capacity by that date, then notice of completion of construction under permit R-3263 could be filed. If it is not complete, then application for extension of the time limit should be submitted and this application should describe what has been done on the reservoir. Each permit requires a fee of \$2 for extension of time.

If the extension is necessary for the reservoir permit No. R-3263, the simplest thing would be to complete the enclosed form and submit it with a fee of \$2, and we will act on the application already submitted only in reference to the secondary permit No. 28814.

Our receipt No. 888 covering the fee of \$2 is enclosed.

Very truly yours,

CHRIS L. FRESLER
State Engineer

Williams, Oregon

Dear Mr. Katzenbach:

This will acknowledge receipt of your notice of complete application of water in regards to permits numbered 28814 and R-3263.

I don't understand your notice, because on October 25, 1965, you requested and were granted an extension of time for completion of construction work. This time limit was extended to October 1, 1966, which is also the date for complete application of water. Your notice of complete application of water indicated this date to be April 1, 1963. We will regard this notice as filed prematurely.

Completion of construction work would require that the reservoir be completed and storing full capacity of water, also that you have all the necessary facilities and equipment to irrigate the intended acreage under your permit.

Complete application of water would require at least one beneficial irrigation of all of the lands that you intend to irrigate under your permit.

Enclosed are Forms B and C which should be filled out and submitted to this office when this work has been completed.

Very truly yours,

CHRIS L. JEBELER
State Engineer

Williams, Oregon

Dear Mr. Katzenbach:

This will acknowledge your application for an extension of the time limits in which to complete construction under the terms of your permits numbered R-3263 and 28814, and your check in the amount of \$4 for which our receipt No. 7296 is enclosed.

The application indicates reasonable diligence has been exercised toward completion of the proposed projects, therefore, the time limits for completion of construction are being extended to October 1, 1966.

Very truly yours,

CHRIS L. WHEELER
State Engineer
