REFERENCE: File Number G-9924

Dear Mr. and Mrs. White:

Your application for an extension of the time limits in which to complete construction and make complete application of water under the terms of your Permit Number G-9132 was received. We also have your check in the amount of \$100.

The Water Resources Director is authorized to allow an extension of the time limits only upon a showing by the holder of the permit that reasonable diligence has been exercised toward completion of the project within the time limits allowed.

From the information given in your application, it is questionable whether sufficient diligence has been shown to justify the requested extension. However, you are being given the benefit of the doubt and the time limits to COMPLETE CONSTRUCTION AND MAKE COMPLETE APPLICATION OF WATER are being extended to October 1, 1984, to allow you the opportunity to complete the appropriation.

Sincerely,

Bruce A. Estes, Supervisor
Survey/Certificate Section

WATER RESOURCES DEPT.
SALEM, OREGON

Dear Mr. Estes,

I'm sorry our response to your letter is so late.

We have proceeded with reasonable diligence to complete our irrigation project. However, we find the times not to be so reasonable and survival in the cattle business has forced accommodations.

Our livestock operation is still totally funded through PCA and additional funds to complete irrigation are not available.

We have proceeded toward our goal as wisely as possible. The water supplied by this well is still absolutely necessary to ~~us~~ our future in this business.

The well is the sole source of water for this property. It waters the livestock, all of which must winter here. It irrigates 7 acres.

Our non-farm income is from a livestock supply business and is experiencing all the hardships of the agricultural community.

I hope that you can be satisfied that we are managing our circumstances in the best way possible to meet our goal.

Sincerely,

Virginia R. White

Gold Hill, OR 97525

REFERENCE: File Number G-9924

According to the terms of your Permit Number G-9132 which was for 0.375 cubic foot per second of water from one well for irrigation purposes in Jackson County.

complete application of water was to have been made by October 1, 1984

Complete application of water means the application of water to a beneficial use under the permit to the full extent intended. In the case of irrigation, it means beneficial irrigation of all the lands the permittee intends to cover under the terms of the permit. If the water has been used, you should promptly submit notice describing the extent of completion as set forth in the letter accompanying your permit and also in our postal card of October 19, 1984.

ORS 537.260 provides that: "Whenever the time within which any appropriation under a permit should have been perfected has expired and the owner of the permit fails or refuses within three months thereafter to submit to the Water Resources Director proof of completion of the appropriation as required by ORS 537.230 and 537.250, the Water Resources Director may, after 60 days notice by registered mail, order the cancellation of the permit..."

In accordance with the provisions of ORS 537.260, you are hereby notified that unless proof of beneficial use is received within 60 days from the date of this letter, the permit(s) may be canceled without further notice.

If for any reason, you are no longer interested in the project described by the permit, we would appreciate it if you would so advise. If the property involved has changed hands and any part of the project has been completed, you should immediately assign the permit to the new owner and advise us of his name and address. An assignment form will be furnished upon request.

Sincerely,

Bruce A. Estes, Supervisor
Survey/Certificate Section
