Dear Sir:

This acknowledges receipt of Form C, being a notice of the complete application of water under Permit No. 13694.

The matter of issuance of the certificate under this permit will be given consideration as soon as a representative from this office can make an inspection of the project covered by the permit, which probably will not be until next season, for the purpose of checking the irrigated acreage, location, etc., preparatory to final proof, which proof can cover only the acreage which has actually been irrigated. In the meantime, the permit which you hold will be valid and sufficient evidence of the water right.

Very truly yours,

CHAS. E. STRICKLIN  
State Engineer
