Dear Sir:

The plans and specifications for the Berry Creek Dam have been reviewed and approved, and permits issued. Copies of the approved plans and specifications have been forwarded to the applicant. Because this structure exceeds the size limits for exempt structures, construction must be supervised by an engineer licensed to practice in Oregon, or by a qualified representative of the federal government. Because your office prepared the plans and specifications, I will assume that you will provide the required supervision and inspection. If this is incorrect, please advise me immediately.

Any deviations from the approved plans and specifications will require prior approval from this office. In the event that any deviations become necessary during construction due to unforeseen circumstances, engineers are available from this office to work with you, and are authorized to grant immediate approval in the field.

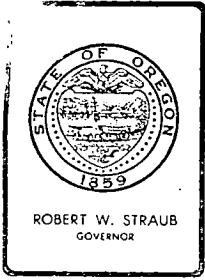

Please advise this office when construction starts so that we may schedule periodic field inspections.

Sincerely,

GARY OBERHOLTZER
Engineer

Dear Ken:

The plans and specifications for the Berry Creek Dam, including Addendums No. 1, 2, and 3 to the contract documents, have been reviewed and approved.

The applications for water right are being processed by our permits division. You will be advised when the permits have been issued. Approved copies of the plans and specifications will be forwarded to you at that time.

Sincerely,

GARY OBERHOLTZER
Engineer

Mr. Larry Jebousek
Water Rights Division
State Water Resources Department
Mill Creek Office Park
555 - 13th Street, NE
Salem, Oregon 97310

Dear Larry:

Enclosed is an application to appropriate surface water for augmentation of flow in Olalla Creek, Lookingglass Creek, and the South Umpqua River. I am also enclosing a check for \$35 to cover your Department's fee for filing and review of the application.

It is my understanding Douglas County desires the enclosed application and their application to store water in Berry Creek Reservoir for municipal, industrial and flow augmentation to have the same priority date. Please ensure this if you are so instructed by Douglas County.

Sincerely,

LOU FREDD
Fish and Wildlife Biologist
