Mrs. Fay Pratt Linn,
Glendale,
Oregon.

Dear Madam:

This will acknowledge receipt of the proof of appropriation of water in connection with Permit No. 6333 together with the \$1.00 paid as the certificate recording fee.

The proof appears to be in proper form and will soon be taken up for the issuance of a water right certificate.

• Yours very truly,

Rhea Luper,
State Engineer.

Dear Madam:

I note from the records of this office that you have not submitted final proof under your Permit No. 6333, which covers the appropriation of 0.03 second foot of water from Blue Creek for the irrigation of 3 acres, although the time for the completion of this water right expired October 1, 1927.

Our records show that final proof blanks were forwarded you for execution under this Permit on July 19, 1927, but up to the present time final proof has not been received at this office. In view of the fact that final proof has not been submitted, we presume the water right has been abandoned, and if so, we would be glad to have you authorize the cancellation of the permit in order to clear our records.

However, you are advised that unless hearing from you within sixty days from the date of this letter, the permit will be canceled in accordance with the provisions of Section 5774, Oregon Laws, which provides for the cancellation of the permits when the holders thereof fail or refuse to complete their water rights within three months after the same should have been completed.

We would be glad to forward a new proof blank for execution upon request.

Yours very truly,

Mrs. Fay Pratt Linn,
Glendale,
Oregon.

Dear Madam:

I am in receipt of your letter of recent date, making application for an extension of time under your Permit No. 6333.

This matter has been given careful consideration, and you will be allowed until June 1, 1927, within which to complete construction work under the above permit.

Yours very truly,

H.

Rhea Luper,
State Engineer.

June 28, 1926.

Mrs. Fay Pratt Linn asks for an extension of one year's time to install a pipe of 1200 feet under their Permit No. 6333, Application No. 9574. A shortage of funds is the reason for not having it installed this year, but in 1927 in all reasonable probability it can be installed.

This is addressed to

Rhea Luper, State Engineer
