

STATE OF OREGON
COUNTY OF JOSEPHINE
CERTIFICATE OF WATER RIGHT

This Is to Certify, That CLARION & THELMA CUSHMAN

92640

of 12701 Stratmore Drive, Garden Grove, State of California, has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of Wolf Creek

a tributary of Grave Creek
Fish pond

for the purpose of

under Permit No. 16838 of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from March 8, 1946

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 1.0 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 8, T. 33 S., R. 5 W., W. M., 620 feet South and 1360 feet West from NE Corner, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 8.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ----- of one cubic foot per second per acre,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

SW $\frac{1}{4}$ SE $\frac{1}{4}$
SE $\frac{1}{4}$ SE $\frac{1}{4}$
Section 8
T. 33 S., R. 5 W., W. M.

NU = 0.15 cfs/acre

This certificate is issued to confirm a change in point of diversion approved by an order of the State Engineer entered January 8, 1973, and supersedes certificate of water right heretofore issued to Henry Speaker and recorded at page 15353, Volume 13, State Record of Water Right Certificates.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

WITNESS the signature of the State Engineer, affixed

NOTICE TO SELLERS & BUYERS:

By law, all water belongs to the public [ORS 537.110]. In almost every instance, a Permit OR Water Right Certificate from the **Water Resources Department** is needed before using, diverting; or storing water [ORS 537-130]. However, most domestic wells do not require water rights. A water right stays with the land. In order to keep track of water right ownership, ORS 537.330 requires persons selling property that has a Water Right Certificate to: 1) provide evidence of the Water Right Certificate to the buyer and 2) notify the Water Resources Department of the Water Right Certificate involved with the real estate transaction. Sellers are exempted from this requirement if the water uses are served by a water district or a city.

Water that has been used for a long time in one place or that involves a water structure (like a dam) that already exists is no guarantee that there is a water right which would allow the water use to continue.

If you have any questions about this form or water right requirements, please contact your local watermaster or call the **Water Resources Department** at 503-986-0900.

MEMORANDUM OF INSPECTION

Speaker Reservoir

On Tuesday, June 14, 1966, I accompanied Al Petska and Bob Steimer on an inspection of Mr. Henry Speaker's fish pond on Wolf Creek. Mr. Petska suggested that some of the areas where the dam had eroded or sloughed and some places where the dam was narrow should be reinforced with rock on the downstream face. He further suggested that the brush and trees be removed from the downstream face and that Mr. Speaker be ^{so} advised in the near future.

David B. Hall
Engineer

DBH:jb

June 17, 1966

Mr. Henry Speaker
Wolf Creek,
Oregon

Dear Mr. Speaker:

An inspection on June 14, 1966 of your fish pond on Wolf Creek revealed some conditions that should be remedied in order to keep the safety of your structure at a maximum.

The downstream face of the dam should be cleared of brush and trees as they have a detrimental effect on the safety of the structure. The areas where the dam is narrow, where erosion has taken place from the action of the creek, and where there has been sloughing of the fill should be reinforced with rock. It would probably be well for you to employ the services of a registered engineer and follow his advice.

Your water right as evidenced by State Engineer's certificate number 15353 calls for one second foot to be diverted from Wolf Creek for use in a fish pond. It would probably be a wise thing for you to augment this diversion right with a right for the storage of the water that you now have. This will give you protection in the future as the public waters of the state become in greater and greater demand.

Mr. Steimer, Watermaster in Grants Pass, would be very happy to help you with this additional filing.

Very truly yours,

CHRIS L. WHEELER
State Engineer

STATE OF OREGON

INTEROFFICE MEMO

TO: CHRIS L. WHEELER
State Engineer

DATE: May 18, 1966

FROM: DAVID B. HALL
Engineer

SUBJECT: Application No. 21466, Certificate No. 15353

At the request of Mr. Steimer, Watermaster, District 14, I made an inspection of the fish pond covered under the above application and certificate.

The pond is built off channel and is filled by a ditch. The dam is a long structure around the west and south sides of the pond and is to impound between 35 and 40 acre feet. The use is a fish pond as shown on the applicants' certificate.

The dam has sloughed in one place and has been scoured seriously by wave action. The crest width varies down to as little as three feet, but averages eight or nine feet. The south portion of the structure confines the Wolf Creek in a narrow channel and shows considerable signs of erosion. The spillway is over the dam crest near the right abutement. The downstream section of the spillway is constructed of planks.

The reservoir is not covered by a storage permit.

David B. Hall

June 7, 1966

I again inspected this structure and attempted to find Mr. Henry Speaker, the owner. Dam is leaking at the point where it turns away from Wolf Cr (on the S.W. corner) about 1 cfs.

NOV 19 1947
STATE ENGINEER
SALEM, OREGON

STATE OF OREGON
COUNTY OF JOSEPHINE

ABSTRACT OF CERTIFICATE OF WATER RIGHT NO. 15353

Henry Speaker of Wolf Creek
State of Oregon, has made proof to the satisfaction of
the State Engineer of Oregon, of a right to the use of the waters of
Wolf Creek
a tributary of Grave Creek, for the purpose of
fish pond
under Permit No. 16838 of the State Engineer, and that said right to the use
of said waters has been perfected in accordance with the laws of Oregon;
that the priority of the right hereby confirmed dates from March 8, 1946

that the amount of water to which such right is entitled and hereby con-
firmed, for the purposes aforesaid, is limited to an amount actually bene-
ficially used for said purposes, and shall not exceed 1.0 cubic foot per
second

or its equivalent in case of rotation.

The point of diversion is located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 8, Twp. 33 S., R. 5 W.,
W. M.

The amount of water used for irrigation, together with the amount
secured under any other right existing for the same lands shall be limited
to of one cubic foot per second per acre,

and shall conform to such reasonable rotation system as may be ordered by
the proper state officer.

A description of the place of use under the right hereby confirmed,
and to which such right is appurtenant, is as follows:

fish pond in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 8, Township 33 South, Range 5 West, W. M.
" " " " SE $\frac{1}{4}$ SE $\frac{1}{4}$ " " " " " " " " " " " "

The right to the use of water for the purposes aforesaid is
restricted to the lands or place of use herein described.

REPORT OF PERSON MAKING INSPECTION

(For use by Representative of State Engineer)

I, Tom R. Pearce, do hereby certify that I have made an inspection of the works described herein and in Permit No. 16383, on the 24th day of May, 1947, and found the foregoing statements and descriptions of works to be accurate. In my opinion the appropriation has been completed to the extent of 1.0 c.f.s. and I recommend the issuance of water right certificate for this amount.

(Quantity of water in second-feet or acre-feet)

NOTICE TO INSPECTORS

If conditions do not justify the above report by you, please return the proof without your signature, with a full report by letter.
