Reference: Application G-18482, Permit G-17939

The assignment from Nikon Cam and Luba Cam to Rogue 7 LLC has been recorded in the records of the Water Resources Department.

The Departments records will now show Rogue 7 LLC as the permit holder of record.

Our records have been changed accordingly and the original request is enclosed. Receipt number 131320 covering the recording fees is also enclosed.

A permit is not a perfected water right, and has conditions and timelines that must be satisfied prior to a Certificate of Water Right being issued. Please review the permits to be familiar with the conditions and timelines contained in the permits.

Please note that the Department has not received Pump Tests as required by the permits. For Permit G-13370, until such time that a Pump Test is submitted and approved, the Department is unable to complete the review of your Claim.

Please note that Permit G-17939 requires complete application of water to the proposed use by January 24, 2023, and within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Sincerely,

Mary F. Bjork
