Dear Mr. Williams:

REFERENCE: Files 68382 and 59262

This is to acknowledge your amended Application 68382 along with the print of one of your original maps and three prints of the new map to support your application.

Your application now describes the proposed use of water from the South Fork of the Coquille River for the irrigation of 0.71 acres. You have further indicated on the application that a separate 0.09 acre is to be irrigated from the spring.

Your application is now in satisfactory form and will be placed with the group to be considered for approval.

Sincerely,

WAYNE J. OVERCASH
Senior Water Rights Examiner

Dear Mr. Williams:

REFERENCE: File 68382

Your Application 68382 describing the proposed use of 0.0125 cubic foot of water per second per acre for lawn and garden irrigation on 0.8 acre, together with the three prints of a map and deed copy, have been reviewed.

It will be necessary for you to advise us of how you intend to utilize water under the terms of a permit approving your new Application 68382 with relationship to the use of water allowed under your earlier Permit 44499 which provided for the use of 0.01 cfs from a mountain spring for domestic use for the one family including the irrigation of a lawn and non-commercial garden not exceeding one-half acre in area. If you intend to retain the right to the use of water from the mountain spring as the primary source for the irrigation of part of the acreage and utilize water from the river to make up for any deficiency in supply, it will be necessary for you to amend Item 5 to list the use as irrigation and supplemental irrigation and further complete Item 3 by stating the acreage to receive the supplemental supply of water and the acreage to receive the primary supply of water from the river. Your supporting map will also need to be further completed to illustrate in different manners the acreage to receive the supplemental supply and acreage to receive the primary supply.

So that you may review your application, I am returning it to you along with the map for completion. The application is endorsed so that in order to retain its priority date it must be received in this office on or before September 3, 1985.

Sincerely,

WAYNE J. OVERCASH
Senior Water Rights Examiner

REFERENCE: File 68382

We have received your application for use of water for lawn and garden irrigation along with the supporting data and fees. Our Receipt 46462 is enclosed. Your application has been filed and assigned number 68382.

Applications which are received in proper form for a permit, including maps, supporting data and fees, will be considered for approval shortly after the mandatory 30-day waiting period. Applications which are defective, conflict with existing rights or require additional information will be reviewed in detail and will be returned for completion or correction within 45 days.

If your application is approved, the project described in the application will be subject to the Water Policy Review Board's Basin Program statements, existing minimum flows and demands of prior rights during periods of low water.

Sincerely,

RALPH H. JACKSON, Supervisor
Application/Permit Section
