With regard to the Water Right Ownership Update and the associated water rights:

<u>Application #</u>	<u>Permit #</u>	<u>Certificate #</u>
S - 23336	S - 18444	21272

The Water Resources Department has reviewed and accepted the Water Right Ownership letter/form you submitted. A copy of this confirmation letter has been placed in the corresponding application, permit, certificate file in the Water Rights section of our department, along with a copy of the Water Right Ownership letter/form you submitted.

I have enclosed a copy of the certificated water right as it appears in our electronic data base. Since this right has gone to certificate, the person who was owner of record at the time the permit went to certificate is reflected as the owner. This should not concern you, since the paper file where all documentation pertaining to this right reflects you as the current owners. Please keep these documents with others that pertain to your property for future reference.

I am only providing you (not your siblings) with this acknowledgement, and am apprising you, that you will be the person contacted if circumstances arise that require the department to do so for some reason.

We appreciate your cooperation with this program. If you have any questions, please contact me at (503) 378-8455 ext.289. The Department's toll free number is 1-800-624-3199.

Sincerely,

R. Craig Kohanek
Technical Services Division

Oregon Water Resources Department
Water Right Ownership Form

WATER RESOURCES DEPT.
SALEM, OREGON

NOTICE TO SELLERS & BUYERS

By law all water belongs to the public [ORS 537.110]. In almost every instance, a permit from the Water Resources Department is needed before using, diverting, or storing any water [ORS 537.130]. However, most domestic wells do not require water rights. A water right stays with the land. In order to keep track of water right ownership, ORS 537.330 requires persons selling property that has a water right to: 1) provide evidence of the water right to the buyer and 2) notify the Water Resources Department of the water right involved with the real estate transaction. Sellers are exempted from this requirement if the water uses are served by a water district or a city.

Water that has been used for a long time in one place or that involves a water structure (like a dam) that already exists is no guarantee that there is a water right which would allow the water use to continue.

If you have any question about this form or water right requirements, please contact your local watermaster or call the Water Resources Department at 378-8455.

Note: Please type or print legibly when filling in the following information. Use additional paper if necessary.

Property Seller Information:

Dear Salem,

My brother & sister & I own this property all equally with my mother Jean Cole.

She is getting older and it dawns on me that she is the only one named on the water rights. (at least I think so).

So I just want to update the files letting you know all of us want to be listed as owning the water rights.

Can we do that?

I think I submitted the rights form.

Get me know if you need something else.

Diane Cole
