Permit No.

Dear Mr. and Mrs. Williams:

We have received your application for a permit to use 0.01 cubic foot of water per second from a mountain spring for household use including up to $\frac{1}{2}$ acre of lawn and garden irrigation along with a map and a spring description sheet.

Your application could not be filed at this time because it was not accompanied by the statutory examination fee of \$20.00. Also required to accompany the application is the permit recording fee of \$15.00, making a total of \$35.00 required.

The legal description of the property where the water is to be used must accompany your application. This can be copied from your deed, title insurance policy, or sales contract.

Your application appears to be in satisfactory form except for the required fees and legal description. We will retain the application, map, and spring description sheet in this office for a reasonable length of time. It can be filed and will receive a priority date as of the day the required fees are received in this office.

Sincerely,
