SECTION 2: PROPERTY OWNERSHIP

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.
YES, there are no encumbrances. YES, the land is encumbered by easements, rights of way, roads or other encumbrances.
NO, I have a recorded easement or written authorization permitting access. NO, I do not currently have written authorization or easement permitting access. NO, written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040). NO, because water is to be diverted, conveyed, and/or used only on federal lands.
Affected Landowners: List the names and mailing addresses of all owners of any lands that are not owned by the applicant and that are crossed by the proposed ditch, canal or other work, even if the applicant has obtained written authorization or an easement from the owner. (<i>Attach additional sheets if necessary</i>).

Legal Description: You must provide the legal description of: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the water is to be used as depicted on the map.

SECTION 3: WELL DEVELOPMENT

		IF LESS 7	THAN 1 MILE:
WELL NO.	NAME OF NEAREST SURFACE WATER	DISTANCE TO NEAREST SURFACE WATER	ELEVATION CHANGE BETWEEN NEAREST SURFACE WATER AND WELL HEAD
Well 1	N. Santiam River	1500'	5'
			-

Please provide any information for your existing or proposed well(s) that you believe may be helpful in evaluating your application. For existing wells, describe any previous alteration(s) or repair(s) not documented in the attached well log or other materials(attach additional sheets if necessary).

	RECEIVED
	JAN 2 7 2020
	OWRD
For Department Use: App. Number:	6-18907

SECTION 3: WELL DEVELOPMENT, continued

Total maximum rate requested: 4.3 CFS (each well will be evaluated at the maximum rate unless you indicate well-specific rates and annual volumes in the table below).

The table below must be completed for each source to be evaluated or the application will be returned. If this is an existing well, the information may be found on the applicable well log. (If a well log is available, please submit it in addition to completing the table.) If this is a proposed well, or well-modification, consider consulting with a licensed well driller, geologist, or certified water right examiner to obtain the necessary information.

										PROPOSED USE			
OWNER'S WELL NAME OR NO. 								20					

^{*} Licensed drillers are required to attach a Department-supplied Well Tag, with a unique Well ID or Well Tag Number to all new or newly altered wells. Landowners can request a Well ID for existing wells that do not have one. The Well ID is intended to serve as a unique identification number for each well.

^{***}Source aquifer examples: Troutdale Formation, gravel and sand, alluvium, basalt, bedrock, etc.

^{**} A well log ID (e.g. MARI 1234) is assigned by the Department to each log in the agency's well log database. A separate well log is required for each subsequent alteration of the well.

SECTION 4: SENSITIVE, THREATENED OR ENDANGERED FISH SPECIES PUBLIC INTEREST INFORMATION

This information must be provided for your application to be accepted as complete. The Water Resources Department will determine whether the proposed use will impair or be detrimental to the public interest with regard to sensitive, threatened or endangered fish species if your proposed groundwater use is determined to have the potential for substantial interference with nearby surface waters.

the potential for substantial interference with nearby surface waters.
To answer the following questions, use the map provided in <u>Attachment 3</u> or the link below to determine whether the proposed point of appropriation (POA) is located in an area where the Upper Columbia, the Lower Columbia, and/or the Statewide public interest rules apply.
For more detailed information, click on the following link and enter the TRSQQ or the Lat/Long of a POA and click on "Submit" to retrieve a report that will show which section, if any, of the rules apply: https://apps.wrd.state.or.us/apps/misc/lkp_trsqq_features/
If you need help to determine in which area the proposed POA is located, please call the customer service desk at (503) 986-0801.
<u>Upper Columbia - OAR 690-033-0115 thru -0130</u>
Is the well or proposed well located in an area where the Upper Columbia Rules apply?
☐ Yes ⊠ No
If yes, you are notified that the Water Resources Department will consult with numerous federal, state, local and tribal governmental entities so it may determine whether the proposed use is consistent with the "Columbia River Basin Fish and Wildlife Program" adopted by the Northwest Power Planning Council in 1994 for the protection and recovery of listed fish species. The application may be denied, heavily conditioned, or if appropriate, mitigation for impacts may be needed to obtain approval for the proposed use.
If yes, and if the Department determines that proposed groundwater use has the potential for substantial interference with nearby surface waters:
 I understand that the permit, if issued, will not allow use during the time period April 15 to September 30, except as provided in OAR 690-033-0140.
 I understand that the Department of Environmental Quality will review my application to determine if the proposed use complies with existing state and federal water quality standards.
I understand that I willinstall and maintain water use measurement and recording devices as required by the Water Resources Department, and comply with recording and reporting permit condition requirements. Lower Columbia - OAR 690-033-0220 thru -0230
Lower Columbia - OAR 690-033-0220 thru -0230
Is the well or proposed well located in an area where the Lower Columbia rules apply? Yes No

If yes, and the proposed groundwater use is determined to have the potential for substantial interference with nearby surface watersyou are notified that the Water Resources Department will determine, by reviewing recovery plans, the Columbia River Basin Fish and Wildlife Program, and regional restoration programs applicable to threatened or endangered fish species, in coordination with state and federal agencies, as

appropriate, whether the proposed use is detrimental to the protection or recovery of a threatened or endangered fish species and whether the use can be conditioned or mitigated to avoid the detriment.

If a permit is issued, it will likely contain conditions to ensure the water use complies with existing state and federal water quality standards; and water use measurement, recording and reporting required by the Water Resources Department. The application may be denied, or if appropriate, mitigation for impacts may be needed to obtain approval of the proposed use.

•	If the use is domestic , indicate the number of households:(Exempt Uses: Please note that 15,000 gallons per day for single or group domestic purposes and 5,000 gallons per day for a single industrial or commercial purpose are exempt from permitting requirements.) If the use is mining , describe what is being mined and the method(s) of extraction(attach additional sheets if necessary):
SE	CTION 6: WATER MANAGEMENT
A.	Diversion and Conveyance What equipment will you use to pump water from your well(s)?
	□ Pump (give horsepower and type): 150 HP Turbine Well 1 □ Other means (describe):
	Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water. This is an existing system and the water is pumped from the wells and moved to the fields or greenhouses by buried mainline and temperature control is applied by high-pressure sprinklers.
В.	Application Method What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler)(attach additional sheets if necessary) It is proposed to use the existing high-pressure sprinkler irrigation system for temperature control.
C.	Conservation Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to aquatic life and riparian habitat; prevent the discharge of contaminated water to a surface stream; prevent adverse impact to public uses of affected surface waters(attach additional sheets if necessary). The requested amount of water is needed for crop temperature control. Care will be taken to keep all equipment in good operating condition and will only be used when needed.
SE	CTION 7: PROJECT SCHEDULE
	 a) Date construction will begin: This is an existing system. b) Date construction will be completed: Request the standard 5 years to accommodate any alterations needed. c) Date beneficial water use will begin: As soon as permit is issued.
SE	CTION 8: RESOURCE PROTECTION
act	granting permission to use water the state encourages, and in some instances requires, careful control of ivities that may affect adjacent waterway or streamside area. See instruction guide for a list of possible permit uirements from other agencies. Please indicate any of the practices you plan to undertake to protect water ources.
	Water quality will be protected by preventing erosion and run-off of waste or chemical products. Describe: <i>This application is for temperature control use and care will be taken to prevent erosion and run-off.</i>
	Excavation or clearing of banks will be kept to a minimum to protect reparian or streamside areas.

SECTION 10: REMARKS

Use this space to clarify any information you have provided in the application (attach additional sheets if necessary).

This Weyerhaeuser farm uses seeds harvested from its on farm orchards to grow new trees for reforestation planting. In the period from Oct. 1 to May 31, these small trees need to be protected from below freezing temperatures with high pressure sprinklers. It is proposed by this application to add new temperature control (TC) of 4.3 cfs to 52.6 acres within the footprints of GR-170 and Cert. 24690 IS from Well 1.

For Department Use: App. Number: 6-18907 Rev. 08-18

Minimum Requirements Checklist

Minimum Requirements (OAR 690-310-0040, OAR 690-310-0050 & ORS 537.140)

Include this checklist with the application

Check that each of the following items is included. The application will be returned if all required items are not included. If you have questions, please call the Water Rights Customer Service Group at (503) 986-0900.

Please submit the original application and signatures to the Water Resources Department. Applicants are encouraged to keep a copy of the completed application.

- Within a District
- SECTION 10: Remarks

Include the following additional items:

- □ Land Use Information Form with approval and signature of local planning department (must be an original) or signed receipt.
- Provide the legal description of: (1) the property from which the water is to be diverted, (2) any property crossed by the proposed ditch, canal or other work, and (3) any property on which the water is to be used as depicted on the map.
- Fees Amount enclosed: \$3,610 See the Department's Fee Schedule at www.oregon.gov/owrd or call (503) 986-0900.
- Map that includes the following items:
 - Permanent quality and drawn in ink
 - \boxtimes Even map scale not less than 4" = 1 mile (example: 1" = 400 ft, 1" = 1320 ft, etc.)
 - North Directional Symbol
 - Township, Range, Section, Quarter/Quarter, Tax Lots
 - Reference corner on map
 - □ Location of each diversion, by reference to a recognized public land survey corner (distances) north/south and east/west)
 - Indicate the area of use by Quarter/Quarter and taxlot identified clearly.
 - Number of acres per Quarter/Quarter and hatching to indicate area of use if for primary irrigation, supplemental irrigation, or nursery
 - □ Location of main canals, ditches, pipelines or flumes (if well is outside of the area of use)

Note: In addition to a groundwater application, a standard reservoir application is required to store groundwater in a reservoir. If an applicant proposes to divert water from a reservoir, a surface water application is also required.

Land Use Information Form

Oregon Water Resources Department 725 Summer Street NE, Suite A Salem, Oregon 97301-1266 503-986-0900 www.oregon.gov/OWRD

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; OR
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or groundwater registration modification, <u>and all</u> of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land use form and return it to the WRD. If no land use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

WEYERHAEUSER NR COMPANY

CERTIFICATE OF AUTHORITY AND INCUMBENCY

I, Jose Quintana, Assistant Secretary of Weyerhaeuser NR Company (the "Company"), a corporation organized under the laws of the State of Washington, do hereby certify that:

- (1) I am the duly appointed and qualified Assistant Secretary of the Company and as such Assistant Secretary I have access to the corporate and stock books and the corporate seal of the Company and its subsidiaries;
- (2) I have reviewed the Bylaws and Delegations of Authority Policy of Weyerhaeuser Company and subsidiaries and confirm that Jeff Mehlschau, Western Regeneration Team Leader, has been duly delegated the authority on behalf of the Company to execute and deliver the application, agreements, amendments, certificates, instruments, documents, notices, consents, approvals, permits and other documents in connection with water rights located in the State of Oregon.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Company this 24 day of January 2020.

Jose Quintana, Assistant Secretary Weyerhaeuser NR Company
